1. Qualitative Information on the Quarterly Financial Results

(1) Explanation concerning Operating Results

During the nine months ended December 31, 2024, the Japanese economy saw a gradual pick-up in economic activities, owing partly to increases in consumer spending and inbound demand. However, the outlook remained unclear due partly to the prolonged situation between Russia and Ukraine and those around the Middle East; soaring prices of energy, natural resources and raw materials stemming from the yen-depreciation, price hikes of goods, and other factors; and globally volatile financial markets.

The information service business of the Group saw continued strategic investment designed to "grow" and "transform" the business, including the utilization of big data, the strengthening of information security, and the development of IT infrastructure, as well as the continuation of strong investment in DX aimed at improving operational efficiency and productivity through automation and labor savings.

In this business environment, the Group focused its efforts not only on existing customers but on the acquisition of new customers, mainly through the provision of different types of services that can help improve the efficiency of business operations. As a result, the Group succeeded in increasing its number of new customers. The Group also continued to develop new services that have a potential to become its focus products in the future, and proactively pursued sales activities aimed at receiving orders. Furthermore, as a result of on-going efforts from the previous fiscal year to overhaul its business structure, the Group was able to maintain the improved profit margin, resulting in increased income and profit year on year. In the nine months ended December 31, 2024, the Group acquired additional shares of ASTER's Inc., one of its subsidiaries, and made it its whollyowned one, aiming to enhance the Group's development system.

As a result, for the nine months ended December 31, 2024, the Group recorded net sales of \$5,637 million (up 12.3% year on year), operating profit of \$1,856 million (up 29.0% year on year), ordinary profit of \$1,855 million (up 28.4% year on year), and profit attributable to owners of parent of \$1,273 million (up 19.5% year on year).

(2) Explanation concerning Financial Position

(Assets)

Current assets at the end of the nine months ended December 31 (the third quarter) amounted to ¥5,494 million, a decrease of ¥36 million from the end of the previous fiscal year. This was mainly attributable to a decrease of ¥230 million in accounts receivable – trade.

Non-current assets at the end of the third quarter amounted to \$1,118 million, an increase of \$65 million from the end of the previous fiscal year. This was mainly attributable to an increase of \$272 million in buildings, despite a decrease of \$100 million in investment securities.

As a result, the total assets arrived at ¥6,613 million, an increase of ¥29 million from the end of the previous fiscal year.

(Liabilities)

Current liabilities at the end of the third quarter amounted to ¥694 million, a decrease of ¥280 million from the end of the previous fiscal year. This was mainly attributable to decreases of ¥230 million in income taxes payable and ¥39 million in accounts payable - other.

Non-current liabilities at the end of the third quarter amounted to \(\frac{\pmathbf{44}}{44}\) million, an increase of \(\frac{\pmathbf{44}}{44}\) million from the end of the previous fiscal year. This was mainly due to an increase of \(\frac{\pmathbf{43}}{34}\) million in provision for retirement benefits for directors (and other officers) of subsidiaries of the Group.

As a result, total liabilities arrived at ¥739 million, a decrease of ¥275 million from the end of the previous fiscal year.

(Net assets)
