スマレジ

One-stop service delivery that leverages our strengths in the highly competitive payments market.

POS × **Payment**

The Backbone of Store Operations

Integrated POS and payment solutions provide a competitive edge.

In a payments market where transaction fees are largely standardized, one-stop service that streamlines everything from contracting to operations creates a strong competitive advantage.

- Optimizing the end-to-end customer experience—from onboarding to operations and support.
- Contributes to higher ARPU and lower churn.

Contract → Operation → Support

Smaregi TimeCard

An integrated attendance and labor management service covering clock-in/out, shift scheduling, and payroll. Enhancing HR functions for retail operations to drive cross-selling with Smaregi POS.
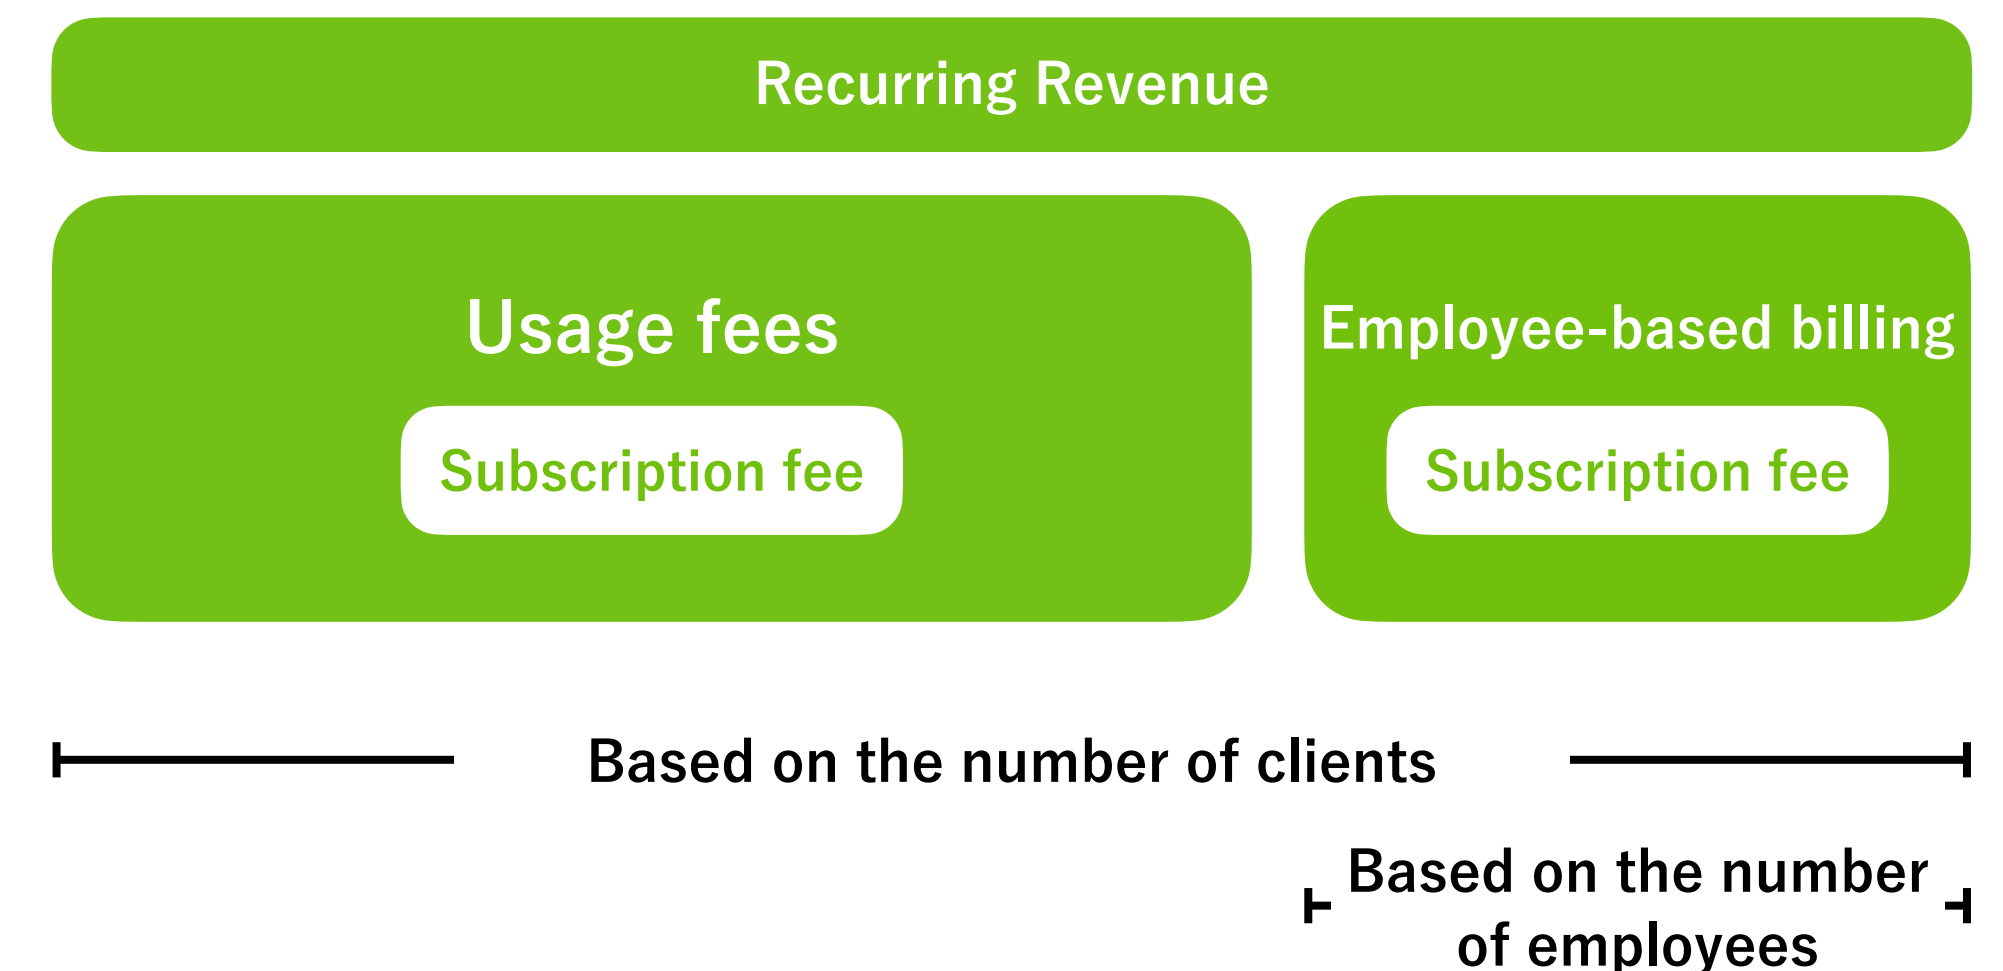

Flexibly complies with work style reform regulations.
Streamlining back-office operations.

A revenue model centered on recurring subscription income.

Combining a fixed monthly fee with employee-based usage charges, the service enables a stable, recurring revenue model. Adoption is expanding not only through cross-selling with POS, but also as a standalone solution.

Following the acquisition of an EC-related company as a subsidiary, we have revised one of our initially announced initiatives—"Strengthen targets through market segmentation strategy"—to focus instead on "Approach EC businesses." That said, we continue to view market segmentation as a medium- to long-term strategic issue and will pursue it accordingly.

スマレジ

Following full subsidiarization in December 2024, PMI is progressing smoothly, strengthening of omnichannel capabilities and expanding sales channels to EC operators.

Acquired 100% of shares in Netshop Supporters Co., Ltd., a provider of EC-focused inventory and order management systems, making it a wholly owned subsidiary as of the end of December 2024.

Supporting EC Operators in Enhancing Operational Efficiency and Revenue Growth.
Approximately 90% of Revenue Comes from a Subscription-Based Model.

Netshop Supporters Co., Ltd.

Founded: 2013 **Representative:** Yoichi Takezawa
Assist Tencho
A comprehensive EC platform with built-in CRM functionality. Provides unified management for order processing, inventory management, email distribution, and customer relationship management.

Rakuraku B2B
BtoB Cart System. Enables BtoB transactions such as ordering, shipping, invoicing, and payments.

Rakuraku Repeat
D2C Repeat Commerce Cart System. Specializes in repeat sales with features like step mail, customer analysis, and tailored response functions.

End of December 2024

Phase 1

Launch with minimal integration first, then define direction and proceed to phase 2 and beyond.

In Progress

System integration, data integration, and sales strategy.

- Ongoing system and data infrastructure integration & optimization.
- Developing marketing and sales strategy.

Within 2025

- **Launch with minimal integration.**
- **Rebranding.**

2026 and beyond

Phase 2 & Beyond

**Accelerating EC strategy to strengthen Smaregi's competitive advantage.**

Sales channel expansion & upselling/cross-celling.

- Enhancing competitive edge through EC functionality expansion.
- Expanding sales channels to EC operators.
- Increasing customer spend through cross-selling & upselling between POS and EC services.

スマレジ

Expanding the main target in line with market conditions and sales strategy.
Actively approaching mid- to large-scale businesses.

Big business
（100 stores or more）
120,000 stores

As part of the sales strategy, we have redefined the number of stores in our main target group of mid-sized businesses. *1

~~2〜39stores~~ ➜ **2〜99stores**

Expansion of target segment

Vast Potential for Development

<u>Our main target</u>
Midsize business
（2 - 99 stores）
890,000 stores

**Small business**
（1 store）
1,180,000 stores

Prepared by Smaregi based on the 2021 Economic Census conducted by the Ministry of Economy, Trade and Industry and the Ministry of Internal Affairs and Communication.

The domestic cloud POS register market has crossed the chasm and entered the mainstream market, where full-scale competition takes place. As security, reliability, and a proven track record become essential for mid-to-large-scale customers, Smaregi aims to capture replacement demand by leveraging its strong track record, scalability, and multifunctionality.

Key Strategies

- **Establishing a sales system specialized for enterprise clients**
- **Strengthening integration development with core systems**

*1 Due to the expansion of the target segment, we have redefined the mid-sized business classification from "2 to 39 stores" to "2 to 99 stores" (July 2024).

スマレジ

Implement measures tailored to each marketing funnel and increase CVR at each stage.

Awareness

Interest/Concern

Comparison/ Review

Purchase

① Awareness acquisition

- **Advertising and publicity** (Programs and commercials on mass media, social media advertising, specialized magazines, food fair sponsorship, etc.)

Achievements
- We launched commercials and YouTube videos focusing on user interviews to highlight customer experiences.
- Distribution of SNS advertisements with short videos.

② Lead nurturing

- **Online marketing** (Listing, affiliates, owned media, etc.)
- Holding events such as exhibitions, seminars, etc.

Achievements
- Rolled out lead generation initiatives while improving CPA (Cost Per Acquisition).
- Enhanced lead acquisition in the payments domain through webinars, trade shows, and related channels.
- Deepened customer engagement via regularly held user community events.

③ Inside sales, field sales

- **Attracting customers from comparison sites and media with cash register demand** (Restaurant, retail, medical sector, etc.)
- **Showroom expansion/extension**
- **Increasing the number of online business meeting points**

Achievements
- Expanded sales training framework to improve close rates.
- Strengthened showroom presence: new location in Ikebukuro, relocation in Fukuoka, and mobile setups for regional outreach.
- Established consultative sales structure with a focus on cross-selling complementary solutions.

Toward the Plan for Increasing ARR - Increase Customer Unit Price

Improve competitive advantage and customer satisfaction by expanding usage by existing customers, and increase unit price per customer through upselling and cross-selling.

App Market

Improve customer satisfaction customer

- Aim to increase customer unit price and improve customer experience (CX) by providing industry-specific niche functions.
- Aim to strengthen collaboration with development partners and increase the number of apps.
- Strengthen EC cart and social media tie-up for retailers. Enhance the OMO/omni-channel domains.

Payment services

Expand revenue model

- Build a revenue model with GMV as its source.
- Continue to improve the business (PMI and rebuilding) of ROYAL GATE INC. which Smaregi absorbed through a merger.
- Expand cross-selling with Smaregi, centred on sales as a package with POS services.
- Take up the challenge of the online payment domain. (advance booking, advance orders, table orders, etc.)
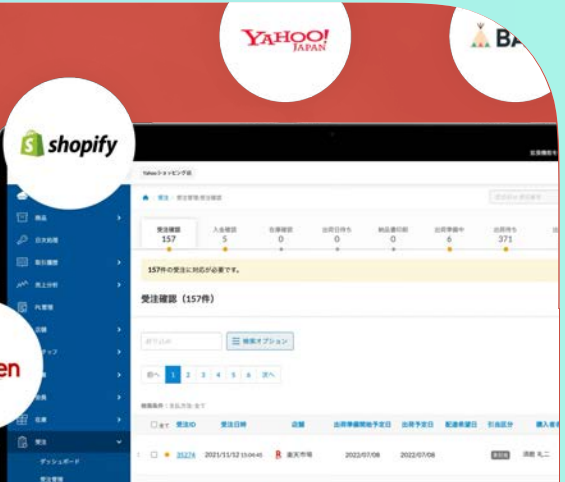

Smaregi TimeCard

Strengthen functionality for stores and strengthen HR

- Develop functionality for retail, apparel, and F&B businesses, which is Smaregi's strength.
- Strengthen employee management and overall work attendance and salary management as a means of acquiring CV regardless of industry and preventing cancellations resulting from scaling up.
- Air commercials, participate in exhibitions, and reinforce upselling efforts to existing customers.

EC-related services

Strengthen omni-channel functions

- Acquired Netshop Supporters Co., Ltd., which provides "Assist Tencho" that integrates multiple EC-mall and in-house EC sites. Began offering solutions that integrate stores and EC.
- High-unit-price proposals incorporating order and inventory management and CRM functions through bundle sales with POS.
- Responding to the needs of store operators aiming to strengthen EC and omni-channel.

スマレジ

M&A Strategy

**We are actively considering M&A with a focus on companies that have direct business synergies.
We are also considering acquiring IT engineers as well.**

1

Acquire
Customer Numbers

M&A to speed up
customer acquisition or
expand target areas.

Target Companies

Cloud-based POS vendors.

2

Increase
Revenue per Customer
（Full lineup of products/services）

M&A of companies that can
functionally complement Smaregi.
Aim for cross-selling and up-selling.

Target Companies

Companies that have software
for stores and that likely have
direct synergy with Smaregi.

3

Acquire
IT Engineers

Companies that have web engineers.
The companies don't have to
own a product.

Target Companies

System development companies,
systems integrators, and
production companies.

スマレジ

Through enhancements to both product functionality and internal operations, we aim to improve customer satisfaction and operational efficiency—creating positive ripple effects for all stakeholders. Our AI investments are focused not on automation alone, but on driving quality improvement.

Business Risks and Measures Policy

Major risks affecting the realization of growth and the execution of the business plan

	Key risks	Likelihood of ccurrence	Potential impact	Risk management measures
Securing Technicians (Software engineers)	There is a risk that business operations will be affected by a lack of progress in securing and training human resources in line with the scale of our business.	Medium	Medium	Operates "Smaregi Tech farm" for the purpose of discover and develop young talent.We will work to train entry-level engineers while striving to secure outstanding human resources by utilizing various recruitment methods.
Reliance on Specific Suppliers	There is a risk that changes in transaction volumes or terms and conditions may affect our business and performance.	Medium	Medium	We have strengthened cooperation with suppliers (detailed delivery management, etc.) and established a system allowing us to always secure our required volumes. We will also aim to quickly build out an alternative supply system with multiple suppliers.
Economic fluctuation/ customer trends	The electronic payments market is growing steadily as a result of increasing demand, but in cases where contractions in the value of payments or number of member stores occur accompanying market downturns triggered by economic fluctuations and so forth, there is a risk business performance will be affected.	Low	Large	Because the Company's core business is a stable subscription-type business that covers a great variety of member stores, the Company is endeavouring to stabilize its revenue base through share expansion. We will engage in strengthening the business model in order to minimize impacts on the Group as a whole.
The Relationship with Apple Inc.	Dependence on iOS Platform for "Smaregi" POS Functionality: Our cloud-based POS system, "Smaregi," operates solely on the iOS platform. Therefore, any strategic shifts or developments by Apple Inc. could potentially impact our business operations and financial performance.	Medium	Large	Proactive Monitoring and Response to Apple's Strategic Moves: We continuously monitor Apple's business strategies and related developments. To address these promptly, we keep establishing a management and coordination framework within our administrative and operational departments.

Please refer to the "Risks Related to Our Business" section of our securities report for information on other business risks. (In Japanese)
