#### [Disclosure Based on the Principles of Japan’s Corporate Governance Code] [Updated]

##### [Principle 1.4 Cross-Shareholdings]

The Company’s policy on the holding of the shares of listed companies as cross-shareholdings and the criteria for the exercise of voting rights are disclosed in “Guideline 4 Cross-shareholdings of Listed Stocks and the Exercise of Their Voting Rights,” as follows.

- The Company and its group companies may strategically hold shares of listed companies, such as the shares of its business partners, in order to maintain and strengthen business relationships and thereby increase corporate value over the medium to long term.
- Each year, the Board of Directors of the Company assesses whether or not to maintain strategic holdings of each individual stock, and carefully scrutinizes continuation of stock holdings if it does not contribute to an increase of corporate value.
- With respect to the exercise of voting rights on cross-shareholdings, in principle, the Company votes for approval on proposals submitted by the Boards of Directors of investee companies. However, the Company rationally decides whether or not to vote for approval on proposals if their adoption is not likely to contribute to the increase of corporate value.

<Method of reviewing the rationality of cross-shareholdings>

- Each year, the Board of Directors will review the investment shares held by the Company and its group companies from the perspectives of both economic rationality and qualitative significance of holding each individual stock.
- In terms of economic rationality, the Board of Directors examines on the basis of each individual stock whether its dividends, transactional revenue and other related earnings exceed the group’s target cost of capital relative to its acquisition value.
- In addition to the above, the Board of Directors also reviews the qualitative significance of the cross-shareholding and ensures that the purpose of continuing to hold the stock in question is to maintain and strengthen business relationships with the investee and to promote joint ventures, etc.

<Review of the appropriateness of cross-shareholdings by the Board of Directors, etc.>

At the Board of Directors meeting held in January 2026, the Board reviewed the investment shares held by the Company and its group companies as of December 31, 2025, in accordance with the method described above in order to determine the appropriateness of continuing to hold the cross-shareholdings in question. The rationality of continuing to hold these stocks will be reviewed each year moving forward, and the cross-shareholding relationship will be reviewed if it is

deemed that it does not contribute to enhancing the Company's corporate value.

#### **[Principle 1.7 Related Party Transactions]**

The Company's procedural framework for related party transactions based on the materiality and nature of such transactions is disclosed in "Guideline 5 Related-party Transactions." The status of such transactions has been reported at the Board of Directors meeting held in February 2026.

Additionally, to achieve a decarbonized society, it promotes the active introduction of renewable energy and the improvement of energy usage efficiency, striving to balance reducing its environmental impact with sustainable business growth.

#### **[Investments in Human Capital and Intellectual Properties]**

As a total healthcare company, the Company is actively investing in R&D to contribute to people’s health worldwide by creating innovative products in its two core businesses: the Pharmaceutical Business, which aims to address unmet medical needs, and the Nutraceutical Business, which seeks to fulfill the yet-to-be-imagined needs of consumers. #### **[Supplementary Principle 4.1.1 Scope of Delegation to Management]**

The criteria for determining the independence of Outside Director & Board Members are disclosed in “Guideline 8-(3) Independence Standards for Outside Director & Board Members” and in the “Independent Officers: Matters Relating to Independent Officers” section of this Report.

#### **[Supplementary Principle 4.10.1 Approach, Mandates and Roles of the Corporate Governance Committee and the Nomination and Remuneration Committee with Respect to Independence]**

The Corporate Governance Committee and the Nomination and Remuneration Committee are governed by the following stipulations under “Guideline 10 Corporate Governance Committee.”

- As an advisory body to the Board, the Company has established the Corporate Governance Committee. The

Committee discusses the ideal form of corporate governance of the Company, succession plans for the President and other senior management and Director & Board Members, development of management personnel, and other management issues of the group, and reports to the Board as necessary.

(1) Composition of the Committee

The Committee consists of the President, and all Outside Director & Board Members. The chair of the Committee is selected mutually from among the Outside Director & Board Members.

(2) Establishment of Subcommittee

As a subcommittee of the Corporate Governance Committee, the Company has established the Nomination and Remuneration Committee that consists of all Outside Director & Board Members. The chair of this subcommittee is selected mutually from among the Outside Director & Board Members. The matters for discussion are described below. The Nomination and Remuneration Committee reports matters that are determined following discussions to the Corporate Governance Committee. Following this, the Corporate Governance Committee reports to the Board based on the report from the Nomination and Remuneration Committee.

(i) Evaluation of the President

(ii) Nomination

Suitability and fairness of matters concerning the appointment/dismissal of Director & Board Members and Auditor & Supervisory Board Members

The subcommittee shall obtain consent on Auditor & Supervisory Board Members candidates from the Audit & Supervisory Board, prior to submitting the report to the Board.

(iii) Remuneration

Matters concerning the evaluation and individual remuneration of Director & Board Members, their remuneration system and levels, etc.

\* Independence of the Corporate Governance Committee and the Nomination and Remuneration Committee

Since the Corporate Governance Committee is a body that deliberates on all aspects of corporate governance, the President participates as an Internal Director & Board Member. However, independent Outside Director & Board Members constitute the majority of its members, and the chair of the Committee is selected mutually from among the Outside Director & Board Members.

As the Nomination and Remuneration Committee is a body that deliberates on the evaluation of the President, the appointment/dismissal of Director & Board Members and Auditor & Supervisory Board Members, and the remuneration for Director & Board Members, it excludes the President and is composed only of independent Outside Director & Board Members. The chair of this subcommittee is selected mutually from among the Outside Director & Board Members.

In view of the above, we believe that these Committees are sufficiently independent.

\* Targets and results for indicators related to performance-linked remuneration for the current fiscal year

(1) Performance-linked bonus

For the performance-linked bonuses for Director & Board Members (excluding Outside Director & Board Members), consolidated revenue, consolidated business profit before R&D expenses, and consolidated operating profit, which are the performance indicators, all exceeded the planned values at the beginning of the fiscal year, and steady progress was made in conducting management that achieves sustainable creation of corporate value. Accordingly, the payment rate was determined to be 113.8% after giving consideration to the deliberations and reports by the Nomination and Remuneration Committee.

(2) Share-based payment (shares with transfer restrictions)

For share-based payment via shares with transfer restrictions for Director & Board Members (excluding Outside Director & Board Members), the share-based payment is issued after multiple release conditions have been combined for the transfer restrictions, including a set performance evaluation period and the achievement of performance indicators.

Incumbency is evaluated on a single-fiscal year basis, with the condition being that the individual serves in the post of Director & Board Member from the day on which the fiscal year being evaluated begins to the conclusion of the meeting of the Board of Director & Board Members scheduled for March of that fiscal year. All Director & Board Members fulfilled this condition.

EPS (basic earnings per share) is evaluated on a single-fiscal year basis by dividing profit for the year being evaluated by the average number of ordinary shares outstanding for that period, with the condition for release being that the resulting amount is at least equal to the forecast value in the forecast of consolidated financial results shown in the financial results report for the end of the fiscal year before the fiscal year being evaluated. EPS for the current fiscal year was higher than the forecast value in the forecasts of consolidated operating results shown in the financial results report for the end of the fiscal year before the fiscal year being evaluated.

It is a condition of release that TSR (total shareholder return) including dividends from the ordinary shares of the Company for the fiscal year being evaluated is higher than TSR for the TOPIX index (including dividends). For the current fiscal year, TSR including dividends from the ordinary shares of the Company exceeded the TSR for the TOPIX index (including dividends).

- In addition to the incumbency condition, the conditions for the release of shares with transfer restrictions incorporate EPS (basic earnings per share), TSR (total shareholder return), ROIC (consolidated return on invested capital), and cash flow as financial indicators, and external evaluation indicators regarding the Company’s sustainability initiatives as non-financial indicators.

- The specific timing for the granting of shares is every fiscal year for shares that are subject to performance evaluation in a single fiscal year and simultaneously in the first fiscal year of the evaluation period for shares that are subject to performance evaluations over several fiscal years.

Specific details (amount of remuneration and number of shares) for each Director & Board Member will be determined as described in 5.

#### 5 Method of determining the content of individual remuneration, etc., for Director & Board Members (including matters concerning delegation of decisions)

- For the individual fixed remuneration as basic remuneration for each Director & Board Member as well as the individual performance-linked bonuses for each Director & Board Member (excluding Outside Director & Board Members), President and Representative Director, CEO Makoto Inoue, who oversees business execution for the entire group, is delegated the role of determining the specific payment amounts based on the resolution of the Board of Directors. The final remuneration amounts are then determined based on the deliberations and reports by the Nomination and Remuneration Committee in accordance with the responsibilities of the delegated role in question.

#### [Overview of Timely Disclosure System]

The Company strives to provide timely and appropriate information to all stakeholders, including employees, customers, business partners, society, and shareholders, based on the principles of transparency, fairness and continuity.

With regard to the timely disclosure of material information, we have established the Timely Disclosure Guidelines to fulfill our obligation as a listed company to provide timely, lawful, accurate and official disclosure of such information. The Guidelines stipulate whether timely disclosure is required and the matters for which the preparation of disclosure materials is required.

The Company's timely disclosure system, process, etc., are outlined below.

- Timely disclosure system

Timely disclosure at the Company is conducted by the Timely Disclosure Review Committee, which is chaired by the manager in charge of insider trading control (Director & Board Member in charge of Administration) and composed of members from the Business Development Department, Corporate Accounting Department, Sustainability Promotion Department, and Investor Relations Department, Public Relations Department and Legal Affairs Department.

- Timely disclosure process

- (1) The Timely Disclosure Review Committee promptly reviews the necessity of timely disclosure of the Company's corporate information and material information collected from each group company, and it instructs the preparation of disclosure materials if it determines that disclosure is required.
- (2) The manager in charge of insider trading control gives the final approval for the outcome of whether timely disclosure is necessary as well as the disclosure materials in the event of disclosure.
- (3) The department in charge of timely disclosure promptly discloses the approved disclosure materials through TDnet based on the instructions of the manager in charge of insider trading control.

#### [Whistleblowing System]

- (1) The Company has formulated the "Otsuka Group Global Speak-Up Policy" to describe the basic principles of a reporting or whistleblowing system, which encourages all director & board members, officers, and employees of the Otsuka group to report suspected occurrence(s) of illegal, unethical, or inappropriate conduct if they know or suspect behavior that is not consistent with laws, rules, regulations, Otsuka's values, policies, or procedures.
- (2) The aforementioned policy clearly stipulates that the whistleblowers and the information that they report shall be treated as confidential, and that the whistleblowers shall not be subject to harassment, retaliation, or adverse employment consequence as a result of making the report.
- (3) The whistleblowing systems of the Company and the group's major subsidiaries comprise not only an internal whistleblowing hotline but also a whistleblowing hotline that has been set up outside the Company, such as at a law office that is independent from management.

- (4) For matters that are difficult to consult with each company's whistleblowing hotline and that are considered unlikely to be solved (such as matters suspected to involve senior management and director & board members), the Otsuka Holdings Group Hotline (in Japan) through which informants can report directly to the Company was established. With regard to reported matters, we determine a policy on which, the Company or each company, deals with the matter, after the Company confirms the details, and respond to it. Furthermore, we regularly hold meetings and training sessions for the group's persons in charge of whistleblowing, and make use of such meetings and sessions to share information and solve issues in operating the system.
- (5) The status of whistleblowing across the entire group is reported on a regular basis and whenever necessary at the Company's Board of Directors meetings to ensure that the system's operational status is appropriate.
