## 1. Overview of Operating Results and Financial Position

The forward-looking statements in this document are those determined as of the end of the quarterly consolidated accounting period.

### (1) Overview of operating results during the period

With the corporate philosophy of “Contribute to people’s health and dedicate ourselves to people's genuine smiles,” the Group has been working on various issues. The aim is to establish a foundation in new markets and new businesses and realize group synergies with each subsidiary while making the domestic generic drug business its core business in accordance with the “6th Medium-term Business Plan 2024–2026 PROACTIVE III” announced in June 2024.

As a result, operating results during the period are as follows.

Consolidated earnings (Millions of yen)

	Nine months ended December 31, 2024	Nine months ended December 31, 2025	Change	Change (%)
Net sales	193,737	204,065	10,328	5.3%
Cost of sales	122,993	128,944	5,951	4.8%
Gross profit	70,743	75,120	4,376	6.2%
Selling, general and administrative expenses	52,132	55,629	3,497	6.7%
Operating profit	18,611	19,490	879	4.7%
Ordinary profit	21,756	23,988	2,232	10.3%
Profit attributable to owners of parent	14,624	17,082	2,457	16.8%

Both sales and profits were up due to an increase in sales volume as a result of the higher production volume at Towa Pharmaceutical and an increase in contract manufacturing in the European B2B business at Towa Pharma International Holdings, S.L. (hereinafter referred to as “Towa INT”), which offset the weaker performance of Sunsho Pharmaceutical Co., Ltd.

In terms of business results, net sales were 204,065 million yen (up 5.3% year on year), operating profit came to 19,490 million yen (up 4.7% year on year), ordinary profit was 23,988 million yen (up 10.3% year on year) due to a gain of 4,578 million yen on valuation of derivatives, and profit attributable to owners of parent totaled 17,082 million yen (up 16.8% year on year).

Results by segment are as follows. Segment profit (loss) of the reporting segments is the figure before amortization of goodwill.

Results by segment (Millions of yen)

	Domestic segment				Overseas segment			
	Nine months ended December 31, 2024	Nine months ended December 31, 2025	Change	Change (%)	Nine months ended December 31, 2024	Nine months ended December 31, 2025	Change	Change (%)
Net sales	154,713	163,769	9,056	5.9%	39,164	40,844	1,680	4.3%
Segment profit (loss)	22,301	22,791	489	2.2%	(368)	38	406	—

(Note) Segment profit (loss) is based on operating profit.

(Domestic segment)

In the generic drug industry in Japan, the Medical Insurance Committee of the Social Security Council in March 2024 set a new secondary goal to increase the value share of generic drugs to 65% or more by the end of FY2029, along with the main goal of increasing the volume share of generic drugs to 80% or more in all prefectures by the end of FY2029 while maintaining a stable supply of drugs. In addition to that, a treatment option using long-listed drugs was introduced in October 2024. Choosing this option will require an additional co-payment for some brand-name drugs for which generic drugs are available. As a result, the volume share in July-September 2025 reached 89.5% (according to the Japan Generic Medicines Association).

In the meantime, annual drug price revisions since FY2021 have been making the situation extremely severe for the pharmaceutical industry. Furthermore, due to a series of supply concerns stemming from quality problems at multiple generic drug companies that came to light in 2020, confidence in generic drugs has declined and the environment facing the generic drug industry has become increasingly tough.

Under these circumstances, The “Report of the Study Group on Industrial Structure for Achieving Stable Supply of Generic Drugs” published by the Ministry of Health, Labour and Welfare in May 2024 showed that the government will “establish an intensive reform period of about five years to ensure a manufacturing management and quality control system, secure stable supply capacity, and realize a sustainable industrial structure.” In the scope of the FY2025 drug price revision, companies will be evaluated for their stable supply system using all of the corporate indicators that were under consideration, and the ratings for each company are scheduled to be made public after the FY2026 drug price revision. In addition, the “Basic Policy on Economic and Fiscal Management and Reform 2025 (Basic Policy 2025)” approved by the Cabinet in June 2025 states that the government will promote the restructuring of the generic drug industry with an eye to resolving its structure of high-mix low-volume production.

The government determined the scope of the FY2026 drug price revision in light of these policies. It will publish ratings of companies based on corporate indicators for evaluating their stable supply capability, and also exempt qualifying products from price-range consolidation. In addition to that, the minimum drug price for products that meet the deviation rate requirements will be raised again as last year. Products with particularly high medical necessity will be subject to the temporary re-pricing rule for unprofitable products. Furthermore, in order to create and maintain an appropriate competitive environment for generics, the government decided that authorized generics (AGs) will be priced the same as brand-name drugs when they are newly listed. With regard to the co-payment system for drugs, the co-payment amount for elective care using long-listed drugs (products listed on the NHI drug price list for an extended period) will be increased from one-fourth to one-half of the price difference. It was also decided that one-fourth of the drug cost for some OTC-like drugs will not be covered by insurance.

Under these circumstances, in order to fulfill our responsibility for stable supply, we are working to further increase production capacity in the domestic generics business. The construction of Solid Formulation Facility No. 3 and Sterile Formulation Facility No. 2 at the Yamagata Plant was completed in November 2023, and shipments of products manufactured at Solid Formulation Facility No. 3 began in April 2024. In October 2025, Solid Formulation Facility No. 3 went into full operation after all the equipment installed there was up and running. We are working to increase the annual production capacity of the three plants from 14 billion tablets at the end of March 2024 to 17.5 billion tablets in FY2026.

In terms of manufacturing control and quality control, we not only comply with the GMP Ordinance, which is the standard for manufacturing control and quality control of pharmaceuticals, and other related laws and regulations, but also actively adopt international standards such as PIC/S GMP and ICH Guidelines, and work to ensure appropriate quality and safety of pharmaceuticals through our own systems and education and training.

To further strengthen quality control, we have introduced a QMS (Quality Management System) in addition to the MES (Manufacturing Execution System) and LIMS (Laboratory Information Management System) already in place. We will continue to strive for improvements in manufacturing control and quality control, aiming to prevent

human errors before they occur.

Furthermore, in order to maintain and strengthen our stable supply system, we are striving to switch to multiple purchases of APIs and audit manufacturing sites, and are continuing to strengthen governance and ensure thorough compliance throughout the entire Group, from API manufacturing to formulation manufacturing, distribution and sales.

On the sales front, in May 2025, we started selling “RIVALUEN® LA Patch 25.92 mg/51.84 mg,” Japan’s first extended-release Rivastigmine transdermal formulation (twice weekly dosage), following its inclusion in the National Health Insurance drug price list. In December 2025, ten new products with five ingredients were added to the National Health Insurance drug price list, following the addition of two new products with one ingredient to the list in June 2025. This brought the total number of our generic drugs to 742 products with 316 ingredients (as of December 2025).

As for the development of health-related businesses, in order to respond to the new medical system such as the community-based integrated care system, we will focus on the “Healthcare Passport” (that enables local medical professionals and residents to share health and medical information in both directions). We will realize diversified development of health-related businesses by forming synergies between each subsidiary and existing businesses from the viewpoint of treatment, prevention and nursing care support, and increasing products and services for maintaining and promoting health.

In the consolidated results for the nine-month period ended December 31, 2025, the Group’s domestic segment posted net sales of 163,769 million yen (up 5.9% year on year) and segment profit of 22,791 million yen (up 2.2% year on year) due to an increase in the volume of products supplied to the market as a result of higher production volume at Towa Pharmaceutical.

(Overseas segment)

In the overseas segment of the Group, we are engaged in the generic drug business in Europe and the U.S. through Towa INT to strengthen and expand the overseas drug business. We aim to keep sales and segment profits up by maintaining and strengthening existing businesses and further expanding markets and regions, while stepping up investments in R&D and facilities necessary for future growth. One instance of our production synergies paying off can be seen at Towa INT’s Martorelles plant where we manufacture ESOMEPRAZOLE CAPSULES for the Japanese market. We also started joint development as part of efforts to create R&D synergies. We will continue to interact and share information with all our divisions to foster group synergies in development and manufacturing technology. By leveraging Towa INT’s sales network in multiple countries in Europe and the U.S. and its manufacturing bases in Europe that comply with standards in Europe and the U.S., we will establish a global business foundation that can provide high-quality, value-added generic drugs to patients worldwide from three regions: Japan, the U.S. and Europe.

In the consolidated results for the nine-month period ended December 31, 2025, the overseas segment posted net sales of 40,844 million yen (up 4.3% year on year) and a segment profit of 38 million yen due to an increase in contract manufacturing in the European B2B business.

## **(2) Overview of financial position during the period**

### **(i) Assets, Liabilities and Net Assets**

Total assets at the end of the third quarter were 488,886 million yen, an increase of 18,062 million yen from the end of the previous fiscal year. The main factors were an increase of 12,493 million yen in inventories and an increase of 9,016 million yen in notes and accounts receivable - trade, despite a decrease of 5,651 million yen in cash and deposits.

Liabilities were 299,197 million yen, with no significant change from the end of the previous fiscal year.

Net assets were 189,689 million yen, an increase of 18,064 million yen from the end of the previous fiscal year.

The main factors included an increase of 13,144 million yen in retained earnings and an increase of 4,841 million yen in foreign currency translation adjustments.

As a result, the equity ratio came to 38.8%.

#### (ii) Cash Flows

The balance of cash and cash equivalents at the end of the period was 39,552 million yen, a decrease of 5,907 million yen from the end of the previous fiscal year.

The status of each cash flow in the consolidated nine months is as follows.

#### (Cash flows from operating activities)

Net cash provided by operating activities was 13,123 million yen (up 7,428 million yen year on year). This was mainly due to profit before income taxes of 23,950 million yen (up 2,118 million yen year on year) and depreciation of 13,433 million yen (up 1,991 million yen year on year), despite an increase of 11,093 million yen in inventories (up 3,469 million yen year on year), income taxes paid of 8,526 million yen (down 2,293 million yen year on year), and an increase of 8,194 million yen in trade receivables (up 819 million yen year on year).

#### (Cash flows from investing activities)

Net cash used in investing activities was 20,331 million yen (down 3,541 million yen year on year). This was mainly due to purchase of property, plant and equipment of 17,664 million yen (down 4,244 million yen year on year).

#### (Cash flows from financing activities)

Net cash provided by financing activities was 103 million yen (down 15,479 million yen year on year). This was mainly due to proceeds from long-term borrowings of 9,530 million yen (down 8,885 million yen year on year), despite repayments of long-term borrowings of 9,831 million yen (up 109 million yen year on year).

### **(3) Explanation of consolidated financial forecasts and other forward-looking information**

The consolidated earnings forecast for the fiscal year ending March 31, 2026, announced on May 15, 2025, has not been revised.

#### (4) Notes to consolidated financial statements

(Notes on segment information)

Information concerning net sales and profit (loss) by reportable segment

For nine months ended December 31, 2024

(Millions of yen)

	Reportable segment			Adjustment (Note 1)	Total (Note 2)
	Domestic	Overseas	Subtotal		
Sales					
Sales to outside customers	154,713	39,023	193,737	—	193,737
Sales or transfers between segments	—	140	140	(140)	—
Total	154,713	39,164	193,877	(140)	193,737
Segment profit (loss)	22,301	(368)	21,932	(3,321)	18,611

Notes: 1. Adjustment in segment profit (loss) represents goodwill amortization of (3,321) million yen, and elimination of internal transactions between segments of 0 million yen.

2. Segment profit (loss) matches operating profit on the consolidated statements of income.

For nine months ended December 31, 2025

(Millions of yen)

	Reportable segment			Adjustment (Note 1)	Total (Note 2)
	Domestic	Overseas	Subtotal		
Sales					
Sales to outside customers	163,769	40,295	204,065	—	204,065
Sales or transfers between segments	—	549	549	(549)	—
Total	163,769	40,844	204,614	(549)	204,065
Segment profit	22,791	38	22,829	(3,338)	19,490

Notes: 1. Adjustment in segment profit (loss) represents goodwill amortization of (3,353) million yen, and elimination of internal transactions between segments of 15 million yen.

2. Segment profit matches operating profit on the consolidated statements of income.

(Notes on significant changes in the amount of shareholders' equity)

Not applicable.

(Notes on going concern assumption)

Not applicable.
