Notice Concerning Construction of New Plant by Our Consolidated Subsidiary

ALCONIX CORPORATION hereby announces that OHKAWA CORPORATION, a consolidated subsidiary member of ALCONIX Group (head office: Setagaya-ku, Tokyo; Representative Director: Susumu Koike; hereinafter, “OHKAWA”), has resolved to construct the “Ozasou Plant” in Fukushima City as its third production site, following the Fukushima Plant and Kaminagura Plant.

In connection with the acquisition of the plant site, OHKAWA also entered into a “Basic Agreement on Location” with Fukushima City, Fukushima Prefecture (Mayor: Yuki Baba) on Wednesday, August 5, 2026.

Details

Background to the Construction of the “Ozasou Plant”

OHKAWA, which will celebrate the 75th anniversary of its founding in 2026, has operated in Fukushima City for more than 35 years since the construction of the Fukushima Plant in 1989. The construction of the “Ozasou Plant” will allow OHKAWA to more than double its current production capacity for precision metal processing parts for aerospace and semiconductor manufacturing equipment, which constitute its core business.

In conjunction with the construction of the new plant, OHKAWA plans to hire 20 new employees when operations commence.

The Ozasou Plant will be located in Lot H of the Phase 2 Fukushima Ozasou Inter Industrial Park, which is directly connected to the Fukushima-Ozasou Interchange on the Tohoku-Chuo Expressway. The site is expected to support future business expansion by leveraging its excellent transportation access and industrial cluster environment.

Through these initiatives, OHKAWA will contribute to the promotion of manufacturing and the creation of local employment in Fukushima City, while also contributing to the achievement of the ordinary profit target of ¥15.0 billion set forth in the numerical targets of ALCONIX Group’s “Long-Term Management Plan 2030.”*
