### [Monthly comment]

In April, net sales totaled 103.6% for existing stores compared with the previous year and 110.8% for all stores.

In April, although temperatures remained lower than in April of the previous year, sales at all stores and existing stores exceeded those of the previous year due to favorable sales of spring and summer apparel, growth in hobby goods resulting from the sale of high-priced merchandise, and firm sales of brand-name and other fashion goods.
