Reference Documents of the General Meeting of Shareholders

Proposal No. 1 Appropriation of Surplus

The Company proposes the appropriation of surplus as follows:

Year-end dividend

The Company has given consideration to matters including the business performance of the fiscal year and future business development, and it proposes to pay a year-end dividend for the 36th fiscal year as follows:

- (1) Type of dividend property
To be paid in cash.
- (2) Allotment of dividend property and their aggregate amount
The Company proposes to pay a dividend of 12.5 yen per common share of the Company.
In this event, the total dividends will be 323,887,475 yen.
Note: The annual dividend for the fiscal year, including the interim dividend, will be 25.00 yen per common share.
- (3) Effective date of dividends of surplus
The effective date of the dividends will be June 24, 2026.

Shareholder return policy

The Company recognizes the return of profit to its shareholders as a key management priority, and it maintains a basic policy of paying stable dividends on a continual basis while securing internal reserves to develop business in future and strengthen the management structure. The Company considers a dividend payout ratio of about 40% to 50% as an appropriate level and is committed to actively returning profit to its shareholders by continuing to pay progressive dividends.

Proposal No. 2 Election of Four Executive Directors (Excluding Executive Directors Who Are Audit and Supervisory Committee Members)

The term of office for all five Executive Directors (excluding Executive Directors who are Audit and Supervisory Committee Members. Viewpoint regarding skills of Executive Directors

1. The Board of Directors of the Company makes important business execution decisions and oversees the execution of duties by the Executive Directors. In order for the Board of Directors to properly fulfill its role, it is necessary for the Board of Directors as a whole to have the necessary skills based on the business content, business deployment, governance structure, etc. of the Company. The required skills change as the business environment changes.
2. In order to properly decide and supervise important business execution at the Company, we must first have a deep understanding of the business, that is, we must be familiar with the telecommunications business (“industry experience”). Also, “financial accounting” and “legal affairs” are required as generally required basic skills to engage in the stock business, which is a characteristic of the business of the Company. Furthermore, the importance of these skills has been increasing in recent years at a time when technological innovation is remarkable and deep knowledge of the construction and operation of communication infrastructure and communication technology (“technology”) is required in business transformation. Also, various kinds of knowledge of “corporate management” based on an advanced viewpoint and a broad visual field is very important as it is necessary to identify trends in competitors and the world and make optimal judgments and decisions these days in an environment that we have never experienced before.
3. The matrix does not represent all the experience or skills that each person has. Up to three items, as areas where the Company expects each person to demonstrate their expertise based on their experience and knowledge, are marked with a circle.
