Furthermore, the Board of Directors has judged that the compensation, etc. for each individual director in the fiscal year ended March 2025 is in line with this policy regarding decisions of compensation, etc. as it has confirmed that the method for deciding the details of compensation, etc. and the details of the compensation, etc. that were determined are consistent with this policy regarding decisions of compensation, etc.

 - f) Compensation of part-time internal directors consists only of “base compensation” due to their role of supervising the business execution from an objective standpoint.
- B) Policy regarding decisions on the percentage of each type of compensation for each director
- a) The composition ratio of each type of compensation for directors concurrently serving as executive officers is decided based on b) and d) in A) above.
 - b) The composition ratio of each type of compensation for the Chair and director and external directors is decided based on b) and e) in A) above.

(Translation)

to long-term, for which achievements are difficult to measure based only on the figures of financial results.

Reference: The Company revised the policy regarding decisions of the details of the compensation, etc.

for each of the directors excluding Audit & Supervisory Committee Members from the fiscal year ended March 2023, deciding that the details and calculation method for performance indicators, etc., relating to bonuses, which are monetary compensation, would retain a central emphasis on evaluation of performance in terms of consolidated business profit, etc., but would also include an evaluation by non-financial indicators (sustainability factors, etc.). The purpose of this change is to increase directors' awareness of sustainability, and in the fiscal year ended March 2025, the Company conducted an evaluation based on BEI* as a non-financial indicator, as well as an evaluation based on its employee engagement score.

* Building Energy-efficiency Index. An index for evaluating the energy-efficiency performance of buildings based on the energy efficiency standards under the Act on the Improvement of Energy Consumption Performance of Buildings (Building Energy Efficiency Act). It represents the primary energy consumption standard for buildings.

<Share-based compensation>

- a) The performance-based compensation adopts performance-sharing ("PS") providing incentive for enhancement of medium- to long-term performance, and implements, after three years of the commencement of each business year, delivery or payment ("delivery, etc.") of the Company's shares and/or an amount equivalent to the proceeds of converting the Company's shares into cash (the "Company Shares, etc.").
- b) The non-performance-based portion adopts restricted shares ("RS") providing an incentive for long-term contributions and enhancement of corporate value to delay delivery, etc. until retirement as an officer.
- c) The share-based compensation adopts the system of executive compensation BIP (Board Incentive Plan) trust (the "Trust"). The Company Shares, etc. to be delivered, etc. is set at one Company's share per one point, according to the number of points calculated based on the below formula.

[Calculation formula of points]

• PS portion

The number of points (the "Number of PS Points") to be granted to directors for each fiscal year during the covered period is calculated by dividing the amount of pre-determined base compensation with respect to each executive position by the share price as of the acquisition of

(Translation)

the Company's shares by the Trust. The number of achievement-linked points shall be calculated by multiplying the Number of PS Points granted for each fiscal year by the achievement-linked coefficient determined based on the level of performance three years after the beginning of the applicable fiscal year. For the achievement-linked coefficient, the target ranges (0-200%) are set based on the "business profit" from the viewpoint of profit growth and return on equity (ROE) from the viewpoint of maintaining the capital efficiency, out of the management benchmarks listed in the Business Plan.

- RS portion

The number of points (the "Number of RS Points") to be granted to directors and added for each fiscal year during the covered period is calculated by dividing the amount of pre-determined base compensation with respect to each executive position by the share price as of the acquisition of the Company's shares by the Trust.

E) Matters regarding the method for determining the details of compensation for each director

- a) The determination of the specific details of the amount of base compensation and bonuses, both of which are monetary compensations, to be paid out is delegated to the President and representative director based on a resolution of the Board of Directors.
- b) The payment level shall be deliberated by the Advisory Committee Relating to Nominations and Compensation for the appropriate exercise of the authority stated in a) above by the President and representative director.

F) Other important matters relating to compensation for each Director

Regarding share-based compensation, the Company formulated "share delivery regulation" to handle repayment claims at an amount equivalent to the Company shares, etc. to be delivered, etc. in the event that specific circumstances (improper conduct, etc.) occur.

[Support System for External Directors]
