Reservation and customer  
management system

# BeautyMerit

## Business overview

Providing a reservation and customer management system through a subscription-based model

Supporting salon management through data utilization, centered on centralized reservation management and in-house reservation systems

## Revenue structure

Revenue model based on initial implementation fees and monthly recurring fees

**Automatically consolidates** reservation information from customer-attraction sites<sup>(1)</sup> and **automatically reflects** the salon's availability, significantly reducing the workload associated with reservation management

(1) Customer-attraction sites: Online media designed to support beauty salons in acquiring new customers.

## Collaboration with beauty salon dealers with e-commerce functionality

By having beauty salon dealers handle packaging and shipping operations, beauty salons can build an online shopping platform without operational burden

## Integration with third-party POS systems

Automatically reflecting and integrating reservation information with major third-party POS systems to improve the efficiency of store operations

Centralized reservation  
management system

## Business overview

Providing a centralized reservation management system through a subscription-based model

Industry-leading, easy-to-adopt pricing plan

No optional  
feature fees!

**[Monthly] 5,500 yen**  
(including tax)

## Revenue structure

Revenue model based on monthly recurring fees

A **centralized reservation management service** that consolidates reservations from various sites

Entries to each site necessary for each reservation

After adopting Kanzashi

Kanzashi automatically reflects to each site

Smart mirror

# BM Smart Mirror

## Business overview

Providing new value in the treatment space and time spent at beauty salons

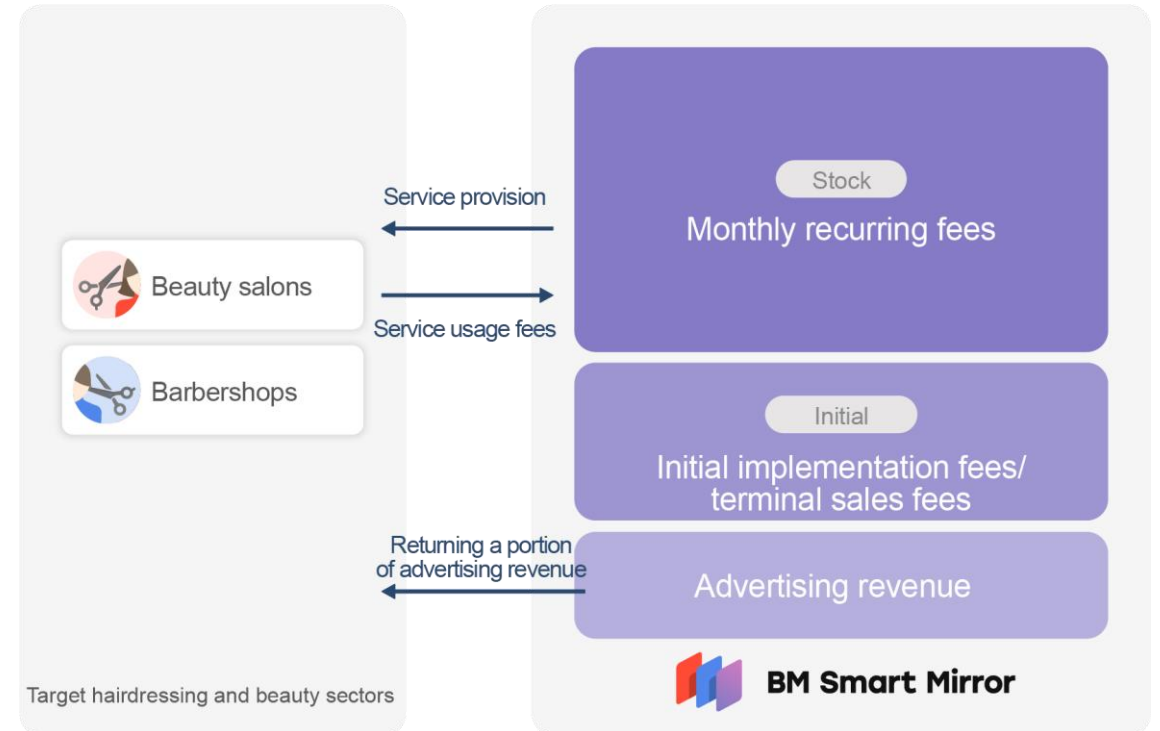

Turning stay time into value through the digitalization of mirrors

**BM Smart Mirror**

## Revenue structure

Hybrid model that generates advertising revenue as media, in addition to initial and monthly system usage fees

# Providing a smart experience **linked to customer data**, while enabling effective promotions and advertising monetization through video distribution

Main types of content provided by BM Smart Mirror

**BM** ... Data linkage with BeautyMerit

## Customer records **BM**

## Next reservation **BM**

## Online shop **BM**

## Videos Video distribution tailored to customer attributes such as gender and age group is possible.

1. Announcement of products sold at salons

2. Advertising videos (revenue-generating)

3. Notices from salons

Payment service

**BeautyPay**

## Business overview

Cashless payment service for the beauty industry

Industry-lowest level  
Payment processing fee **1.96%-**  
Initial fee Monthly fee  
Terminal fee Bank transfer fee **0yen**

Reducing the beauty industry's burden of introducing cashless payments to "zero"

## Revenue structure

Transaction revenue model centered on payment processing fees generated when payments are made at salons

# 5 Growth strategy

1. Business overview
  2. Market environment
  3. The Company's strengths and characteristics
  4. Financial results and key KPIs
  5. Growth strategy
- Appendix

**Aim for growth by expanding the number of contracted stores and increasing customer unit prices towards maximizing net sales**

# Number of contracted stores and market share across the entire group

Number of contracted stores (Stores)

Adoption rate among stores<sup>(1)</sup> on customer-attraction sites

Adoption rate in the hairdressing and beauty services market

(1) Number of participating stores based on “HOT PEPPER Beauty Latest Data Collection” updated in June 2026, by Recruit Co., Ltd.

By establishing offices in various locations and strengthening the sales organization structure, strengthened coordination with both direct sales and sales partners such as hairdressing and beauty dealers

Sales offices

Sales structure with offices established at five locations in total: Osaka, Fukuoka, Sendai, and Sapporo, in addition to the Tokyo headquarters

Sales personnel (Persons)

FY25

FY26

Number of hairdressing and beauty dealer partnerships (Companies)

FY25

FY26

**Increase the number of contracted stores through network effectiveness, leveraging the expanded customer and partner base resulting from the integration of both companies**

Supporting store DX through the **creation of synergies between both companies** by leveraging vast amounts of data, and by **strengthening collaboration with partners**

Starting offering “**BM Smart Mirror**” as an initiative for new revenue as **retail media**, through providing various services during the time of stay

**Aim to expand the revenue model based on GMV by providing a convenient and highly economically rational payment experience through integration with the POS system**

From customer acquisition to cashless payment, data linkage becomes possible in one seamless flow.

(1) Released on January 19, 2026.  
(2) Total reservation amount managed through “BeautyMerit” and “KANZASHI” during FY26.

(1) Calculated by multiplying the number of participating stores listed in “HOT PEPPER Beauty Latest Data Collection” updated June 2026 by Recruit Co., Ltd. by the annual fee of the “BeautyMerit” premium plan (40,000 yen x 12 months).

(2) Calculated by multiplying the market of hairdressing and beauty services prepared by the Company based on “Hair Salons and Barber Shops Market 2025” by Yano Research Institute Ltd., “Aesthetic Salon Industry 2025” by Yano Research Institute Ltd., “Nail White Paper 2025” by Japan Nailist Association, “Report on Public Health Administration and Services FY2024” by the Ministry of Health, Labour and Welfare, “Relaxation and Warm Bathing Business 2022” by Yano Research Institute Ltd., and “Orthopedic, Acupuncture, Moxibustion, and Massage Clinics Markets 2024” by Yano Research Institute Ltd. by the annual fee of the “BeautyMerit” premium plan (40,000 yen x 12 months).

(3) Compiled by the Company based on “Hair Salons and Barber Shops Market 2025” by Yano Research Institute Ltd., “Aesthetic Salon Industry 2025” by Yano Research Institute Ltd., “Nail White Paper 2025” by Japan Nailist Association, “Report on Public Health Administration and Services FY2024” by the Ministry of Health, Labour and Welfare, “Relaxation and Warm Bathing Business 2022” by Yano Research Institute Ltd., “Orthopedic, Acupuncture, Moxibustion, Massage Clinics Markets 2024” by Yano Research Institute Ltd., and “Changes in the cashless payment amount and cashless payment ratios in Japan (2025)” (announced on March 31, 2026) by the Ministry of Economy, Trade and Industry.

Aim for further growth by utilizing the customer base cultivated to date and building a **multi-layered revenue foundation**

| <b>Competition</b><br>The Group operates in the field of internet services for the beauty industry, but there are competing companies in the same business area, and competition may intensify further due to new entrants. While the Group continues to improve service offerings to attract and retain customers, competitive actions such as price reductions or service enhancements could impact the markets in which we operate. If the Group cannot effectively differentiate itself from such competitors, the business results and financial condition of the Group may be affected.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   | Medium term | Medium     | Medium | We will further strengthen our organizational structure to swiftly reflect customer needs in our services and enhance our internal expertise and know-how based on our past experience and achievements to create differentiation. |
| <b>Securing and developing talent</b><br>The Group recognizes that the securing, development, and retention of excellent personnel is of utmost importance for the continuous expansion of our business. However, if we are unable to sufficiently secure and develop the excellent personnel sought by the Group at the necessary timing, or if the outflow of personnel progresses, there is a possibility that obstacles may arise in continuous business operations and business expansion, and that deviations from planned recruitment costs may occur, which may affect the business results and financial condition of the Group.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       | Long term   | High       | Large  | We will continue to respond to changes in the recruitment market by diversifying recruitment methods to expand candidate reach, while also strengthening our training system.                                                      |
| <b>Personal information protection</b><br>As the Group handles personal information in relation to the services it provides, we are subject to the obligations of a business operator handling personal information as defined by the “Act on the Protection of Personal Information.” The Group considers the prevention of external leakage of personal information, as well as the prevention of improper use, falsification, etc., to be important matters in business operations, and, in addition to limiting the employees who have access, we are thoroughly implementing internal training for all employees. We are actively engaged in the protection of personal information by complying with the said Act, related laws and regulations, as well as the relevant guidelines applicable to the Company. However, it cannot be said that the possibility of leakage, falsification, or unauthorized use of personal information held by the Group has been entirely eliminated, and should such incidents occur, there is a possibility that the burden of significant costs for appropriate responses, claims for damages against the Group, or a loss of credibility, which may affect the business results and financial condition of the Group. | Medium term | Medium     | Large  | We will manage personal information in accordance with company policies and conduct education on proper handling of personal data for all employees.                                                                               |
