Announcement Regarding Selection as a Constituent of the "JPX Startup 100 Index"

note inc. (the "Company") hereby announces that it has been selected as a constituent of the "JPX Startup 100 Index." This new stock index, established by JPX Market Innovation & Research, Inc., comprises 100 of Japan's leading high-growth startup companies.

1. About the JPX Startup 100 Index

The JPX Startup 100 Index consists of 100 representative high-growth startups in Japan. The index was developed to create an environment that facilitates investment in companies showing high growth potential. Its goal is to build a foundation that enables companies to engage in active fundraising and growth investment.

The index selects companies listed on the TSE Growth Market, as well as those that have moved to other markets within a certain period. Selection is based on two key indicators: (1) revenue growth rate and (2) market capitalization growth rate.

The use of this index is expected to promote management practices focused on growth and create a virtuous cycle of increased investment in growing companies. For further details, please refer to the announcement by JPX Market Innovation & Research, Inc.

2. Regarding the Selection

Our mission is to "start, and keep on creating." We have focused on growing a platform where creators can thrive. We believe this selection is the result of our business growth to date and the ongoing support of our shareholders and investors.

Inclusion in this index is expected to expand investment opportunities from new investor groups, such as through index-linked funds, and improve liquidity. We will continue to enhance our value as a platform and achieve sustainable growth. We remain committed to meeting the expectations of our stakeholders and contributing to the revitalization of the Japanese economy. We thank you for your continued support.
