1. 1Q FY8/2026 Financial Summary

Executive Summary

■ Record high first quarter sales but earnings down following high earnings due to existing store collaboration programs one year earlier; bottom-line profit increased

Karaoke: Continuing to open many stores but existing store sales were down due to the major collaboration program in FY8/2025. Sales were up 0.3% after eliminating the collaboration contribution.

Although personnel and utility expenses ratio to sales declined because of the optimized management, earnings were down due to higher other fixed expenses. Remained profitable in the first quarter.

Real Estate Management:

Sales remained and earnings up despite the sales of properties because of the stable performance of existing properties and contribution from new properties. Consolidated Profit after tax increased because of gains on real estate sales.

Other: Strong sales at existing food and beverage stores but an operating loss caused by closure of remaining bath houses and opening of CAFÉ ECLA .

■ Dividend per share:

Interim 13 yen, Year-end 13 yen, Annual 26 yen (planned increase of 2 yen)

Dividend increased for the fifth consecutive year to a new all-time high, adjusted for stock splits

Balance Sheet

Balance Sheet

- Cash was used for the Standard Corp. absorption type split, which created goodwill (intangible assets) of 3 billion yen as of the end of the first quarter. Continuation of opening many stores raised property, plant and equipment and leasehold deposits (intangible assets). These increase was offset by drawing down cash and deposits that had increased at the end of FY8/2025 and through short-term borrowings. (Million yen)
