Store Concept	The Ritto Store is the 3rd location in Shiga Prefecture and the 164th KeePer LABO store in nationwide. Following the Hikone and Otsu Stores, it becomes the 3rd in the prefecture, and we expect to attract new customers in the southern area, including Kusatsu and Moriyama. The store is a large and all-weather type facility built on the site of a former gas station. It features a coating booth with 9 cars available indoor washing spaces, as well as 2 outdoor washing spaces. The guest room is designed with the huge windows and counter seats, that the customers can watch our beautiful works while they wait. In addition, we plan to install a lift that enables the application of “Undercoat,” a service in high demand in snowy regions to protect the underside of vehicles from dirt and rust.
