Preparation for Listing of Mitsubishi UBE Cement Corporation on the Tokyo Stock Exchange

Mitsubishi Materials Corporation (“MMC”) and UBE Corporation (“UBE”) are pleased to announce that Mitsubishi UBE Cement Corporation (“MUCC”, Ownership: MMC 50%, UBE 50%), an equity method affiliate of MMC and UBE, will begin preparations for the listing of its shares on the Tokyo Stock Exchange.

MUCC began operations in 2022 after taking over the cement business and related businesses of both shareholders. Since then, MUCC has worked to further strengthen its business foundation by optimizing production systems and reconstructing sales and logistics systems from upstream to downstream, thereby improving the efficiency of the entire value chain and maximizing synergies.

The business environment surrounding MUCC is facing an unprecedented turning point due to geopolitical risks and changes in economic policies in various countries, in addition to accelerating global moves toward realizing a sustainable society.

Under such an environment, MUCC has set forth its vision for 2030 to become a “corporate group with leading technology and high profitability by maximizing the synergistic effects of business integration.” MMC, UBE and MUCC believe that realizing the vision for 2030 through the IPO will contribute to the enhancement of MUCC’s corporate value by enabling flexible funding and strengthening the corporate presence.

The listing of the shares is subject to approval by the relevant authorities. In addition, depending on the results of the deliberations during the preparation process for the listing, it is possible to postpone the listing of the shares of MUCC or conclude that it will not be listed. Therefore, the date of the listing has not been determined at this time.

Based on the progress of the preparations for the listing, appropriate disclosure will be made if circumstances arise that require disclosure.

Outline of the Target Company
