Two Presentations by Perseus Proteomics Accepted for the 5th Annual Meeting of the Japanese Society for Antibody Science

Perseus Proteomics Inc. is pleased to announce that the following two presentations, to be delivered by our employees as presenters, have been accepted for presentation at the 5th Annual Meeting of the Antibody Society of Japan, which will be held from December 9 to 11, 2026, at the Fukuoka International Congress Center.

The acceptance of these presentations demonstrates the strength of our research and development capabilities and technological advantages and is expected to make a significant contribution to our future business growth.

Title : Gattai Technology: Towards Bispecific Antibodies.

Authors : Nicola Skoulding ¹⁾, Jumpei Oya ¹⁾, Ryutaro Asano ²⁾, Takeshi Nakanishi ³⁾, Koki Makabe ⁴⁾, Shinji Hagiwara ¹⁾

1) Perseus Proteomics Inc.

2) Tokyo University of Agriculture and Technology: Graduate School of Engineering

3) Osaka Metropolitan University: Graduate School of Engineering

4) Yamagata University: Graduate School of Science and Engineering

Title : Efficient Isolation of Rabbit Plasma Cells using Anti-CD138 Antibody

Authors : Maki Ushida ¹⁾, Aya Sakamoto ¹⁾, Hiroaki Iwasa ¹⁾, Shinji Hagiwara ¹⁾

About The Antibody Society of Japan

The Antibody Society of Japan was established to promote basic and applied research on antibodies; make academic contributions to industries, including the diagnostics and medical sectors; enhance public understanding and adoption of antibody technologies; foster the development of human resources; and facilitate exchanges among researchers in Japan and around the world in this field.
