Notice Regarding 20-Launch Agreement with Rocket Lab

Synspective Inc. (the “Company”) hereby announces that it has signed a multi-year launch agreement with Rocket Lab Corporation, a global leader in launch services and space systems, for 20 dedicated launches on its Electron rocket. The agreement is the largest launch contract in the Company's history and one of the largest multi-launch agreements Rocket Lab has signed with a single customer. Missions are scheduled from 2028 through 2031.

(Future Outlook)

This agreement relates to future satellite launches and has no impact on the full-year earnings forecast for the fiscal year ending December 2026, disclosed on February 13, 2026.

We will provide updates on our launches through press releases and financial results materials as they become available.
