

Dexerials Strengthens Photonics Business Presence with New DXPS Website Enhancing Awareness of the Photonics Business and Supporting Talent Acquisition

Dexerials Corporation (Headquarters: Shimotsuke-shi, Tochigi, and Chuo-ku, Tokyo, Japan; Representative Director and President: Yoshihisa Shinya; hereinafter “Dexerials”) announces that it has launched the official Dexerials Photonics Solutions Corporation (Headquarters: Shimotsuke-shi, Tochigi, Japan; Representative Director and President: Kazuya Hayashibe; hereinafter “DXPS”) website. DXPS is a group company engaged in a photonics business centered on optoelectronic semiconductor devices and optical devices.

Official Website: <https://www.dexerials-photonics.jp> (JP)

DXPS is a core Dexerials Group company responsible for the development and manufacturing of products utilizing proprietary technologies in the field of photonics, including optoelectronic semiconductor devices and optical devices. The photonics business is a technology domain in which the number of applications for products is increasing in a wide range of fields, including the optical communications, sensing and imaging equipment fields. The Group positioned it as a strategic growth business in the medium-term management plan formulated in 2024.

To date, DXPS's opportunities to communicate information externally have been limited, making it difficult to fully share information about its business activities, technological strengths and unique characteristics. Additionally, the information that was available to job seekers was limited, making it challenging for prospective candidates to gain a comprehensive understanding of the company when considering employment opportunities.

Against this background, DXPS has launched its official website. The website provides a profile of the company and information about its business activities, core products and technologies, enabling stakeholders to have a deeper understanding of DXPS and its business.

Going forward, DXPS will continue to enhance the website by expanding the content related to recruitment, technologies, and other topics to increase awareness of DXPS and supports its acquisition of highly skilled talent.

Dexerials will continue to strengthen the information dissemination capabilities of Group companies, including those operating in the strategic photonics business, while enhancing its communication with stakeholders and working to sustainably increase corporate value.

2. About Dexerials Photonics Solutions Corporation (DXPS)

The photonics business is a strategic growth area driven by the expansion of the AI, IoT data center, next-generation communication technology and other markets. To strengthen its activities in this area, Dexerials Group established DXPS in April 2024.

DXPS is an integrated company established upon the foundation of Dexerials Precision Components Corporation and Kyoto Semiconductor Co., Ltd., which were both group companies. By combining the optoelectronic semiconductor device technologies and optical device technologies cultivated by these two companies, DXPS aims to accelerate the growth of business in the photonics field.

Company Profile

Company Name: Dexerials Photonics Solutions Corporation

Headquarters: Shimotsuke-shi, Tochigi, Japan

Representative: Kazuya Hayashibe, Representative Director and President

Established: April 2024

Business Activities

Development, manufacturing, and management of the production of optoelectronic semiconductor devices, optical devices and composite semiconductor devices utilizing these technologies (photonics-related products).

<Corporate Profile>

Dexerials Corporation is a functional materials manufacturer specializing in the development, manufacture and sale of electronic components, bonding materials and optical materials. The Group includes subsidiaries engaged in the development and manufacture of photonics products, such as optical semiconductors, and it is committed to achieving sustainable growth and enhancing corporate value.

Also, as a starting point in contributing toward the realization of further growth and a sustainable society, the Company has defined its Purpose: “Empower Evolution. Connect People and Technology.” as explained in the website section [“About Dexerials” under “Corporate Philosophy, Vision and Purpose.”](#)

Company name: Dexerials Corporation

Head office: 1724 Shimotsuboyama, Shimotsuke-shi, Tochigi

Headquarters and Tokyo Office: 9F, Mitsui Sumitomo Kaijo Tepco Building, 1-6-1 Kyobashi, Chuo-ku, Tokyo

Representative: Yoshihisa Shinya, Representative Director and President

Established: June 20, 2012
