Notice Regarding Approval of Market Segment Change to Standard Market and Withdrawal of Plan to Meet the TSE Prime Market Listing Maintenance Criteria

Contact:

The Company announced on June 27, 2025, that it had applied for a market segment change to the Standard Market. Today, we received approval for this market segment change from the Tokyo Stock Exchange. We hereby announce that our company will be listed on Standard Market as of September 18, 2025.

Additionally, the Company submitted a plan for compliance with the Prime Market listing maintenance criteria (hereinafter referred to as the "Compliance Plan") on August 22, 2023, and disclosed its progress on August 22, 2024, and February 13, 2025. To date, we have implemented various measures in accordance with the Compliance Plan to meet the listing maintenance criteria for the Prime Market. However, following the approval of our market segment change to the Standard Market, we have decided to withdraw the Compliance Plan as of today.

The Company has now clearly defined three key strategic businesses: "Business of collecting gold and silver sediment sludge from incineration ash", "Lithium-ion Battery Recycling Business", and "Polymer circular economy Business". We are focusing our entire group on transforming our business portfolio. We position this market segment change as a strategic choice to rebuild a solid foundation for our group's future leap forward. Based on this, we will steadily achieve success in these key strategic businesses, enhance corporate value, and aim to challenge the Prime Market once again through medium- to long-term growth.

The Company requests the understanding and continuous support of shareholders.
