CRR seeks to achieve stable earnings and ensure the steady growth of our managed assets based on medium and long-term perspectives to maximize our unitholders' value. CRR believes that it is also important to reduce our environmental footprint and contribute to the surrounding communities and environment in addition to our basic policies of “investments in residential properties with high growth potential” and “utilization of the TOKYU FUDOSAN HOLDINGS Group”.

CRR will continue to advance measures to increase asset value in terms of environmental and energy-saving measures of owned properties as well as contributing to the surrounding communities.
