Issuance of Share Options as Retirement Compensation to
Directors of the Company
who serve concurrently as Executive Officers of the Company

Rakuten Group, Inc. (the “Company”) announces that the Board of Directors resolved today to issue the following Share Acquisition Rights as share options to Directors of the Company who serve concurrently as Executive Officers of the Company.

1. Reason for Issuing Share Acquisition Rights

Since the value of the Share Acquisition Rights is linked with the Company’s stock price, delivering the Share Acquisition Rights as part of a performance-linked compensation package to the Officers of the Company will allow the Officers of the Company to share the gains of shareholders when stock prices rise and feel shareholders’ losses when stock prices fall, thus enhancing their motivation to achieve higher performance and higher stock prices.

The Share Acquisition Rights may only be exercised by the Officers of the Company within ten days from the date following the date on which they retire from the Company, and its subsidiaries and affiliates. As a result of these Share Acquisition Rights, it will be possible to further raise the incentive of the Group towards higher performance and higher stock prices in the long-term, and retain existing talented staff.

The Company intends to implement retirement compensation share option plans for the Officers of the Company in order to continuously enhance the Group’s corporate and shareholder value, by recruiting and retaining talented staff and by raising the motivation of the Officers of the Company towards higher performance.

[Determination Methods and Main Features of the Group’s Compensation System]

In determination of the total amount of compensation, including the granting of Share Acquisition Rights, several factors are taken into account, such as the degree to which the Group’s operating profit targets were achieved; the business performance of each Group company, business segment or division; and the personnel evaluation of each individual.

As a general rule, the Group has designed its compensation system so that as an individual’s rank and responsibility increases, the portion of their total compensation comprised of performance-based bonuses (based on individual, Group Company, business unit or department performance) and Share Acquisition Rights (that are linked to stock prices) also increases. Nevertheless, it is the Group’s belief that the Officers of the Company, in particular, compared to the other executives and employees of the Company, its subsidiaries or affiliates, are responsible for and should contribute to the further enhancement of performance and shareholder value of the entire Group in the long-term. Accordingly, in order to raise the motivation of the Officers of Company to contribute to the enhancement of performance and stock prices in the long-term, the Company shall issue Share Acquisition Rights that may be exercised within ten days from the date following the date on which they retire from the Company, and its subsidiaries and affiliates.
