

Supplementary Materials for the Three Months Ended June 30, 2025

Achilles Corporation
(Securities code: 5142, Tokyo Stock Exchange Prime Market)

Aug 7, 2025

1 . Quarterly Financial Results

1. Quarterly Financial Results – Quarterly consolidated statements of income (for the three months)

- Net sales decreased due to the sluggish sales of shoes and polyurethane products for bedding, despite the Industrial Materials products seeing the growth of wafer shipping supplies and the strong performance of Heat Insulation Materials for residential and non-residential construction.
- On the profit front, we returned to an operating profit thanks to efforts to improve productivity and reduce expenses in response to consistently high raw material and energy prices and higher procurement costs caused by the weaker yen.
- Ordinary profit totaled 376 million yen, including non-operating expenses such as foreign exchange losses of 177 million yen.

1. Quarterly Financial Results – Quarterly trends

1. Quarterly Financial Results – Segment information

Net sales: Millions of yen

Changes

- In Business Division 1, Industrial Materials products saw the growth of wafer shipping supplies and a strong performance by RIM molding (Reaction Injection Molding) for medical devices. However, sales of polyurethane products for bedding were sluggish, resulting in a decrease in sales.
- In Business Division 2, Heat Insulation Materials for residential and non-residential construction board products and system products performed well, resulting in increased sales.
- The Shoes Business Unit worked to expand sales through the introduction of new products. However, sales declined due to dampened consumer spending caused by rising prices and intensifying market competition.

Business unit profit (loss) : Millions of yen

- Business Division 1 posted an increase in profit as a result of efforts to improve productivity and reduce selling expenses and other costs.
- Business Division 2 posted an increase in profit due to factors such as higher gross profit from increased sales and improved productivity.
- The Shoes Business Unit reduced losses by reviewing sales prices, cutting selling expenses, and implementing cost reduction measures.

					• Valuation difference on available-for-sale securities	141

2. Financial Results Forecast for the fiscal year ending March 31, 2026

2. Financial Results Forecast for the fiscal year ending March 31, 2026

- No change from the figures announced on May 12, 2025
- The business environment is expected to remain uncertain amid a further increase in geopolitical risks
- Under the new Mid-term Management Plan, the Company will prioritize transforming its business portfolio by advancing the three company-wide strategies—thorough selection and concentration, creation of new values, and promotion of a global strategy—and by enhancing its business foundations (i.e., empowering its workforce and improving its productivity and technological capabilities). At the same time, the Company will promote sustainability-focused management and work toward rebuilding and strengthening profitability.
