Store Concept	The Ise Store is located along the former Route 23, a major local road frequently used by residents in the area. The surrounding area is home to a number of car dealerships, supermarkets, restaurants and other commercial facilities. The store is the eighth KeePer LABO location in Mie Prefecture and the 190th KeePer LABO store nationwide. The Ise Store is an all-weather facility where all services can be performed indoors, and has been designed to allow for future expansion in line with increasing demand. The guest room is equipped with counter seating where customers can wait while viewing the work being performed on their vehicles. In addition, the store shares the same premises with a Honda dealership, allowing customers to take a test drive or use the dealership showroom while waiting for their vehicles to be serviced. This is another distinctive feature of the Ise Store.
