We are pleased to announce that our Board of Directors has resolved at a meeting held on March 23, 2026, to revise the dividend forecast for the fiscal year ending March 31, 2026, to the following.

1. Revision details

	Annual per-share dividend		
	End of second quarter	End of fiscal year	Total
Previous forecast (Announced February 13, 2026)		50.00 yen	62.00 yen
Revised forecast		52.00 yen	64.00 yen
Current year results	12.00 yen		
Previous year results (FY ended March 31, 2025)	6.00 yen	36.00 yen	42.00 yen

2. Reason for Revision of Dividend Forecast

Focus Systems Corporation is focusing on "Growth Investment," "Increased Profitability," and "Enhanced Allocation of Profits to Employees, Shareholders, etc." under the theme "Strengthen the Cycle of Growth/Profit/Return," as set out in the Medium-Term Management Plan 24-26.

Each employee has been committed to enhancing profitability and converting growth investments into earnings power to achieve our Medium-Term Management Plan 24-26, and on February 13, 2026, we announced an 8-yen increase in the year-end dividend.

However, after reviewing our recent performance forecasts and considering future growth investments, we have determined that we can further enhance shareholder returns. Accordingly, we decided on an additional 2-yen per share increase in the year-end dividend for the fiscal year ending March 31, 2026. As a result, the total annual dividend will be 64.00 yen per share, up from the previous forecast of 62.00 yen per share (compared to the original forecast of 50.00 yen per share at the beginning of the fiscal year).

The matter of year-end dividends will be submitted to the 50th Annual Shareholders' Meeting scheduled to be held in June 2026.

Going forward, the Company aims to further enhance corporate value so as to meet the expectations of our shareholders.
