## 1. Qualitative Information and Consolidated Financial Statements

## (1) Explanation of business performance

During the first three months of fiscal 2026 (the period under review), the global economy continued to recover gradually, although there was some uncertainty due to U.S. trade policy.

In these circumstances, the Group delivered strong sales growth in Japan. Specifically, the Domestic Foods—Manufacturing and Sales business as a whole reported a year-on-year increase in sales, and so did both of the Overseas Foods—Manufacturing and Sales and Overseas Foods—Wholesale businesses on a local currency basis, despite the impact of currency conversion due to the yen's appreciation.

As a result, consolidated operating results for the period under review were as follows.

Performance in each reportable segment is outlined as follows.

## [Domestic]

Revenue in Japan was as follows.

## Foods—Manufacturing and Sales

This operating segment comprises the Soy Sauce Division; the Food Products Division, which includes *tsuyu* (soy sauce soup base), *tare* (dipping and marinade sauces), and Del Monte seasonings; the Beverages Division, which includes soy milk beverages and Del Monte beverages; and the Liquor and Wine Division, which includes *mirin* and wines. The segment is engaged in manufacturing and sale of the above products in Japan. Revenue for each division was as follows.

#### ■Soy Sauce Division

Sales of the *Itsudemo Shinsen* (always fresh) series increased year on year, mainly due to the continued implementation of TV advertisement-focused marketing measures with the aim of communicating product's value added. However, sales of products in conventional plastic bottles such as *Koikuchi Shoyu* decreased year on year.

As a result, overall sales in the home-use sector were lower than the year-ago level. In the industrial- and food service-use sectors, sales decreased year on year. As a result, overall sales of the Soy Sauce Division marked a year-on-year decrease.

#### ■Food Products Division

Overall sales of *tsuyu* products increased year on year. Sales of *tare* products decreased year on year as a whole under the challenging market environment, despite the strong performance of Steak Soy Sauce. Sales of the *Uchino Gohan series* (handy Japanese-style seasoning mixes) decreased year on year with lower sales of *Mazegohan-no Moto* than the year-ago level mainly due to the impact of rising rice prices, despite higher sales of the *Osozai- no Moto* series than the year-ago level due to strong performance of newly launched *Uchino Gohan Vege*. Sales of Del Monte seasonings increased year on year. As a result, overall sales for the Food Products Division marked a year-on-year increase.

#### **■**Beverages Division

Overall sales of soy milk beverages increased year on year. Specifically, driven by growing health and beauty awareness, consumption methods diversified — soy milk was not only enjoyed as a drink on its own but also used in soy lattes and other mixed beverages. In addition, opportunities to use soy milk in cooking increased. As a result, sales of products in one-liter and 200-milliliter containers were higher than the year-ago level, as we implemented proactive advertisement and in-store promotion activities. Overall sales of Del Monte beverages decreased year on year mainly due to the discontinuation of some products, despite the favorable performance of newly launched products, including Puree Fruits. As a result, overall sales of the Beverages Division marked a year-on-year increase.

## ■Liquor and Wine Division

Sales of *Hon Mirin* increased year on year, reflecting strong sales of high value-added products such as *Komekoji Kodawari-jikomi Hon Mirin* in the home-use sector. In addition, sales of products in the industrial-and food service-use sectors rose year on year. Sales of wine decreased year on year. As a result, overall sales of the Liquor and Wine Division marked a year-on-year decrease.

As a result of the above, the Foods—Manufacturing and Sales segment recorded higher revenue and lower profit, with revenue increasing 2.1% year on year, to \(\frac{4}{3}9,990\) million, and business profit decreasing 9.7% year on year, to \(\frac{4}{2},527\) million.

#### Others

This segment includes production and sale of clinical diagnostic reagents, hygiene inspection agents, and chemical products such as hyaluronic acid, as well as real estate rental, logistics, back-office functions for the Kikkoman Group, and other businesses.

Sales of clinical diagnostic reagents, hygiene inspection agents, and hyaluronic acid increased year on year. Sales of logistics decreased year on year. As a result, overall sales for the Domestic Others segment marked a year-on-year decrease.

As a result of the above, the Others segment recorded lower revenue and higher profit, with revenue decreasing 1.2% year on year, to ¥5,400 million, and business profit increasing 33.8% year on year, to ¥478 million.

## [Overseas]

Revenue overseas was as follows.

#### Foods—Manufacturing and Sales

This segment comprises the Soy Sauce Division, Del Monte Division, and the Other Foods Division. The segment is engaged in manufacturing and sale of the above products overseas. Revenue for each division was as follows.

#### ■Soy Sauce Division

In North America, the division developed business by leveraging the Kikkoman brand with a continued focus on enhancing its lineup of soy sauce-based seasonings and other products, on top of its mainstay soy sauce products in the home-use sector. In the industrial- and foodservice-use sectors, the division has expanded its business by meticulously responding to the needs of our customers. During the period under review, sales in the U.S. home-use sector increased on a local currency basis compared to the previous year, while sales in the industrial-use sector decreased. Additionally, sales in Canada and Mexico decreased year on year on a local currency basis. As a result, overall sales in the region marked a year-on-year decrease.

In Europe, sales increased year on year in key markets such as Germany, France, the U.K., and Italy on a local currency basis. As a result, overall sales in the region also marked a year-on-year increase.

In Asia and Oceania, overall sales increased year on year, reflecting sales growth in markets such as Indonesia and China.

As a result, overall sales for the Soy Sauce Division marked a year-on-year increase on a local currency basis, despite lower sales than the year-ago level due to the impact of currency conversion.

#### ■Del Monte Division

This division manufactures and sells canned fruits, canned corn, tomato ketchup and other products in the Asia and Oceania region.

Overall sales for the Del Monte Division marked a year-on-year increase.

#### Foods—Wholesale

This segment procures and sells Asian foods in Japan and overseas.

Sales remained at the same level as the previous year in Europe on a local currency basis, while sales grew steadily in North America, Asia and Oceania on a local currency basis.

As a result, overall sales for the Foods—Wholesale segment marked a year-on-year increase on a local currency basis, despite lower sales than the year-ago level due to the impact of currency conversion.

As a result of the above, the Foods—Wholesale segment recorded lower revenue and lower profit, with revenue decreasing 2.2% year on year, to ¥99,168 million, and business profit decreasing 18.7% year on year, to ¥6,400 million.

As a result of the aforementioned segment results, the Company reported consolidated revenue for the first three months of fiscal 2026 of \(\frac{\pmathbf{175}}{660}\) million decreasing 1.4% year on year, business profit of \(\frac{\pmathbf{19}}{19,532}\) million decreasing 10.8%, operating profit of \(\frac{\pmathbf{19}}{19,091}\) million decreasing 11.1%, and profit attributable to owners of the parent of \(\frac{\pmathbf{15}}{293}\) million decreasing 15.3%.

## (2) Explanation of financial position

#### (Assets)

Current assets as of June 30, 2025 were \(\frac{\pmathbf{3}}{3}\)18,052 million, down \(\frac{\pmathbf{4}}{16,797}\) million from March 31, 2025. This was mainly due to a decrease in cash and cash equivalents. Non-current assets were \(\frac{\pmathbf{3}}{3}\)46,055 million, up \(\frac{\pmathbf{4}}{1}\),490 million from March 31, 2025. This was mainly attributable to increases in property, plant and equipment and other financial assets despite a decrease in right-of-use assets.

As a result, total assets decreased \(\frac{\pmathbf{4}}{15}\),306 million from March 31, 2025 to \(\frac{\pmathbf{4}}{64}\),107 million.

#### (Liabilities)

Current liabilities as of June 30, 2025 were ¥81,589 million, down ¥6,462 million from March 31, 2025. This was mainly due to decreases in trade and other payables and other current liabilities, despite an increase in income tax payable. Non-current liabilities were ¥74,152 million, down ¥1,160 million from March 31, 2025. This was largely due to a decrease in long-term lease liabilities.

As a result, total liabilities decreased \(\frac{\pmathbf{Y}}{7}\),622 million from March 31, 2025 to \(\frac{\pmathbf{1}}{155}\),741 million.

#### (Equity)

Equity as of June 30, 2025 was ¥508,365 million, down ¥7,684 million from March 31, 2025. This was largely attributable to a decrease due to the acquisition of treasury stock as well as a decrease in exchange differences on translation of foreign operations resulting from the continued strengthening of the yen, despite an increase in retained earnings.

As a result, the ratio of equity attributable to owners of the parent to total assets was 75.5% (up from 74.8% on March 31, 2025).

## (Segment Information)

#### (a) Overview of reportable segments

The Group's reportable segments are components of the Group for which separate financial information is available. The Group's Board of Directors uses these operating segments periodically to make decisions on the allocation of management resources and to evaluate business performance. The Group does not aggregate the operation segments in determining the reportable segments.

The Company, as a holding company, mainly formulates Group strategies and manages operating companies. Under this structure, Japanese companies are categorized into companies that primarily engage in the manufacturing and sale of foods and others. Overseas business is operated by the holding company's overseas business divisions, and the operating companies are categorized into companies that engage in foods manufacturing and sale and companies that engage in wholesale of Asian food products.

Accordingly, the Group consists of four reportable segments that are a matrix of domestic and overseas regions and types of business: "Domestic Foods—Manufacturing and Sales," "Domestic Others," "Overseas Foods—Manufacturing and Sales" and "Overseas Foods—Wholesale."

The Domestic Foods—Manufacturing and Sales segment engages in the manufacturing and sale of soy sauce, food products, beverages, liquor and wine in Japan. The Domestic Others segment engages in the manufacturing and sale of pharmaceuticals and chemical products and in real estate rentals, logistics, back-office functions and other businesses in Japan. The Overseas Foods—Manufacturing and Sales segment engages in the manufacturing, sale and exporting of soy sauce, Del Monte products and other foods and in the export and sale of products for overseas markets. The Overseas Foods—Wholesale segment purchases and sells Asian foods in domestic and overseas markets.

#### (b) Information about reportable segments

Segment profit (loss) represents business profit, which is the amount obtained by deducting cost of sales and selling, general and administrative expenses from revenue. Inter-segment revenue and transfers are determined based on prevailing market prices.

## (c) Information about revenue and profit or loss by reportable segment is set out below:
