### 1. Qualitative Information on Quarterly Consolidated Financial Performance

# (1) Explanation of Results of Operations

During the first quarter of the fiscal year ending October 31, 2022, there was a slow recovery of the Japanese economy as more people received COVID-19 vaccinations and for other reasons. However, the economic outlook remains uncertain because of the prolonged U.S.-China trade friction, the emergence of a new COVID-19 variant and other events.

Japan's market for newly constructed condominiums is the primary business domain of the Good Com Asset Group. During the first three months ended January 2022, the percentage of new condominiums sold in the Tokyo metropolitan area within one month of going on sale was 74.9%, according to the Real Estate Economic Institute. This percentage was 72.1% in Tokyo's 23 wards, the Group's main business area. This is above the 70% level generally regarded as a sign of a strong condominium market. The percentage sold within one month in the Tokyo metropolitan area was 12.7 points higher than one year earlier mainly because of increasing demand for residences resulting from changes in life styles caused by the COVID-19 crisis.

The Good Com Asset Group continued to expand planning, development and sales activities, mainly in Tokyo's 23 wards, for the Genovia series of condominiums, which consists of the Genovia green veil, Genovia skygarden and Genovia skyrun brands. We also reinforced the customer support framework and strengthened the Genovia brand. During the first quarter, 54 condominium units in 9 buildings were sold. Properties acquired were 151 units in one building.

Net sales were 1,831 million yen compared with 3,698 million yen one year earlier. The operating loss was 195 million yen compared with an operating profit of 249 million yen one year earlier, the ordinary loss was 238 million yen compared with an ordinary profit of 185 million yen one year earlier, and the loss attributable to owners of parent was 243 million yen compared with a profit attributable to owners of parent of 117 million yen one year earlier.

Beginning with the first quarter of the current fiscal year, the Company has applied Accounting Standard for Revenue Recognition (ASBJ Statement No. 29, March 31, 2020).

Due to the application of this standard, first quarter sales were less than in the first quarter of the previous fiscal year.

Furthermore, there are no comparisons of sales between the first quarters of the current and prior fiscal years in terms of amounts and percentages of changes.

For more information, please see the section "2. Quarterly Consolidated Financial Statements and Notes, (3) Notes to Quarterly Consolidated Financial Statements (Changes in Accounting Policies)."

Results by business segment are as follows:

Beginning with the first quarter of the current fiscal year, the Good Com Fund segment has been renamed Others due to the inclusion in this segment of the new consolidated subsidiary Capital Support Consulting Co., Ltd. This subsidiary provides consulting services for initial public offerings and for investor relations and capital policies for listed companies.

# (a) Wholesale

This segment consists of sales of the Genovia series of one-room condominiums to companies and others. During the first quarter, 28 condominium units were sold.

Sales were 577 million yen compared with net sales of 1,337 million yen one year earlier, and the segment loss was 65 million yen compared with a profit of 87 million yen one year earlier.

### (b) Retail sales

This segment consists of sales of the Genovia series of one-room and family condominiums to individual investors. During the first quarter, 26 condominium units were sold.

Sales were 911 million yen compared with net sales of 1,930 million yen one year earlier, and the segment loss was 210 million yen compared with a profit of 33 million yen one year earlier.

### (c) Real estate management

Segment sales were higher as growth in the number of managed condominium buildings and tenant-occupied condominium units was strong and the occupancy rate exceeded 90% at the end of every month of the first quarter.

Sales were 343 million yen compared with net sales of 441 million yen one year earlier, and segment profit decreased 37.0% to 87 million yen.

## (d) Others

This segment consists of two new businesses that are expected to grow. One is consulting for companies planning an initial public offering and for the investor relations and capital policy activities of listed companies. The other business is the Good Com Fund, which sells small amount investment units of a real estate. Sales were 8 million yen compared with no sales one year earlier, and the segment loss was 13 million yen compared with a 14 million yen loss one year earlier.

# (2) Explanation of Financial Position

#### Assets

Total assets increased 4,546 million yen, or 22.2%, from the end of the previous fiscal year to 24,992 million yen at the end of the first quarter of the current fiscal year. This was mainly due to an increase in real estate for sale of 6,342 million yen, while there was a decrease in cash and deposits of 1,911 million yen.

#### Liabilities

Total liabilities increased 5,405 million yen, or 48.1%, from the end of the previous fiscal year to 16,643 million yen. This was mainly due to increases in current portion of long-term borrowings of 4,750 million yen and short-term borrowings of 4,019 million yen, while there were decreases in long-term borrowings of 1,893 million yen, 731 million yen in accrued consumption taxes included in other current liabilities and income taxes payable of 657 million yen.

### Net assets

Total net assets decreased 859 million yen, or 9.3%, from the end of the previous fiscal year to 8,349 million yen. The main factors include a 616 million yen decrease in retained earnings due to dividend payments and a 243 million yen decrease in retained earnings due to the booking of profit attributable to owners of parent.

Consequently, the equity ratio was 33.4% at the end of the first quarter of the current fiscal year.

# (3) Explanation of Consolidated Forecast and Other Forward-looking Statements

The Company maintains its first-half and full-year consolidated forecasts that were announced in the "Consolidated Financial Results for the Fiscal Year Ended October 31, 2021" on December 9, 2021.

## (3) Notes to Quarterly Consolidated Financial Statements

### **Going Concern Assumption**

Not applicable.

### Significant Changes in Shareholders' Equity

Not applicable.

### Changes in the Scope of Consolidation or Application of the Equity Method

Beginning with the first quarter of the current fiscal year, Capital Support Consulting Co., Ltd. is included in the scope of consolidation because of the importance of this company with regard to the consolidated financial statements.

# **Changes in Accounting Policies**

Application of the Accounting Standards for Revenue Recognition

The Company is applying the Accounting Standard for Revenue Recognition (ASBJ Statement No. 29, March 31, 2020) and other standards from the beginning of the first quarter of the current fiscal year. Based on these standards, revenue expected to be received in exchange for the provision of goods and services is recognized when the control of the goods and services is transferred to customers.

The main changes resulting from the application of the Accounting Standard for Revenue Recognition are as follows:

#### (1) Recognition of revenue for payments to customers

Some payments to customers that were previously included in selling, general and administrative expenses, such as additions to the allowance for vacancy warranties and sales promotion expenses, are instead deducted from sales due to the new revenue recognition standard.

For the application of the Accounting Standard for Revenue Recognition, in accordance with the transitional measures in the proviso to Paragraph 84 of this standard, the cumulative effect of the retrospective application of the new accounting standard, if it is applied prior to the first quarter of the current fiscal year, is added to or subtracted from retained earnings at the beginning of the first quarter of the current fiscal year. The new standard is then applied beginning with this amount of retained earnings.

As a result, net sales decreased 25 million yen and selling, general and administrative expenses decreased 25 million yen but there is no effect on operating loss, ordinary loss and loss before income taxes. In addition, there is no impact on the balance of retained earnings at the beginning of the current fiscal year.

Furthermore, in accordance with the transitional measures prescribed in Paragraph 28-15 of the Accounting Standard for Quarterly Financial Reporting (ASBJ Statement No. 12, March 31, 2020), the Company has not presented information on revenue from contracts with customers broken down for the first quarter of the previous fiscal year.

# Application of the Accounting Standards for Measurement of Fair Value

The Company has applied the Accounting Standard for Measurement of Fair Value (ASBJ Statement No. 30, July 4, 2019) and other standards from the beginning of the first quarter of the current fiscal year, and has applied the new accounting policies set forth by the Accounting Standard for Measurement of Fair Value, etc. prospectively in accordance with the transitional measures prescribed in Paragraph 19 of the Accounting Standard for Measurement of Fair Value and Paragraph 44-2 of the Accounting Standard for Financial Instruments (ASBJ Statement No. 10, July 4, 2019). There is no effect of the application of these standards on the quarterly consolidated financial statements.

# **Application of Special Accounting Methods for Presenting Quarterly Consolidated Financial Statements**

Calculation of tax expense

The tax expense was calculated by first reasonably estimating the effective tax rate after the application of tax effect accounting with respect to profit (loss) before income taxes during the current fiscal year, and multiplying that rate by the quarterly profit (loss) before income taxes. However, the Company uses legally stipulated effective tax rates to calculate tax expenses when the use of estimated tax rates produces a clearly irrational result.

3. Information related to changes in reportable segments, etc.

Beginning with the first quarter of FY10/22, the Good Com Fund segment has been renamed Others due to the inclusion in this segment of the new consolidated subsidiary Capital Support Consulting Co., Ltd. This subsidiary provides consulting services for initial public offerings and for investor relations and capital policies for listed companies.

Accordingly, the segment information for the first three months of FY10/21 is also presented using the changed names.

As described in Changes in Accounting Policies, Good Com Asset has applied the Accounting Standard for Revenue Recognition from the beginning of the first quarter of FY10/22 and changed the accounting method for revenue recognition. Accordingly, the method for calculating net sales, profit or loss for each reportable segment has been changed as well.

Compared with the previous method, sales in wholesale and retail sales for the first quarter of FY10/22 decreased by 13 million yen and 11 million yen respectively, but there is no impact on segment profit or loss.

4. Information related to impairment losses on non-current assets or goodwill, etc. for each reportable segment Impairment losses related to non-current assets

Not applicable.

Significant change in goodwill
