Notice Concerning Issuance of Share Acquisition Rights for Subscription **(Performance-Linked Stock Options with Charge)**

Simplex Holdings, Inc. (hereinafter, the “Company”) hereby announces that it has resolved at the Board of Directors meeting held on May 29, 2026, to issue share acquisition rights (hereinafter, the “Share Acquisition Rights”) to an employee of the Company as described below, in accordance with the provisions of Articles 236, 238 and 240 of the Companies Act. The issuance will be carried out without the approval of a general meeting of shareholders, as the Share Acquisition Rights will be issued to subscribers for value at a fair price, not on particularly favorable terms. In addition, the Share Acquisition Rights will not be offered as compensation to the eligible allottee, but will be subscribed based on the eligible allottee’s investment decision.

I. Purpose and Reasons for Soliciting Subscription for Share Acquisition Rights

The Company will issue share acquisition rights with charge to one (1) employee of the Company, aiming to further increase their motivation and morale and strengthen commitment to enhancing shareholder value over the medium-to-long term, so as to expand business performance and enhance corporate value over the medium-to-long term.

The Share Acquisition Rights may become exercisable only when revenue recorded in the Company’s consolidated statement of profit or loss is ¥100.0 billion or more in any of the fiscal years ending March 31, 2027, March 31, 2028, March 31, 2029, March 31, 2030, and March 31, 2031.

If all of the Share Acquisition Rights are exercised, the total number of ordinary shares of the Company will increase by 971,900 shares, leading to a dilution of 0.4% of the total number of shares issued (excluding treasury shares). However, the Share Acquisition Rights can only be exercised on the condition that pre-determined performance target is achieved, and we recognize the achievement of the target will help enhance the corporate value and shareholder value of the Company. The Company also resolved, at the Board of Directors meeting held on May 27, 2026, to submit a proposal to elect the eligible allottee as new director to the 10th Ordinary General Meeting of Shareholders of the Company scheduled to be held on June 20, 2026. For details of this proposal, please refer to the Notice of Convocation of the said Ordinary General Meeting of Shareholders

(<https://www.simplex.holdings/en/ir/stock/meeting/>).

II. Outline of the Issuance of the Share Acquisition Rights

1. Name of the share acquisition rights

Simplex Holdings, Inc. 9th Series Share Acquisition Right

2. Eligible allottees and the number of share acquisition rights to be allotted

Employees of the Company: 1 person and 9,719 units

3. Class and number of shares underlying the share acquisition rights

The class and number of shares underlying one unit of share acquisition right (hereinafter, the “Number of Shares Granted”) shall be 100 ordinary shares of the Company; provided, however, that the Number of Shares Granted shall be adjusted according to the formula below in the case the Company conducts a stock split or a stock consolidation of ordinary shares after the date of resolution to issue share acquisition rights. However, such adjustment is only applicable to the number of shares underlying the share acquisition rights that have not been exercised at that point in time, with any fraction less than one share arising from the adjustment being omitted.

$$\text{Number of Shares Granted after adjustment} = \text{Number of Shares Granted before adjustment} \\ \times \text{Ratio for stock split or stock consolidation}$$

In the cases where, in addition to the above, the Number of Shares Granted needs to be adjusted due to a merger, company split, share exchange, share transfer or other organizational restructuring of the Company (hereinafter collectively, the “Organizational Restructuring of the Company”) after the date of resolution to issue share acquisition rights, or in any other equivalent cases where the Number of Shares Granted needs to be adjusted, the Company shall make appropriate adjustments to the Number of Shares Granted within reasonable limits.

4. Total number of share acquisition rights to be offered

9,719 units

5. Amount to be paid in per share acquisition right (issue price) and the date of allotment

(1) Amount to be paid in per share acquisition right: ¥741

(2) Date of allotment: June 13, 2026

6. Value or calculation method of assets to be contributed upon the exercise of the share acquisition rights,

The value of assets to be contributed upon the exercise of the share acquisition rights shall be the amount calculated by multiplying the amount paid in per share that is issuable upon the exercise of the share acquisition

rights (hereinafter, the “Exercise Price”) by the Number of Shares Granted.

The Exercise Price shall be ¥1,029.

If the Company conducts a stock split or a stock consolidation with respect to its ordinary shares after the date of resolution to issue share acquisition rights, the Exercise Price shall be adjusted using the formula below, with any amount less than one yen arising from the adjustment being omitted.

$$\text{Exercise Price after adjustment} = \frac{\text{Exercise Price before adjustment}}{\div \text{Ratio for stock split or stock consolidation}}$$

In the case, after the date of resolution to issue share acquisition rights, the Company issues new ordinary shares or disposes of treasury shares at a price below the market price (except for the cases of issuing new shares or disposing of treasury shares upon exercise of share acquisition rights, or delivering shares due to the Organizational Restructuring of the Company), the Exercise Price shall be adjusted using the formula below, with any amount less than one yen arising from the adjustment being omitted.

$$\text{Exercise Price after adjustment} = \frac{\text{Exercise Price before adjustment} \times \left(\frac{\text{Number of shares issued} + \frac{\text{Number of new shares to be issued} \times \text{Amount to be paid in per share}}{\text{Market price per share before issuance}}}{\text{Number of shares issued} + \text{Number of new shares to be issued}} \right)}{1}$$

The “Number of shares issued” in the formula above is the total number of the Company’s ordinary shares issued, less the number of the Company’s treasury ordinary shares. When the Company disposes of its treasury ordinary shares, the “Number of new shares to be issued,” the “Amount to be paid in per share,” and the “Market price per share before issuance” shall be replaced by the “Number of treasury shares to be disposed of,” the “Disposal price per share,” and “Market price per share before disposal of treasury shares,” respectively.

In addition to the above, in the case where the Exercise Price needs to be adjusted due to the Organizational Restructuring of the Company after the date of resolution to issue share acquisition rights, or in any other equivalent cases where the Exercise Price needs to be adjusted, the Company shall make appropriate adjustments to the Exercise Price within reasonable limits.

- (i) The amount of share capital to be increased when new shares are issued upon exercise of share acquisition rights shall be one half of the maximum amount of increase in share capital calculated according to Article 17, Paragraph 1 of the Regulations on Corporate Accounting, with any amount less than one yen arising from such calculation being rounded up to the nearest yen.
- (ii) The amount of legal capital surplus to be increased when new shares are issued upon exercise of share acquisition rights shall be the amount obtained by subtracting the amount of increase in share capital as specified in (i) above from the maximum amount of increase in share capital as stated in (i) above.

However, the foregoing shall apply only to cases where delivery of share acquisition rights of the Restructured Company in accordance with the following conditions is stipulated in an absorption-type merger agreement, an incorporation-type merger agreement, an absorption-type split agreement, an incorporation-type split plan, a share exchange agreement, or a share transfer plan.
