Notice Regarding Revision (Upward Revision) of Full-Year Consolidated Financial Results Forecasts

GREE Holdings, Inc. (the “Company”) hereby announces that it has revised its full-year consolidated financial results forecasts for the fiscal year ending June 30, 2027, which were previously announced on August 7, 2026, as described below.

1. Revision of Financial Results Forecasts

(Millions of yen)

	Consolidated net sales	Consolidated operating profit
Previous forecast (A)	51,000	3,900
Revised forecast (B)	57,000	3,900
Difference (B-A)	6,000	0
Change (%)	11.8%	0.0%
(Reference) Actual consolidated results for the previous fiscal year (Fiscal year ended June 30, 2026)	51,324	4,026

2. Reason for the Revision

Consolidated net sales are expected to exceed the previous forecast. This is primarily because net sales in the Live Entertainment Business segment are projected to increase by approximately 6,000 million yen following the consolidation of RINDO Entertainment Inc. as a subsidiary, which was announced today in the “Notice Regarding Additional Acquisition of Shares of RINDO Entertainment Inc. (Making it a Consolidated Subsidiary).”

Meanwhile, the forecast for consolidated operating profit remains unchanged from the previous announcement, as the impact on consolidated operating profit is currently expected to be limited when taking into account M&A-related expenses and other costs associated with this share acquisition.

(Note) The above forecasts are based on information available as of the date of publication of this document, and actual results may differ from these forecasts due to various factors.
