Reference Documents for the General Meeting of Shareholders

Proposals and Reference Information

Proposal 1: Appropriation of Surplus

The Company regards shareholder returns as a key management priority. While continuing to invest in new businesses and M&A to enhance corporate value, we have determined that it is possible to achieve sustainable growth while appropriately returning cash flow generated from our stabilized existing businesses and the results of our investment activities to shareholders. This decision reflects a comprehensive consideration of the medium-term performance outlook of our existing businesses and the high growth potential of slice Small Finance Bank Ltd. (“slice”), in which we hold an investment.

Specifically, we have established a key performance indicator for shareholder returns that emphasizes the total amount of dividends and share repurchases as a percentage of consolidated shareholders’ equity. Our policy is to maintain a stable dividend payout ratio of 3% or more relative to consolidated shareholders’ equity.

For the current fiscal year, considering the steady achievement of targets in existing businesses, realized gains from the sale of investment securities, and the substantial increase in growth potential of slice as it evolves into an India-based fintech bank, we plan to distribute an initial year-end dividend at a level of 4% of consolidated shareholders’ equity, as detailed below.

- (i) Types of dividend property
Cash
- (ii) Details of dividend allocation and total amount
¥18.30 per share of the Company’s common stock
Total dividend amount: ¥441,002,935
- (iii) Effective date of dividend distribution
August 29, 2025
