Notice Regarding the Determination of Dividend of Surplus (Interim Dividend)

WELLNEO SUGAR Co., Ltd. (the “Company”) is announcing that a meeting of the Board of Directors was held today where the amount of dividends of surplus funds (interim dividend) was released with the record date of September 30, 2025, as described below.

1. Details of the interim dividend

	Resolved amount	Most recent dividend forecast (announced on August 5, 2025)	Results for the previous fiscal year (fiscal year ended March 31, 2024)
Record date	September 30, 2025	No change	September 30, 2024
Dividend per share	54.00 yen	No change	46.00 yen
Total amount of dividend	1,771,192,116 yen	—	1,507,185,170 yen
Effective date	December 1, 2025	—	December 2, 2024
Source of dividends	Retained earnings	—	Retained earnings

(Note) The total amount of interim dividends for the current fiscal year includes dividends for the 57,500 shares of the Company's stock held by the officers' share delivery trust (RS trust) as of the record date.

2. Reason for the determination of the interim dividend amount

The Company has stated in the basic policy for capital allocation that we intend to increase the medium to long-term return on equity (ROE) and achieve both successful growth investment and high shareholder returns. The dividend distribution is based on the consolidated dividend payout ratio (DPR) of 60% or dividend on equity (DOE) of 3%, whichever is higher. The Company has determined that, of this amount, 50% of the forecast amount of annual dividend per share (fractions of a yen are rounded

up) at the time of the release of the consolidated financial results for the interim period will be the amount of the interim dividend per share.

In line with the Summary of Consolidated Financial Results for the Six Months Ended September 30, 2025 released today, the forecast for the annual dividend has been determined at 108 yen per share, unchanged from the previous forecast (announced on August 5, 2025).

Therefore, the amount of the interim dividend per share will be 54 yen: 50% (a fraction of a yen is rounded up) of 108 yen, the forecast amount of the annual dividend per share.

(The Company provides in the Articles of Incorporation that interim dividends may be issued, as set out in Article 454, Paragraph 5 of the Companies Act, with the record date of September 30 of each year by resolution of the Board of Directors.)

Calculation formula of the amount of annual dividend per share

Based on the consolidated DPR of 60%

60% of year-end consolidated basic earnings per share of 179.88 yen = 108 yen (the fraction of a yen is rounded up)

Based on DOE of 3%

3% of year-end equity attributable to owners of parent per share of 2,345.04 yen = 71 yen (the fraction of a yen is rounded up)

Since the resulting 108 yen, based on 60% of DPR, is larger, 108 yen will be the forecast annual dividend per share.

(Reference) Annual dividend forecast (No change from the August 5, 2025 announcement.)

	Dividend per share		
	End of interim period	Year-end	Total
Fiscal year ended March 31, 2026	54.00 yen (Results for the current fiscal year)	54.00 yen (Forecast)	108.00 yen (Forecast)
Results for the previous fiscal year (fiscal year ended March 31, 2025)	46.00 yen	56.00 yen	102.00 yen
