Notice Regarding the Impact on Our Financial Results Following a Revision of Business Policy by a Business Partner

In response to the announcement by Sony Honda Mobility Inc., a business partner of Fixstars Corporation (the “Company”), regarding the discontinuation of development of the electric vehicle “AFEELA,” the Company hereby announces the impact of this matter on its business.

1. Status of Transactions

The Company has participated in the relevant project primarily in the area of autonomous driving AI development.

Following the discontinuation of development, the outlook for orders associated with the project, which had been expected for the second half of the fiscal year ending September 2026, is currently uncertain.

2. Impact on Financial Results

The Company expects that the impact of this matter can be largely mitigated through the reallocation of engineers and other resources engaged in the project to other projects. Accordingly, the impact on the Company’s financial results is expected to be immaterial.

Should any event arise that requires a revision to the Company’s earnings forecast, the Company will promptly disclose such information.
