1. Qualitative Information on Semi-annual Financial Results

(1) Explanation of Operating Results

The Group operates its food supermarkets business in the following two formats: a format that "proposes ideas for abundant, enjoyable, and healthy dietary lives" for customers who live close to our stores and visit our stores frequently (lifestyle assortment-style); and a format that offers discount to respond to needs for "bulk purchase" of customers who lives in wider areas centered around our stores (discount-style).

The basic strategies of the Group are to satisfy all customers in the local communities by deepening the two formats and thereby increase our share in them; and to allow each company to operate independently and hone their own unique "strengths."

The key theme in the period of the 11th Mid-Term Management Plan (from the fiscal year ending March 31, 2025 to the fiscal year ending March 31, 2027) has been to "become stronger through united efforts of the Group." By allowing each company which operates under either the lifestyle assortment-style or the discount-style to grow autonomously, the Group will aim to increase the share in its market territories and also promote building of the foundation to create a "system to achieve Group net sales of 1 trillion yen."

(i) A share increase in the market territories of the Group

- · Share increase in both the lifestyle assortment-style and the discount-style
- · Continuation of consideration of M&As in the lifestyle assortment-style

(ii) Strengthening of the shared functions of the Group (building the foundation to achieve Group net sales of 1 trillion yen)

- · Personnel affairs, financial affairs, internal control, store development, logistics, systems, and manufacturing
- · Fostering of management personnel, human resource interactions, and mutual learning

(iii) Investment and collaboration in growth markets

- · Growth support and collaboration in the Vietnam market
- · Collaboration and creation of new value with domestic ventures

During the three six ended September 30, 2025, the Japanese economy continued to be on a moderate recovery trend with progress in the normalization of financial policy. Meanwhile, the world economic outlook is becoming increasingly uncertain due in part to the impact of trade policies of major countries and the rise in geopolitical risks.

The food supermarkets industry is also facing the increasing thriftiness of consumers amid ongoing inflation, and the business environment surrounding the industry has been extremely challenging, with soaring expenses for personnel, construction materials, etc. and accelerating competition among companies regardless of business type, including industry reorganization.

The basic policies of the Company have been set as "enhancing meal solutions" and "emphasizing price-conscious choices," and the key theme of the 11th Mid-Term Management Plan has been set as "The New Yaoko: Structural reform from the Showa model to the Reiwa model." During the fiscal year under review, in addition to implementing a special promotion to commemorate our 135th anniversary, we worked on the following priority measures under the theme of "Impressing all customers with deliciousness."

[Product and Sales Strategy]

On the product front, we have been focusing on enhancing meal solutions to realize product assortments that lead to uniqueness and differentiation of the Company. In addition, in order to achieve competitive advantage throughout the value chain, we are aiming to enhance SPA-type product development by tapping into the manufacturing and retailing industry. Furthermore, we are refining the quality and prices of our private brand products.

On the sales front, we have been emphasizing price-conscious choices by continuing to respond to polarization. In addition to EDLP (Every Day Low Price measures) and "the GENSEN 100 (monthly special:100 bargain items)," we worked on pricing policies for frequently sold fresh foods. At the same time, in order to attract more customers, we implemented the "Japan's No. 1 Program" to promote single item mass sales, and the "Local Products Fair" and the "Toyosu Festival" where local specialty products from various regions are sold, among other measures. We are also promoting the "Tailored strategies for different markets" centered around sales promotion and product assortments to further advance our support for each specific customer.

[Operational Strategy]

For productivity improvement, we are working on *kaizen* (improvement) activities where operations are improved through automation and digital technologies are utilized. The utilization of an automatic ordering system for grocery products based on AI demand projections has been successful, resulting in improved productivity.

In addition, the cash register department is promoting introduction of fully self-service checkouts. Furthermore, electronic shelf labels and operational support apps have been gradually introduced to promote paperless operations, and thereby we are establishing an employee-friendly working environment.

Moreover, we are working on initiatives to reduce waste, save electricity, and promote recycling toward a recycling-oriented society.

[Human Resources Development Strategy]

Through proactive hourly wage revisions, recruitment is progressing, mainly for partner employees (part-time employees).

For the purpose of developing independent human resources who can think for themselves and yield results as a team, we have revised our personnel evaluation system including how to set targets and challenges, and are promoting company-wide efforts to instill the system.

In addition, we will improve the employee-friendliness in which female and senior employees can play an active role, and at the same time, strive to achieve health and productivity management.

[New Stores and Growth Strategy]

During the six months ended September 30, 2025, we opened the Suginami Momoi Store (Suginami-ku, Tokyo), the Matsudo Kogasaki Store (Matsudo-shi, Chiba Prefecture) in June, and Maruhiro Ageo SC Store (Ageo-shi, Saitama Prefecture) in September.

The Suginami Momoi Store marks our first opening within the 23 special wards of Tokyo.

In addition, we also opened the Itabashi Yotsuba Store in November during the fiscal year under review.

Furthermore, alongside the large-scale renovation of the Kumagaya Hakoda Store, we plan to renovate a total of nine existing stores.

The overview of each company of the Group is as follows:

AVE Co., Ltd. has formed a dominant area centered around Kanagawa Prefecture. The company has set its basic policies as "unrivalled low prices" and "thorough low-cost operation," and is striving to realize the policies through various measures and initiatives. Hiratsuka store (Hiratsuka-shi, Kanagawa Prefecture), which opened in October last year, is performing well.

Sendo Co., Ltd. has formed a dominant area centered around Ichihara-shi, Chiba Prefecture. The company operates food supermarkets with tremendous advantage in perishable foods.

Foocot Co., Ltd. operates five stores mainly in Saitama Prefecture "through an overwhelming assortment of delicious products, low prices, and the thorough pursuit of low-cost operations to support this," which is its management policy.

The number of stores of the entire Group as of September 30, 2025 is 241 (YAOKO: 198; AVE: 14; Sendo: 24; and Foocot: 5).

Through sole-share transfer of the Company effective October 1, 2025, we have established BLUE ZONES HOLDINGS CO., LTD. ("BLUE ZONES HD") as our wholly owning parent company to build the foundation to achieve 1 trillion yen in group sales. The Company, BLUE ZONES HD's wholly owned subsidiary, resolved to pay dividends of surplus to BLUE ZONES HD in the form of dividends in kind of shares in subsidiaries held by our company. As a result, BLUE ZONES HD has acquired all shares in the six second-tier subsidiaries held by our company, five of which have become subsidiaries directly wholly owned by BLUE ZONES HD and one of which (Sendo Co., Ltd.) has become a subsidiary directly owned by BLUE ZONES HD.

Regarding the share transfer agreements concluded between Delight Holdings Inc. ("Delight HD") and our company, and between Bunkado Co., Ltd. ("Bunkado") and our company, BLUE ZONES HD have succeeded these agreements effective October 1, 2025. As a result, Delight HD has become a consolidated subsidiary of BLUE ZONES HD with 70% of shares (effective October 31, 2025), and Bunkado has become a wholly owned subsidiary of BLUE ZONES HD (effective October 16, 2025).

Delight HD is a holding company which holds all shares in Cook Mart Inc. ("Cook Mart"), which in turn has developed a local supermarket chain of 12 Cook Mart stores mainly in the area between Higashi-Mikawa and Hamamatsu. Cook Mart supermarkets enjoy strong consumer support, particularly for their fresh food and delicatessen items. Based on its corporate philosophy of "Delight!" and the concept of "Real x Local x Human = Place where local vibrancy comes together, "Cook Mart excels in developing excellent physical stores based on the creation of unique organizational culture. It has achieved increased revenues for each of the last 20 years.

Bunkado is a food supermarket with 13 stores in Tokyo and 6 in Kanagawa Prefecture, evolving from its former business of a confectionery store founded in 1953 at Ebara Nakanobu in Tokyo. Bunkado aims to be a 100-year-old company based on its management credo of "stores that deliver inspiration and smiles." It seeks to maintain stable management and has grown with the support of local customers through entirely independent, region-based management.

BLUE ZONES HD aims for each operating company to compete as good rivals, striving to become better and stronger, and to achieve further growth by expanding the Blue Zone Holdings family. And then BLUE ZONES HD aims to create "a world where everyone in the local community is healthy and enjoys their daily life (a Blue Zone)" through our work in supermarkets.

As a result, total revenue for the six months ended September 30, 2025 was 394,900 million yen (up 9.8% year on year), operating profit was 23,057million yen (up 8.2% year on year), ordinary profit was 22,718 million yen (up 8.7% year on year), and Profit attributable to owners of parent was 15,351 million yen (up 6.5% year on year).

The segment information is omitted, as the Group has only a single segment, which is the supermarket business, and other businesses are immaterial.

(Notes) The term "meal solutions" refers to our solutions to help our customers solve issues related to meals by, for example, proposing their daily meal plans and advising how to cook meals.

The term "price-conscious choices" refers to pricing products always bearing in mind reasonable prices affordable for customers.

(2) Explanation of Financial Position

(Assets)

Total assets at the end of the six months of the fiscal year under review increased by 7,264 million yen compared with the end of the previous fiscal year to 383,470 million yen. This was primarily due to increases in cash and bank deposits, and an increase in property, plant and equipment associated with investment in new store openings and renovation of existing stores, and guarantee deposits, despite decreases in accounts receivable and deposits included in "other" of current assets.

(Liabilities)

Liabilities at the end of the six months of the fiscal year under review decreased by 5,533 million yen compared with the end of the previous fiscal year to 184,741 million yen. This was primarily due to decreases in borrowings, and contract liabilities included in "other" of current liabilities.

(Net Assets)

Net assets at the end of the six months of the fiscal year under review increased by 12,797 million yen compared with the end of the previous fiscal year to 198,729 million yen. This was primarily due to an increase in retained earnings arising from the recording of profit attributable to owners of parent.

(Overview of Cash Flows)

Cash and cash equivalents at the end of the six month of the fiscal year under review (hereinafter referred to as "funds") were 52,197 million yen, an increase of 3,698 million yen compared with the end of the previous fiscal year. The status of each of the cash flows and the factors behind them are as follows.

(Cash flows from operating activities)

Funds provided by operating activities at the end of the six month of the fiscal year under review were 23,691 million yen, an increase of 5,393 million yen compared with the same period last year. This was primarily due to the recording of profit before income taxes and depreciation, which offset income taxes paid.

(Cash flows from investing activities)

Funds used in investing activities at the end of the six month of the fiscal year under review were 15,780 million yen, a decrease of 1,172 million yen compared with the same period last year. This was primarily due to expenditures for investment in new store openings and renovation of existing stores.

(Cash flows from financing activities)

Funds used in financing activities at the end of the six month of the fiscal year under review were 4,212 million yen (Funds obtained at the end of the previous fiscal year were 846 million yen). This was primarily due to the payment of cash dividends and the redemption of convertible bonds, despite increases in long-term borrowings.

(3) Explanation of Consolidated Financial Results Forecast and Other Forward-looking Information

As for the financial results forecast for the fiscal year under review, we have not changed the consolidated financial results forecast announced on May 12, 2025 at this point in time. The subject acquisition of shares will be incorporated into the Company's consolidated financial results starting in the fourth quarter of the fiscal year ending March 31, 2026. The impact of this matter on consolidated financial results for the fiscal year ending March 31, 2026 is currently being examined. If any further impacts are identified in the future, we will disclose them promptly.

(Transition to Holding Company Structure through Sole-Share Transfer)

The Company has established the holding company (wholly owning parent company) "BLUE ZONES HOLDINGS CO., LTD." (the "holding company") through sole-share transfer of the Company effective October 1, 2025 (the "Share Transfer").

1. Background and purpose of transition to the holding company structure through sole-share transfer

(1) Background of transition to the holding company structure

Under the management philosophy, "More rich, enjoyable, and healthy lives for everyone in the region," the Group aims to realize sustainable growth by achieving "Constantly provide our customers with value beyond just price," "Be a company where all employees are proud of their work and enjoy their living," "Build our own model of high productivity while eliminating waste," and "Contribute to solving social issues by collaborating with all stakeholders."

In the management environment surrounding the Group, the markets are expected to shrink in such store opening areas as the northern Kanto region, the Yokosuka-Miura area (Kanagawa Prefecture), and the Sotobo area (Chiba Prefecture) due to the accelerating decline in birthrate and aging population. In addition, as the entire economy continues to show an inflationary trend, it is expected that consumers will be more cost-conscious, raw materials costs, labor costs, construction materials costs, and various other costs will continue to rise, and as a result, the environment will be severer.

Under such a severe environment, the Company decided to transition to the holding company structure in order for food supermarket companies with unique strengths to survive and continue to contribute to the improvement of dietary lives of people in the region for the future, through solidarity and friendly competition with each other.

The name of the holding company will be "BLUE ZONES HOLDINGS CO., LTD." in the hope that the Group will be recognized by local residents as contributing to the creation of a community where they can enjoy long, active, and healthy lives.

(2) Purpose of transition to the holding company structure

[1] Improving our trade area share as a group

In the food supermarket business, the Group operates two formats: one proposes ideas to all people for rich, enjoyable, and healthy lives intending to undertake frequent store visits in small trade areas (Lifestyle assortment format); and the other offers large discounts to meet the needs of customers over a wide area who buy in bulk (Discount Store format). Based on deepening these two formats, the Group's basic strategy is that the Group increases its market share by satisfying all of the customers in the region, and that each group company develops respective unique strengths through independent operations.

As a result of this transition to the holding company structure, the group companies will no longer be in the relationship of a parent and children but will be brothers, both nominally and practically. In this way, the group companies will work diligently through friendly competition with each other to achieve respective autonomous growth.

The Group will also promote further solidarity under the holding company with food supermarket companies that share the Group's philosophy and have unique strengths. The Group aims to build a large alliance of food supermarket companies that can meet the expectations of local residents.

[2] Strengthening the Group's governance

The management functions and the business execution function of the Group will be separated, and authorities and responsibilities will be clarified in each business company, which is in the business execution division. The Group will also aim to strengthen the competitiveness of the Group as a whole by

speeding up decision-making and clarifying business responsibilities.

To build the foundation to achieve 1 trillion yen in group sales, it is planned that the holding company will implement three functions: the development of strategies for group management including M&A, development of new businesses, and support for ESG; risk management for the Group as a whole; and shared services for the administration division.

2. Summary of the Share Transfer

(1) Schedule of the Share Transfer

1	Board of Directors meeting to approve the share	January 14, 2025
	transfer plan	
2	Record date of the Annual General Meeting of	March 31, 2025
	Shareholders	
3	Annual General Meeting of Shareholders to	June 24, 2025
	approve the share transfer plan	
4	Date of delisting the Company's shares	September 29, 2025
(5)	Date of registering the incorporation of the	October 1, 2025
	holding company (effective date)	
6	Date of listing the holding company's shares	October 1, 2025

(2) Method of the Share Transfer

A sole-share transfer in which the Company will become a wholly owned subsidiary resulting from the share transfer and the holding company will become the wholly owning parent company incorporated in the share transfer.

(3) Details of allotment in the Share Transfer (share transfer ratio)

Company name	BLUE ZONES HOLDINGS CO., LTD. (wholly owning parent company)	Yaoko Co., Ltd. (wholly owned
Company name	(whon's owning parent company)	subsidiary)
Share transfer ratio	1	1

[1] Share transfer ratio

As a result of the Share Transfer, one share of common stock of the holding company to be established was allotted to one share of common stock of the Company held by shareholders of the Company as of the time immediately preceding the time when the holding company acquires all outstanding shares of the Company.

[2] Share unit

The holding company will adopt the unit share system, and the number of shares per unit will be 100 shares.

[3] Basis of calculating the share transfer ratio

The Share Transfer will result in the establishment of one wholly owning parent company through share transfer solely by the Company, and the composition of shareholders of the holding company will not be different from that of the Company as of the Share Transfer. Therefore, one share of common stock of the holding company will be allotted to one share of common stock of the Company held by the shareholders, putting the priority on avoiding any disadvantage or confusion to the shareholders.

- [4] Results, method, and basis of calculation by a third-party calculation agent For the reasons stated in [3] above, no calculation was performed by a third-party calculation agent.
- [5] Number of new shares to be delivered due to the Share Transfer 41,894,177 shares of common stock
- (4) Treatment of share acquisition rights and bonds with share acquisition rights for the Share Transfer The Company has not issued any share acquisition rights or bonds with share acquisition rights.

4. Overview of accounting processing

Because the Share Transfer falls under the category of "common control transactions" for the purpose of corporate accounting, it has no impact on profit and loss.

(Changes in subsidiaries due to dividends in kind)

At the meeting of the board of directors and the extraordinary general shareholders' meeting held on October 1, 2025, the Company resolved to distribute all shares of its consolidated subsidiaries (AVE Co., Ltd., Sendo Co., Ltd., Foocot Co., Ltd.) and non-consolidated subsidiary (YAOKO BUSINESS SERVICE Co., Ltd., OGAWA Trading Co., Ltd., YAOKO HARMONY Co., Ltd.) to our wholly owning parent company, BLUE ZONES HOLDINGS CO., LTD. ("BLUE ZONES HD"), in the form of dividends in kind.

As a result, five of which have become subsidiaries directly wholly owned by BLUE ZONES HD and one of which (Sendo Co., Ltd.) has become a subsidiary directly owned by BLUE ZONES HD.
