**Notice Regarding the Execution of a Collaboration Agreement Based on a Strategic Partnership
for the Commercialization of Fully Autonomous Taxis with Waymo LLC**

GO Inc. (the "Company") hereby announces that its Board of Directors resolved today to enter into a collaboration agreement based on a strategic partnership for the commercialization of a fully autonomous unmanned taxi service in Tokyo with Waymo LLC (HQ: Mountain View, California, U.S.A.; Co-CEOs: Tekedra Mawakana, Dmitri Dolgov; hereinafter "Waymo"), an independent Alphabet company, and executed the agreement on September 15, 2026.

1. Purpose of the Collaboration Agreement

Under a strategic partnership with Nihon Kotsu Co., Ltd. ("Nihon Kotsu"), the Company and Waymo have conducted on-road validation in seven wards of Tokyo since 2025 to adapt Waymo's autonomous driving technology to Tokyo's complex road environment. Currently, autonomous driving validations with Nihon Kotsu crew members on board are progressing smoothly.

Based on this track record, the Company and Waymo have agreed to move to a new phase toward providing unmanned taxi services to the general public. Pursuant to this collaboration agreement, the companies aim to introduce fully autonomous taxis in Tokyo in 2027 and deliver a safe and seamless mobility experience easily requested via ride-hail apps.

2. Details of the Collaboration Agreement

Under this collaboration agreement, targeting 2027, the companies will advance preparations to launch Japan's first commercial unmanned taxi service in Tokyo using Level 4 autonomous technology (fully autonomous driving under specific conditions). The key roles of each company are as follows:

The Company

- Acts as the central hub for local taxi operators, orchestrating the seamless integration of Waymo's autonomous driving technology into the Japanese taxi business environment, while also offering rides via the "GO" app.

Waymo

- Built on industry-leading safety and technology, Waymo delivers a premier autonomous driving experience—providing operational frameworks, fleet management systems, and technical insights to support partners in scaling their operations.
