(5) Notes related to Financial Statements
(Applied Framework for Financial Reporting)

The Company's quarterly consolidated financial statements have been prepared in accordance with Article 5, Paragraph 2 of the Standards for the Preparation of Quarterly Financial Statements of Tokyo Stock Exchange, Inc. and Nagoya Stock Exchange, Inc. (however, omission of description specified in Article 5, Paragraph 5 of the said standards is applied), and some of disclosure items and notes required by IAS 34 "Interim Financial Reporting" are omitted.

(Notes related to Going Concern Assumptions)
Not applicable.

(Segment Information)

1. Description of Reportable Segments

The Group's reportable segments are those for which discrete financial information is available among the Group's constituent units and regular evaluation by the Board of Directors is performed in order to decide how resources are allocated and performance is assessed.

The Group is managed based on three reportable segments consisting of the "Water Technology Business", the "Housing Technology Business" and the "Living Business" with the performance of their respective business units reported to the Board of Executive Officers or Board of Directors.

The "Water Technology Business" includes manufacturing and sales of sanitaryware, faucets, bathroom fixtures, and other items. The "Housing Technology Business" includes manufacturing and sales of sashes, doors, shutters, curtain walls, and other items and provides services such as proposals for housing solutions and management of real estate. The "Living Business" includes manufacturing and sales of kitchen, vanity and wooden interior materials.

Change in reporting segment classification

In the fiscal year ended March 31, 2025, the Group reported in two segments, which include "Water Technology Business" and "Housing Technology Business". However, from the first quarter of the fiscal year ending March 31, 2026, the Group has decided to change to report in three segments, which include "Water Technology Business", "Housing Technology Business", and "Living Business".

The reason for the reporting segments change is that the Group has established the new segment, "Living Business", by integrating the kitchen and washstand cabinet unit business from the "Water Technology Business" and the wooden interior materials business from the "Housing Technology Business". These businesses share many similarities in terms of products, manufacturing processes, and business models. This integration is part of the Group's focus on its strategic initiative to improve profitability of the Japan business and strengthen the Group's business structure, while also providing new value to end users.

As a change, kitchen and washstand cabinet unit business, previously included in the "Water Technology Business," and the wooden interior materials business, previously included in the "Housing Technology Business," will be classified under the "Living Business" in the new segments.

The segment information for the nine months ended December 31, 2024, is presented based on the new reportable segments classification.

2. Methods of measurement for the amounts of revenue and profit or loss for each reportable segment

The accounting policies of each reportable segment are consistent with those for the preparation of the consolidated financial statements. Profit or loss for reportable segments is presented on the basis of core earnings or losses. Intersegment revenue or transfers are determined based on market prices.

3. Information on the amounts of revenue, profit or loss, and other items for each reportable segment
For the nine months ended December 31, 2024 (April 1 through December 31, 2024)

(Unit: Millions of yen)

	Reportable Segments			Total	Reconciliations (Note 2)	Consolidated

Finance income						2,968
Finance costs						-12,912
Share of loss of associates accounted						-430
Profit before tax from continuing operations						20,076

(Notes)

1. Segment profit is core earnings which are defined as revenue less cost of sales and selling, general and administrative expenses.
2. A process of Segment profit reconciliations takes place for Company expenses that are not allocated to reportable segments. These expenses primarily represent costs associated with administrative departments, including Human Resources, General Affairs, Finance and other departments of the Company.
