Management Policies of the SWCC Group

(1) Medium-term management plan 2030 and SWCC's vision for 2036

The SWCC Group's vision for 2036, as it marks its 100th anniversary, is "to become a global solutions company that develops future energy and digital technologies." Our new medium-term management plan, "Transformation for Growth SWCC 2030," which sets 2030 as a milestone, was launched in FY2026. We will boldly take on the challenge of achieving a major leap forward, setting our targets for FY2030 at operating income of 40 billion yen or more, operating profit margin of 12% or higher, and ROIC of 15% or higher. We will further evolve our ROIC management and expand our business scope globally to drive our transformation into a new stage of growth.

With the medium-term management plan 2030 as a milestone, the SWCC Group will continue to pursue **"transformation" and "growth"** as it works toward its **vision for 2036: "a centennial company that embraces global challenges."**

The SWCC Group has significantly strengthened its financial position and earning power by implementing decisive structural reforms through business portfolio restructuring centered on ROIC. In particular, we have driven forward the reduction of capital employed through the sale of cross-shareholdings and real estate, while strengthening profitability by expanding high-value-added products and withdrawing from unprofitable ones.

Under our new medium-term management plan, "Transformation for Growth SWCC 2030," which begins in FY2026, we will advance from the "ROIC Management 1.0" approach of our previous structural reforms to "ROIC Management 2.0," which combines structural reforms with growth investments to drive business growth, thereby maximizing cash flow. Through this approach, we will strive to balance growth investments with shareholder returns, aiming to enhance both corporate value and shareholder value by further increasing total shareholder return (TSR).

Our main financial goals are as follows.

Financial targets in the medium-term management plan 2030

		FY2024 (Results)	FY2025 (Plan)	FY2030 (Medium-term plan target)

(2) SWCC Group management policy for FY2026

In FY2026, the impact of uncertain international affairs on the business environment is once again expected to be unavoidable. Guided by the SWCC Purpose, we aim “to become a global solutions company that develops future energy and digital technologies,” and while working to improve the engagement of our diverse workforce, we will steadily promote business growth toward the achievement of our medium-term management plan, “Transformation for Growth SWCC 2030.” In addition, by making flexible and prompt decisions and implementing measures in response to changes in the market and business environment, we will further strengthen our management structure and improve capital efficiency even in a severe business environment, aiming to become a highly profitable company with sustainable growth.

Based on this belief, we have established the following management policy for the SWCC Group for FY2026.

1. “Transformation for Growth:” Transforming to achieve sustainable growth. Decisive transformation that transcends current boundaries. Expanding business scope and taking on the challenge of future growth
2. Building on past structural reforms and deepening our commitment to ROIC Management 2.0 for accelerating growth
3. Improving labor productivity through creating safe and comfortable workplaces and DX strategies
4. A safety-first commitment to zero accidents, and quality compliance to live up to the trust of our customers
5. Pursuing the creation of new value through the Value Quest (VQ) spirit

Proposal 5: Revision of Remuneration in Conjunction with Introduction of Performance-Linked Share-Based Remuneration Plan for Directors

With regard to remuneration for Directors of the Company (excluding Directors who are Audit & Supervisory Committee Members), it was approved at the 123rd Ordinary General Meeting of Shareholders held on June 26, 2019 that the annual remuneration shall be not more than ¥300 million (of which, annual remuneration for Outside Directors shall be not more than ¥30 million; hereinafter the “Maximum Director Remuneration”). Furthermore, at the 124th Ordinary General Meeting of Shareholders held on June 29, 2020, with the aim of providing Directors with incentives to pursue the sustainable enhancement of the Company’s corporate value and to further promote value sharing between Directors and shareholders, the introduction of a non-performance-linked restricted share-based remuneration plan (hereinafter the “Non-Performance-Linked Share-Based Remuneration Plan”) and the payment of not more than ¥80 million per year (not more than 100,000 shares per year) for the grant of restricted shares to the Company’s Directors (excluding Directors who are Audit & Supervisory Committee Members and Outside Directors) within the aforementioned Maximum Director Remuneration was approved.

As part of our ongoing review of the remuneration system for Company Directors, and with the aim of further promoting value sharing between Company Directors and shareholders, as well as providing appropriate incentives for the sustainable enhancement of our medium- to long-term corporate value, we will introduce a new performance-linked share-based remuneration plan (Performance Share Unit (PSU) Plan (hereinafter the “Plan”)) for Directors (excluding Directors who are Audit & Supervisory Committee Members and Outside Directors; hereinafter “Eligible Directors”), in addition to the Non-Performance-Linked Share-Based Remuneration Plan.

Under the Plan, the number of shares to be granted to Eligible Directors is determined based on the achievement rate against numerical targets set in advance by the Company’s Board of Directors (hereinafter referred to as the “Target Achievement Rate, Etc.”).

The Company, therefore, requests your approval for the following. Based on the above objectives, the total amount of monetary remuneration claims to be paid to Eligible Directors for the delivery of shares under the Plan shall be up to ¥250 million per year (excluding salaries for Directors who also serve as employees), separate from the previous Maximum Director Remuneration, and the total number of the Company’s common shares to be issued or disposed of shall be up to 10,000 shares per year as a separate allocation from the maximum number of shares under the Non-Performance-Linked Share-Based Remuneration Plan (provided, however, that if a share split of the Company’s common shares (including a gratis allotment of the Company’s common shares) or a consolidation of shares, or in other cases where an adjustment to the total number of the Company’s common shares issued or disposed of as restricted share-based remuneration is necessary, such a total number shall be adjusted within a reasonable range). Each of the total amount and total number of shares is deemed appropriate based on the above objectives.

There are currently two Directors subject to the Plan, and if Proposal No. 3 is approved as proposed, the number of Directors subject to the Plan will remain at two.

As the Plan is implemented for the aforementioned objectives, is consistent with the Company’s decision-making policy regarding the details of Directors’ remuneration, and is deemed appropriate, the Company requests your approval for the introduction of the Plan.

An overview of the Plan is as follows.

1. Overview of the Plan

Under the Plan, as a general rule, a period of three fiscal years is used as the evaluation period, and monetary remuneration claims are granted to issue or dispose of a number of the Company's common shares corresponding to the Company's Target Achievement Rate, Etc.* Eligible Directors shall pay all monetary remuneration claims as property contributed in kind and receive common shares of the Company that shall be issued or disposed of by the Company.

However, if it is found that an Eligible Director has committed a violation of laws and regulations or that certain other grounds specified by the Company's Board of Directors have arisen prior to the payment of the monetary remuneration claims or the issuance or disposal of the Company's common shares, the Company shall not make such payment or disposal for the Eligible Director.

*For the fiscal years ending from March 2027 through March 2029, the evaluation indicator for the Target Achievement Rate, Etc. shall be total shareholder return (TSR).

2. Amount of Monetary Remuneration Claims Under the Plan

(1) Method for calculating the amount of monetary remuneration claims to be paid

The amount of monetary remuneration claims to be paid to each Eligible Director shall be calculated by multiplying the number of shares ultimately delivered to each Eligible Director under the Plan (hereinafter the "Final Number of Shares Granted") by the closing price of the Company's shares in ordinary trading on the Tokyo Stock Exchange on the business day preceding the date of the Board of Directors meeting at which the delivery is decided (or, if no trading took place on that day, the closing price on the most recent trading day preceding that date; hereinafter the "Stock Price at the Time of Grant").

$\text{Amount of monetary remuneration claims} = \text{Final Number of Shares Granted (see (2) below)} \times \text{Stock Price at the Time of Grant}$
--

(2) Method for calculating the Final Number of Shares Granted

The Final Number of Shares Granted is calculated by multiplying the number of points predetermined for each position (the number of points to be granted when the payment rate is 100%; hereinafter the "Base Points") by the grant rate determined based on the evaluation.

$\text{Final Number of Shares Granted} = (\text{i) Base Points} \times (\text{ii) Payment rate}$
--

(i) Base Points*

The Base Points are calculated using the following formula.

$\text{Base Points} = (\text{A) Base PSU remuneration amount} \div (\text{B) Base share price}$

* When calculating the Base Points, any fractional amount less than 1 resulting from the calculation shall be rounded up.

(A) Base PSU remuneration amount (per fiscal year)

The base PSU remuneration amount shall be determined by the Board of Directors for each evaluation period.

(B) Base share price

This shall be the simple average (rounded to the nearest whole number) of the closing prices of the Company's common shares in regular trading on the Tokyo Stock Exchange during the month preceding the month in which the evaluation period begins.

(ii) Payment rate

Varies between 0% and 200% depending on factors such as the Target Achievement Rate, Etc. during the evaluation period.

(3) Conclusion and details of the restricted share allotment agreement

The Company and Eligible Directors shall enter into a restricted share allotment agreement (hereinafter the “Allotment Agreement”) containing the following provisions by the payment date for the issuance of new shares or the disposal of treasury shares.

However, if, on the date of the Board of Directors meeting at which a resolution regarding the issuance of new shares or the disposal of treasury shares is made, an Eligible Director no longer holds any position as an officer or employee of the Company due to the expiration of their term of office or other reasons deemed valid by the Company’s Board of Directors, no transfer restrictions shall apply.

(i) Restriction period

Eligible Directors shall not transfer, create a security interest on, or otherwise dispose of the Company’s common shares allotted under the Allotment Agreement (hereinafter the “Allotted Shares”) during the period from the payment date for the Allotted Shares to the date on which the Eligible Directors cease to hold the position of Director of the Company or any other position designated by the Board of Directors of the Company (hereinafter the “Restriction Period”).

(ii) Conditions for lifting transfer restrictions

The Company shall lift the transfer restrictions on all of the Allotted Shares held by the Eligible Directors upon the expiration of the Restriction Period.

(iii) Reasons for acquisition of shares without contribution

If, during the Restriction Period, an Eligible Director falls under any of the grounds determined by the Company’s Board of Directors to warrant the Company’s acquisition of the Allotted Shares without contribution, such as a violation of laws, internal regulations, or the Allotment Agreement, or for any other reason, the Company shall acquire, by rights, all of the Allotted Shares without contribution.

(iv) Treatment during reorganization, etc.

If, during the Restriction Period, a merger agreement in which the Company is the disappearing company, a share exchange agreement or share transfer plan in which the Company becomes a wholly owned subsidiary, or other matters relating to organizational restructuring, etc., are approved by the Company’s General Meeting of Shareholders (or, in cases where approval by the Company’s General Meeting of Shareholders is not required, by the Company’s Board of Directors), the Company shall, by resolution of the Company’s Board of Directors, lift the transfer restrictions on all Allotted Shares as of the time immediately prior to the business day preceding the effective date of such organizational restructuring, etc.

(v) Other matters

Other matters concerning the Allotment Agreement shall be determined by the Company’s Board of Directors.

Reference

Subject to the approval of this proposal at this General Meeting of Shareholders, the Company plans to introduce a performance-linked share-based remuneration plan similar to the Plan for Corporate Officers who do not concurrently serve as Directors of the Company.

3. Evaluation of the Effectiveness of the Board of Directors

In order to verify the appropriate functioning of the Board of Directors, the Company analyzes and evaluates its own effectiveness every fiscal year. Specifically, answers to a questionnaire given to all Directors are used to share evaluation results and issues with the Board of Directors, which then engages in constructive debate on the ideal state of the Board of Directors going forward.

The analysis and evaluation for the fiscal year under review were conducted in the following manner, with advice from an external organization. First, a questionnaire was sent to all Directors who are members of the Board of Directors. The response method was anonymous, as responses were made directly to the external organization. The questionnaire was conducted from multiple perspectives, including the ideal state of the Board of Directors, the operation, debates, and monitoring function of the Board of Directors, as well as dialogue with shareholders (investors), the performance of Outside Directors, operation of the Nominating and Remuneration Committee, and operation of the Audit & Supervisory Committee. In addition, during the fiscal year under review, based on the questionnaire results, we conducted individual interviews with directors to delve deeper into the responses and explore broader themes. Furthermore, based on the questionnaire results and interview content, we received recommendations regarding challenges and improvements from an external organization's perspective.

As an overview of the evaluation results, regarding the operation of the Board of Directors, the members of the Board are diverse in terms of knowledge, experience, expertise, work history, age, and gender; the Board meets with sufficient frequency; Board materials are provided in a timely manner to allow for advance review; discussions and exchanges of opinions are open, frank, and constructive rather than merely formal; and the operations managed by the secretariat of the Board of Directors (schedule coordination, distribution of meeting notices, preparation of minutes, etc.) provide adequate support to the Board. Regarding management strategy and business plans, the evaluation results indicate that sufficient discussions are held with a clear understanding of how these align with the Company's sustainable growth and the creation of medium- to long-term corporate value. Furthermore, the Board of Directors conducts thorough analysis and evaluation of the Company's current capital costs, return on capital, and market valuation to achieve management practices that take capital costs and share prices into account, and it thoroughly deliberates on policies, targets, timeframes, and specific initiatives for improvement.

With regard to performance of Outside Directors, evaluation results indicate that advice and effective questions are actively being provided at the Board of Directors from expert positions, and that members are taking responsibility for their own statements at the Board of Directors and sufficiently making concise and value-adding comments. Furthermore, regarding the evaluation of the Nominating and Remuneration Committee, evaluation results indicate that the committee's composition provides it with the knowledge, experience, and expertise necessary for the execution of duties as members, as well as diversity among members; that the frequency and number of committee meetings are appropriate; that open, frank, and constructive discussions and exchanges of opinions take place at the committee meetings rather than merely formal proceedings; and that appropriate internal personnel attend committee meetings to answer questions from members depending on the content of the deliberations.

Finally, regarding the evaluation of the Audit & Supervisory Committee, evaluation results also indicate that the committee formulates appropriate audit policies and plans, conducts accounting audits and other activities in addition to individual matters stipulated by laws and regulations, and audits whether the internal control system is properly established and operated with sufficient depth and frequency. In addition, the committee interviews Corporate Officers and others as necessary and appropriate in the execution of its duties, taking into consideration both independence and audit effectiveness.

Therefore, we believe that the Board of Directors as a whole is functioning properly and its effectiveness is ensured, given that the results of each evaluation are generally favorable.

On the other hand, regarding the operation of the Board of Directors, issues have been identified such as those of securing more time for discussion at Board meetings by organizing Board presentation materials and agenda items; discussions on cybersecurity risks regarding internal controls and risk management; and regarding the evaluation of the Nominating and Remuneration Committee, sharing the content discussed by the Nominating and Remuneration Committee with the Board of Directors.

Going forward, the Company's Board of Directors will continue to work to improve its function by taking prompt action on such issues upon due consideration in light of this evaluation of its effectiveness.
