[Disclosure Based on the Principles of the Corporate Governance Code]

Updated

Principle 1.4 Policies Relating to the Reduction of Shares of Other Listed Companies as Cross-Shareholdings and Rationale for Exercise of Voting Rights

The Company in principle shall not hold shares of other listed companies except for the case where it is assumed to contribute to increasing corporate value for the Company in connection with maintaining and strengthening long-term business relationships. The Company has successively sold these shares by comprehensively considering matters such as impact to the market. During fiscal 2025, we sold shares for approximately JPY13.5 billion (7 brands). For the shares of listed companies held, the Board regularly examines profitability and financial benefits of each individual company in reference to certain management indicators, capital cost and the like and reviews rationality of shareholding as appropriate by comprehensively considering their business strategy and business relations.

Concerning the exercise of voting rights on cross-shareholdings, we will check, in accordance with criteria for exercising voting rights established internally, whether the proposals will contribute to increasing the corporate value of the issuing company in the mid to long-term. Based on comprehensive consideration of such matters as non-financial side of the issuing company and contents of dialogue held with the issuing company, we will decide whether to approve or reject the proposal.

Principle 1.7 Related Party Transactions

In addition to prescribing in the Directors Regulations the duty of care and the duty of fiduciary of Directors and conflict-of-interest transactions and competitive transactions, the Company also prescribes in Regulations of the Board of Directors the requirement that the consent of the Board shall be received in relation to conflict-of-interest transactions and competitive transactions of Directors. Moreover, in the Audit Standard for Audit & Supervisory Board Members, it prescribes that Audit & Supervisory Board Members monitor and verify for the existence of violations of the duties of Directors with regard to conflict-of-interest transactions and competitive transactions.

Matters concerning transactions with major shareholders shall be considered to be “Important Matters Related to Company Management” as prescribed by the matters referred to the Board, and these matters shall require approval by the Board.

Supplementary Principle 2.4.1 Ensuring Diversity in Promotion to Core Human Resources

We have established the People Philosophy to “create an inclusive environment where everyone’s voice is valued, and diverse employees collaborate and trust each other to contribute to their fullest ability.” Also, Daiichi Sankyo has established “Inclusion and Diversity” as a component of its People Philosophy and “value people for who they are as individuals, and welcome diverse perspectives in our work, which enables us to achieve more as Daiichi Sankyo.”

In addition, considering that the acquisition of diverse talent and effective human resource management are sources of competitive advantage, the Company has set one of the core behaviors required for its employees as “Be Inclusive & Embrace Diversity” (understand and accept diversity in nationality, race, gender, and so forth), and aims to achieve mutual sustainable growth of with its employees.

In terms of a specific numerical target, the Company has set a KPI for percentage of female senior managerial employees as 30% globally by fiscal 2025, and as of March 31, 2026, that figure had risen to 26.9%.

In Japan, the Company has set a KPI of increasing the ratio of females in managerial positions* to 15% or more by fiscal 2025 as a Plan of Action for General Employers under the Act on the Promotion of Female

Participation and Career Advancement in the Workplace; as of April 1, 2026, this figure had risen to 17.2%.

As initiatives to promote the active role of women, the Company is advancing wide-ranging efforts including developing female management candidates, supporting work-life balance, and fostering a positive workplace culture.

(1) Outline of current corporate governance structure

1) Outline of governance structure and basic explanation of company organs

- To clarify Directors management responsibility and reinforce their oversight of management and the conduct of operations, their terms of office are set at one year, and five out of our ten Directors are Outside Directors. Since June 2020, an Outside Director has been appointed as the Chairperson of the Board.
- To ensure management transparency, the Company has established two voluntary committees as advisory bodies to the Board: The Nomination Committee and the Compensation Committee. Both committees respectively deliberate on selections or dismissals of CEO and COO, succession plan of CEO and selections of Director and Audit & Supervisory Board Member candidates, the compensation policy for Directors, the individual amounts of compensation of Directors, and other matters.

- Both Committees are composed of five Outside Directors, and one Outside Audit & Supervisory Board Member participates as an observer.
- For audits of legal compliance and soundness of management, the Company has adopted an Audit & Supervisory Board system and established Audit & Supervisory Board comprising five Audit & Supervisory Board Members, including three Outside Audit & Supervisory Board Members.
- The Company prescribes specific criteria on the judgment of independence of Outside Directors and Outside Audit & Supervisory Board Members and basic matters regarding execution of duties by Directors and Audit & Supervisory Board Members.
- Under the global management structure, the Management Executive Meeting with CxO, Unit Heads and Heads of Global Corporate Functions as members is held as appropriate to deliberate on important matters related to the strategy, policy, and execution of group management, and to contribute to management decision-making.
- The Company employs a Corporate Officer system which contributes to appropriate and swift management decision-making and the conduct of operations.
- With the aims of ensuring effectiveness and efficiency of operations, ensuring reliability of financial reporting, complying with applicable laws and regulations relevant to business activities, and safeguarding assets, the Company structures its internal control system to consist of self-monitoring carried out by respective organizations which execute its functions (primary controls), policy development and monitoring for respective organizations carried out by the corporate organizations (secondary controls), and internal auditing encompassing monitoring carried out by the Corporate Internal Audit Department (tertiary controls).
- The Company considers this system to be optimal and has adopted this system to create a management structure that can respond speedily and flexibly to changes in the business environment, to secure legal compliance and management transparency and to strengthen management oversight and the conduct of operations.

Supplementary Explanation for Applicable Items

The Company believes that it is the shareholders to decide whether or not to respond to any moves toward large-scale acquisition of Company share. The Company does not deny the potentially significant impact that transfers of management control may have in terms of stimulating business enterprise. In line with this thinking, the Company has not prepared any specific takeover defenses.

Nonetheless, the Company would consider it a self-evident duty of the Company management to oppose any takeover plans whose aims were generally considered inappropriate (such as schemes to ramp up the share price) or that would otherwise be deemed detrimental to the value of the Company or the mutual interests of shareholders. Accordingly, the Company will continue monitoring closely share transactions and changes in shareholders. In the event any moves toward large-scale acquisition of Company share are noticed, the Company would evaluate any takeover proposal with outside experts and determine carefully the impact of such on the value of the Company and the mutual interests of shareholders. If any proposal were deemed detrimental to such interests, the Company would institute appropriate anti-takeover measures in response to individual cases.

1) Compensations policy

Compensations to Directors are designed based on the following ideas.

- (1) Compensation system with a compensation level that can secure and maintain excellent human resources
- (2) Compensation system that motivates sustainable growth over the medium to long term and contributes to the increase of the value of the Company and shareholder value
- (3) A transparent, fair and rational compensation system accountable to stakeholders

2) Level of compensations

Specifically, the Company will mainly compare companies within the top 100 companies by market capitalization among the companies listed on the Tokyo Stock Exchange, and also refer to the levels of major domestic pharmaceutical companies.

3) Composition of compensations

Directors (excluding Outside Directors)

It is designed to encourage management efforts from a short-term to medium-long-term perspective and appropriately to be able to reward the results by the composition of four compensations such as basic, fixed compensation, annual performance-based bonuses, which is a variable compensation serving as short-term incentive, and restricted share-based compensation and medium-term performance-based share compensation serving as long-term incentive. Retirement benefit system is not adopted.

Outside Directors

Compensation to Outside Directors who are in charge of management oversight and are not in the position to take charge of business execution is only basic, fixed compensation. Incentive bonuses and retirement benefit system are not adopted.

The composition of compensations to Representative Director, President and CEO is designed to have its ratio of 40% as basic compensation, 30% as annual performance-based bonuses, 15% as restricted share-based compensation and 15% as medium-term performance-based share compensation when achieving the performance target of 100%.

The ratio of the composition of compensations of other Directors (excluding Outside Directors) will be determined in consideration of the responsibilities and the level of compensation according to the ratio of composition of compensation of Representative Director, President and CEO.

Compensation to Outside Directors is only basic, fixed compensation.

The amount of annual performance-based bonuses, which are short-term incentive remuneration, will be decided according to the degree of achievement of the earnings forecasts announced at the beginning of the fiscal year about profit attributable to owners of the Company, revenue and core operating profit ratio, and the evaluation of goals and tasks which each Director set at the beginning of the fiscal year.

The formula for calculating the amount of payment, and the evaluation ratio and mechanism of annual performance-based bonuses are as follows.

Bonus payment amount = Standard amount by position * Achievement of annual targets (revenue + core operating profit ratio + profit attributable to owners of the Company) * performance evaluation

(2) Achievement of annual targets (evaluation ratio and mechanism)

Index for the achievement of annual targets	Evaluation ratio	Evaluation coefficient fluctuation range	Targets (set with the following as a guide)

(3) Performance evaluation

It will be converted into a coefficient and calculated according to the degree of achievement of each Director's goals and tasks set at the beginning of the fiscal year.

- The performance evaluation of the Executive Chairperson and the President will be determined after deliberation at a joint meeting of the Nomination Committee and the Compensation Committee.
- For other Directors, the evaluation decided by the CEO after deliberation at the performance meeting shall be applied. The evaluation results of Directors will be reported to the Compensation Committee.

7) Restricted share-based compensation (Long-term incentives)

The Company grants, every year in principle, shares with transfer restriction until the time immediately after resignation or retirement of a Director. The objective of the system is to give incentives to sustainably increase the value of the Company and to promote sharing the same value between shareholders and Directors for as long as possible by having the restricted shares. The total number of the ordinary shares

of the Company to be issued or disposed of is 240 thousand shares or less per year (if a share split of the Company's ordinary shares (including a gratis allotment of the Company's ordinary shares) or a share consolidation occurs, or if there is any other reason that requires adjustment of the total number, the Company will adjust the number in a reasonable range as necessary according to the split or consolidation ratio.).

When restricted share-based compensation is paid, monetary compensation receivables will be paid to Directors based on a resolution of the Board of the Company, and Directors will pay all of the paid monetary compensation receivables as in-kind contribution assets of the Company's ordinary shares and will be issued them.

When delivering the Company's ordinary shares, a restricted share allotment agreement will be concluded between the Company and each Director, and Directors shall not freely transfer, set security interests or otherwise dispose of the Company's ordinary shares allotted under the allotment agreement for a certain period of time specified in the allotment agreement.

In the allotment agreement, (1) if a Director of the Company retires or resigns during the transfer restriction period, the Company shall acquire all of the restricted shares without consideration unless otherwise such the retirement or resignation is admitted by the Board that it has justifiable reasons such as expiration of terms of office, death or others, and (2) if a Director retires or resigns due to expiration of term, death or other reasons deemed justified by the Board during the service provision period, the Company shall rationally adjust the number of shares for which the restrictions will be released and the timing of the release as necessary and acquire the restricted shares which the restrictions will not be released free of charge, will be included.

The number of restricted share-based compensation to be delivered shall be the number of shares of the Company's ordinary shares, which is the amount of restricted share-based compensation for each position divided by the closing price of the market price of the Company's ordinary share on the day before the allotment resolution by the Board.

8) Medium-term performance-based share compensation (Long-term incentives)

The Medium-term performance-based share compensation n, which constitutes long-term incentive, will be a trust-type share compensation system that has the nature of performance share (performance-based share compensation) characteristics for Directors (excluding Outside Directors) and the Corporate Officers (hereinafter "the Target Directors & Officers"). This compensation system is designed to promote management practices that prioritize the enhancement of shareholder value over the medium to long term.

The trust period for the fiscal year covered by the mid-term business plan (hereinafter the "Target Period").

The number of shares of the Company, etc., to be granted to the Target Directors & Officers, will be determined based on share grant points calculated by multiplying the cumulative value of points granted during the Target Period—based on position—by a performance-linked coefficient at a fixed time each year. The performance-linked coefficient will be determined within a range of 0% to 200% based on the degree of achievement against target values for the Company's performance indicators for the final fiscal year of the Target Period (for Target Period beginning in fiscal year 2026, the indicators adopted will be revenue, operating profit, ROE, relative TSR, R&D progress, and sustainability indicators), and one share of the Company's ordinary shares will be granted for each point. Furthermore, if a stock split (including a gratis allotment of the Company's ordinary shares) or a reverse stock split of the Company's ordinary shares occurs during the trust period, or if any other circumstances arise that require an adjustment to the number of points, the number of points will be adjusted within a reasonable range as necessary, in accordance with the split ratio or reverse split ratio. The total number of the Company's ordinary shares, etc., to be delivered to the eligible directors, etc., during the target period shall be capped at the number obtained by multiplying the maximum number per fiscal year (500,000 shares) by the number of fiscal years in the target period (2.5 million shares for the initial target period, which covers five fiscal years). The timing of the grant of the Company's shares, etc., to the Target Directors & Officers, shall, in principle, be after their retirement; furthermore, 50% of the shares to be granted shall be converted into cash and paid out for the purpose of funding the payment of withholding income tax and other taxes. The payment of shares and cash shall be made through the Mitsubishi UFJ Trust and Banking Corporation's Executive Compensation BIP (Board Incentive Plan) Trust.

• If the Company is unable to deliver the Company's shares, etc. to the Target Directors & Officers, through this trust due to circumstances such as the inability to amend the trust agreement or make additional contributions to the trust for valid reasons, or for other valid reasons, the Company may pay the eligible directors, etc., an amount of money reasonably calculated based on the number of shares and the share price of the Company's shares, etc., that should have been delivered under this system, within the limit of the funds contributed by the Company.

9) Clawback provision

The Company will set forth a clawback clause that can request for the refund of part or all of the compensation received for annual performance-based bonuses and medium-term performance-based share compensation by the resolution of the Board after consultation with the Compensation Committee in the event that a material accounting error or fraud, or record of a significant impairment loss occurs.

This clause will be applied from the fiscal 2021 annual performance-based bonus and medium-term performance-based share compensation and will be applied for all periods thereafter.

10) Malus provision

In the event of any violation of laws and regulations or serious violations of internal regulations, etc., the Board shall, after consulting with the Compensation Committee, resolve not to grant or pay any part or all of the share-based compensation linked to medium-term performance-based share compensation, including the issuance of Company shares under the share issuance system and the payment of the proceeds from the sale of such shares.

11) Compensation governance and decision-making process

The Compensation Committee has been established as an advisory body to the Board to ensure the appropriateness of compensation for Directors and the Corporate Officers and the transparency of the decision-making process. The Compensation Committee consists of only Outside Directors, with one Outside Audit & Supervisory Board Member participating as an observer, and the Chairperson is appointed by mutual appointment of the members.

The Compensation Committee fully discusses the compensation policy, the level of compensations, the composition of the compensation, the ratio of the composition of compensations, Clawback provision, Malus provision, the compensation governance and decision-making process, amount of annual performance-based bonuses, allocation of restricted share, and result of medium-term performance-based share compensation. In addition, the Compensation Committee discusses and confirms the detailed design of indices for the achievement of each compensation, and also verifies the compensation levels for each position.

The amount of compensation for each individual Director of the Company is first deliberated by the Compensation Committee, and then based on the deliberation results, each type of the compensation will be determined by a resolution of the Board within the total amount of compensation resolved at the General Shareholders Meeting.

- As stated in the above policy, the Compensation Committee fully discusses the compensations policy, the level of compensations, the composition of the compensation, the ratio of the composition of compensations, Clawback provision, Malus provision, the compensation governance and decision-making process, amount of annual performance-based bonuses, allocation of restricted share and result of medium-term performance-based share compensation, and allocation of restricted share. The content of individual compensation for Directors in the current fiscal year is also decided by the Board after being first deliberated by the Compensation Committee. We judge that the content of the Company's compensation governance is in line with the above-mentioned policy regarding decisions of the content of individual compensation for Directors.
