Company Goals and Strategies

Recruit Group is committed to maximizing enterprise and shareholder value by quickly identifying needs and business opportunities in the global market and making swift decisions in response to the rapidly evolving business environment driven by technological advancements.

Through HR Technology and Staffing in the global HR Matching market as well as through Marketing Matching Technologies for Japan, the Company aims not only to provide online advertising businesses, but also to be a solutions provider that utilizes technology to improve the performance and productivity of clients' businesses.

In an environment of significant uncertainty, the Company is committed to making a positive impact on society and the planet, which is essential to achieving sustainable growth. The Company aims to prosper together with all stakeholders by conducting all corporate activities with a sound governance foundation. Therefore, as part of its corporate strategy, the Company has set specific goals for environmental, social and governance matters, which will be monitored by the Board of Directors. The Company will advance these initiatives through ongoing dialogue with its stakeholders.

To implement the management strategy described above, the Company has established a corporate framework within which the Company could best continue to grow globally while meeting the challenges of a constantly evolving worldwide technology-focused business. In April 2018, the Company was reorganized and established a managing entity called SBU Headquarters, which manages the subsidiaries of each Strategic Business Unit (SBU). The focus of this reorganization was to create an operating environment in which the Company could execute transactions for expansion, divestitures, and reorganization of the business portfolio in the most expedient manner possible.

The Board of Directors values constructive dialogue with shareholders on a range of issues, including the Company's strategies. In its discussions of mid- to long-term strategies, the Board of Directors reviews and makes effective use of feedback from shareholders.

To ensure that management is focused on implementing the mid- to long-term strategy, the Company's compensation plans for internal Directors of the Board and Senior Vice Presidents incorporate performance indicators which reflect financial performance goals and shareholder value.

The section above complies with Corporate Governance Principles 3-1 (i) and 5-2 and Supplementary Principles 4-1-2 and 5-2-1.

Disclosure Based on Principles of the Corporate Governance Code

The Company has adopted the following policies based on the five general Principles of Japan's Corporate Governance Code.

Securing the Rights and Equal Treatment of Shareholders

The Company recognizes the Shareholders Meeting as the Company's highest decision-making body. The Shareholders Meeting serves as an opportunity for shareholders to express their views on the Company's strategy and goals, and the Board of Directors engages in constructive dialogue with shareholders so that their opinions are properly taken into account.

To ensure the fair and equal treatment of shareholders and to foster an appropriate environment for shareholders to exercise their voting rights, the Company implements the following measures:

- Early delivery of the Notice of Shareholders Meeting to allow enough time for a thorough understanding of

- the status of the business
- Electronic provision of the Notice of Shareholders Meeting in Japanese and English prior to sending it by mail
- Allowing voting by mail and the Internet for those who are unable to attend the Shareholders Meeting

The Company is committed to disclosing all information that will help shareholders cast informed votes at the Shareholders Meeting. Its disclosures relating to the Shareholders Meeting agenda go beyond what is legally mandated.

The Company facilitates shareholder activity in accordance with the “Share Handling Rules” which stipulate methods for shareholders to exercise their rights effectively. The methods include requests to view the shareholder registry or Board of Directors meeting minutes, the shareholders’ right to make proposals at the Shareholders Meeting, the ability to bring a cease and desist order or file a shareholder class action in case of violation of law by a Director of the Board, and other rights of minority shareholders recognized in the Companies Act of Japan.

The above section complies with Corporate Governance General Principle 1, Principles 1-1, and 1-2 and Supplementary Principle 1-1-3 and 1-2-1.

Appropriate Cooperation with Stakeholders Other Than Shareholders

In addition to shareholders, the Company recognizes all of its stakeholders, including its employees, individual users, enterprise clients, business partners, non-profit organizations (NPOs), non-governmental organizations (NGOs), national and administrative governments, and local communities, as valuable. The Company aims to continuously improve its corporate and shareholder value toward the realization of its vision and mission.

The Board of Directors and Senior Vice Presidents consider that it is important to contribute to society through corporate activities in collaboration with stakeholders for sustainable growth. To this end, information obtained at dialogues with various stakeholders are incorporated into management through deliberations at various committees that work as advisory bodies to the Board of Directors.

Specifically, the following themes are deliberated by the Sustainability Committee, the Compliance Committee, and the Risk Management Committee, and reported to the Board of Directors:

- Policies on sustainability activities aiming to prosper together with stakeholders
- Policies and activity plans for promoting culture of compliance
- Group priority risks

The Board of Directors oversees the progress of these activities and discusses important issues based on the results of the consultation.

In addition, the Board of Directors and Senior Vice Presidents take the lead in participating in dialogues with shareholders, specialists and experts, and engage in discussions and initiatives based on the opinions of stakeholders.

The above section complies with Corporate Governance General Principle 2.

Ensuring Appropriate Information Disclosure and Transparency

The Company actively discloses non-financial information including environmental, social, and governance (ESG) topics and our corporate culture, in addition to financial information such as quarterly financial performance.

The Company discloses such information online in both English and Japanese in principle, and goes beyond legally mandated disclosures to make voluntary disclosures in order to ensure transparency and fairness for a broad range of stakeholders.

The disclosures include financial information, such as quarterly financial results and non-financial information, audio recordings of conference calls, and transcripts of results calls, which are disclosed on the Japanese and English Company website. Also, the Company voluntarily discloses the English version of its Annual Report (translated from “*Yukashouken Houkokusho*”), which listed companies in Japan are legally required to publish in Japanese, and Sustainability Date Book, to disclose annual financial results and non-financial information such as governance and risk information.

Each Director of the Board is involved in disclosing useful and readily understandable information for stakeholders. Information disclosure forms the basis of the Company’s dialogue with shareholders and other stakeholders, and

feedback obtained through this engagement with stakeholders is used to further improve its disclosures.

The above section complies with Corporate Governance General Principle 3 and Supplementary Principles 3-1-1.

Responsibilities of the Board of Directors and Committees

The Company's Board of Directors is responsible for (i) decisions on basic management policies, (ii) management oversight, (iii) executive decisions that could have a major impact on the Recruit Group, and (iv) decisions on matters required to be resolved by the Board of Directors as provided in relevant laws and regulations, all of which are aimed at increasing corporate value and shareholder value in the medium to long term.

To establish an environment that supports appropriate risk-taking by the Directors of the Board and Senior Vice Presidents, the Board of Directors establishes the Compliance Committee and the Risk Management Committee as advisory bodies. The two Committees monitor SBU activities and identify key risks for the Company. The Business Strategy Meeting then considers whether the particularly significant risks have been identified and adequate mitigation measures are set. The results are reported to the Board of Directors. Based on the Committee reports, the Board of Directors assesses and manages the Company's overall risk. When the decision-making speed is critical, the Board of Directors entrusts a certain degree of executive decision-making authority to the Representative Director, President and CEO and oversees the execution status.

To ensure effective oversight of Executive Directors and Senior Vice Presidents, the Board of Directors appoints multiple independent Directors and independent Audit and Supervisory Board members. In order to enhance the objectivity and effectiveness of supervisory functions, the Nomination and Governance Committee and the Compensation Committee are chaired by independent Directors, and serve as advisory bodies to the Board of Directors. Regarding nomination and dismissal of Directors and Senior Vice Presidents, the Nomination and Governance Committee deliberates whether an appointment or dismissal is appropriate by taking into consideration the overall assessment of candidates for positions including evaluation of performance, capabilities, and qualities.

Directors of the Board, elected by the shareholders and entrusted with management of the Company, bear fiduciary responsibilities, including diligence in the performance of their duties, and contribution to sustainable growth and increases in enterprise and shareholder value over the medium to long term.

The Company's Directors, Audit and Supervisory Board members, and Senior Vice Presidents are aware of their responsibilities entrusted to them by shareholders, and act for the joint benefit of shareholders and the Company while ensuring appropriate cooperation with stakeholders. The Sustainability Committee meets twice annually, and serves as an advisory body to the Board of Directors. The Committee's participants include Executive Directors, Senior Vice Presidents who are CEOs of SBU Headquarters, the chairperson of the Board of Directors, and internal and outside experts. To increase awareness of the demands and expectations of broader society, the Committee emphasizes engagement with diverse stakeholders and conducts extensive discussion with stakeholders including NGOs. The Board of Directors then confirms the action plans and fiscal year policy for the Company's sustainability activities and promotes specific activities.

Annually, the Board of Directors analyzes and assesses its own effectiveness, confirms whether deliberations are conducted properly from the perspective of all stakeholders involved in the Company, and carries out initiatives for improvement.

The above section complies with Corporate Governance General Principle 4, Principles 4-1, 4-3 and 4-5.

Dialogue with Shareholders

The Company believes constructive dialogue with shareholders can help realize the Recruit Group Management Philosophy and achieve sustainable increases in enterprise value and shareholder value.

In addition to discussions with shareholders at the Annual Meeting of Shareholders, Directors of the Board and Senior Vice Presidents meet with both overseas and Japanese shareholders and investors. Through this dialogue, Directors and Senior Vice Presidents help shareholders and investors understand the Company's management policies and receive feedback from shareholders on the Company's strategy, goals and policies.

To promote dialogue with shareholders and investors, the Board of Directors appoints a Senior Vice President in charge of Investor Relations and establishes a department dedicated to Investor Relations. In addition, the Company also sets up a contact point for inquiries from individual shareholders and individual investors.

CORPORATE GOVERNANCE REPORT

The Board of Directors including independent Directors discusses the feedback from shareholders and investors at the Board of Directors meetings and uses this feedback to fulfill its role to monitor management and execute decisions.

Action to Implement Management that is Conscious of Cost of Capital and Stock Price

The Board of Directors and management are committed to using the Company's capital efficiently to achieve sustainable growth and increase the enterprise value of the Company over the long term. To that end, they closely monitor the Company's cost of capital and assess growth opportunities against their prudently established targets for return on investment and equity. The Company focuses on achieving capital efficiency and applies a hurdle rate exceeding the cost of capital when evaluating each investment opportunity. ROE (Return on equity attributable to owners of the parent) in FY2025 was 31.0%.

Corporate Governance Overview

The Company's corporate governance structure is a "Company with an Audit and Supervisory Board" as defined under the Companies Act of Japan. In this structure, Audit and Supervisory Board members appointed by shareholders conduct audits of the execution of the duties by Directors as an independent body from the Board of Directors. This is the foundation for the Company's efforts to ensure and improve transparency, soundness, and efficiency of management.

Under this structure, the Company has appointed multiple Independent Directors and Independent Audit and Supervisory Board members who are highly independent. The Company also has voluntarily established committees to serve as advisory bodies to the Board of Directors, including the Nomination and Governance, Compensation, Compliance, Risk Management, and Sustainability Committees. To enhance independence, the Nomination and Governance Committee and the Compensation Committee are all chaired by Independent Directors and have a majority of independent members.

Annually, the Board of Directors analyzes and assesses its own effectiveness, confirms whether deliberations are conducted properly from the perspective of various stakeholders, and carries out initiatives for improvement.

Furthermore, the Company has appointed Senior Vice Presidents, and established the Business Strategy Meeting to serve as an advisory body to the CEO, in order to enhance the Company's decision-making process and execution. The Business Strategy Meeting discusses important matters for the Company and the CEO approves the execution of such matters.

The Company has organized management units called Strategic Business Units ("SBU"). Each SBU has established a managing company, or SBU Headquarters, which manages the subsidiaries of each SBU.

After deciding basic management policies and important matters, and clarifying the scope of responsibilities, the Board of Directors delegates certain decision-making authority to the Business Strategy Meeting, SBU Headquarters, and other relevant bodies.

Through this arrangement, the Company aims to ensure that our corporate governance mechanisms are functioning sufficiently, both in terms of timely decision-making and effective internal control.

The above section complies with Corporate Governance Supplementary Principle 4-10 and 4-10-1.

Board of Directors

Roles of the Board of Directors

The Board of Directors seeks to increase enterprise and shareholder value in the mid-to long-term. The responsibilities of the Board of Directors include:

- Setting basic management policies to achieve the Company's strategic objectives
- Conducting oversight of operations and management
- Making decisions that could have a major impact on the Company
- Resolving matters required to be resolved by the Board of Directors as stipulated in relevant laws and regulations

Board of Directors meetings are held at least once every three months. The Board of Directors makes decisions on matters which significantly impact the Company's corporate governance and/or the Company's consolidated financial performance, such as investments above a certain threshold and key personnel matters. The Board of Directors delegates authority over other business matters to the Business Strategy Meeting and other decision-making bodies according to their appropriate level of responsibilities.

Criteria for determining organizational decision-making authority are set forth in the rules on decision-making authority. These rules are reviewed at least once per year by the Board of Directors and revised as necessary.

Whenever the Company makes a proposal to ask the shareholders to authorize the Board of Directors to decide certain matters that would otherwise be decided at the shareholders meeting, the Board of Directors consisting of, among others, four independent Directors and two independent Audit and Supervisory Board members will consider whether the Board of Directors is capable of fully complying with corporate governance rules and whether such authorization is preferable for expediting the relevant process and for ensuring business judgment with a high level of expertise.

Composition of the Board of Directors

The Board of Directors is composed of eight Directors and four Audit and Supervisory Board members, including four Independent Directors and two Independent Audit and Supervisory Board members.

The Company recognizes that the Board of Directors should maintain and expand the diversity of its members to include those with varied skills, experiences, and backgrounds to ensure that it sustains the high-quality discussions that drive innovation and the long-term success of the Company.

As for the size of the Board of Directors, the Company believes that the Board of Directors should have an appropriate number of members in order to foster high-quality discussions. Under the Company's Articles of Incorporation, the Board of Directors may have a maximum of eleven Directors.

In addition, the Company has a structure in which different persons serve as the Chairperson of the Board of Directors and the CEO. The Company believes that checks and balances are effective and this structure

contributes to the strengthening of governance by separating the roles of the Chairperson of the Board of Directors and the CEO.

Policy for Selecting Directors of the Board

The approach to selecting candidates for the Board of Directors is to choose qualified candidates who can fulfill the duties and responsibilities of the position by considering their skills, leadership and professional experience, personal background, judgment, personality, and insight, without discrimination based on attributes of gender, age, nationality or ethnicity. Current Directors who are considered for renomination are evaluated on these criteria as well as their performance on the Board and number of terms of office. These candidates are elected individually at the Annual Meeting of Shareholders.

In order to further improve the quality of management decision-making, the Company believes that it is important to maintain a well-balanced Board comprising members with varied skills, experiences, and backgrounds. The Company has specifically set a target for gender, and aims to propose candidates for election to its Annual Meeting of Shareholders to achieve gender parity among its board members, and audit and supervisory board members. As of June 25, 2026, four of the twelve members of the Board of Directors including Audit and Supervisory Board members are women.

The Company has a policy that at least one third of the Directors are Independent Directors who maintain appropriate separation from management execution. As of June 25, 2026, there are eight Directors, of which four are reported as Independent Directors to the Tokyo Stock Exchange. Independent Directors are selected based on the above criteria as well as their management experience at corporations operating globally and/or that are publicly listed.

The Company expects Independent Directors to play the following roles in addition to supervising the management of the Company:

- To provide the Company with advice based on their management experience in corporations operating globally and/or that are publicly listed, which are necessary for the Company to further enhance its enterprise value and shareholder value in the mid-to long-term period.
- To play a leading role in matters related to selection and dismissal, compensation and evaluation of Directors and Senior Vice Presidents as a chair and/or member of the Nomination and Governance Committee and the Compensation Committee.
- To oversee decision-making in cases where any potential conflict of interest exists between Directors and the Company. The Board of Directors acts as the decision-making body for matters that may cause conflicts of interest by ensuring the decision is delivered under the presence of Independent Directors as well as independent Audit and Supervisory Board members.

In order to ensure that Independent Directors fulfill the above roles, the Company takes the following measures:

- To share and discuss the topics discussed during the Compliance Committee and Risk Management Committee with the Board of Directors for the purpose of creating an environment that allows Directors and Senior Vice Presidents to take appropriate risks when making decisions.
- To share and discuss the topics discussed during the Sustainability Committee as well as the voice of the Company's shareholders with the Board of Directors for the purpose of ensuring the discussions at the Board appropriately reflect the diverse perspectives of its stakeholders.

In addition to the above mentioned Independent Directors, the Board appoints one non-Executive Director who does not execute business operations, but who has in-depth knowledge of and experience in the Internet industry.

Concrete Agenda of the Board of Directors

In addition to monitoring the management execution such as business performance and risks, the Board of Directors mainly discussed the following agenda during FY2025.

- Sustainability strategy
- Capital policy and shareholder returns

In addition, the Board of Directors discussed risks and countermeasures related to the execution of the strategy based on the deliberations of the Risk Management Committee.

As for the sustainability strategy, the Board of Directors discussed the progress and plans for sustainability activities to achieve the sustainability goals of "Prosper Together" based on the deliberations of the Sustainability Committee.

As for the capital policy and shareholder returns, in addition to stable and continuous dividends, the Board of Directors discussed and resolved on the share repurchase after considering the capital markets environment and the outlook of the Company's financial position.

The above section complies with Corporate Governance Principles 4-6, 4-7, 4-8 and 4-11, and Supplementary Principle 1-1-2 and 4-1-1.

Audit and Supervisory Board

Role of the Audit and Supervisory Board

The Audit and Supervisory Board is responsible for the following:

- Supervising the activities and performance of each Director as well as the Board of Directors as a whole and auditing the maintenance and operational status of internal control policies, procedures, and processes, based on the audit plan.
- Evaluating the appropriateness and performance of the Independent Auditor.

All members of the Audit and Supervisory Board attend the Board of Directors meetings as part of their oversight responsibilities. In addition, one or more standing Audit and Supervisory Board members must attend the Business Strategy Meeting to enhance the oversight function.

The Audit and Supervisory Board generally meets once a month and holds extraordinary meetings as needed.

Composition of the Audit and Supervisory Board

The Audit and Supervisory Board comprises four members, including two independent members. One substitute Audit and Supervisory Board member has been elected, in order to avoid any potential non-compliance with the statutory requirement that at least half of the members of the Audit and Supervisory Board be independent members.

Policy for Selecting Audit and Supervisory Board Members

The approach to selecting candidates for the Audit and Supervisory Board is to select qualified persons with suitable experience and capabilities and with the necessary knowledge in the areas of finance, accounting, and legal affairs, to fulfill the duties and responsibilities as an Audit and Supervisory Board member. The Company has two standing Audit and Supervisory Board members who deeply understand the business of the Company, and two independent Audit and Supervisory Board members, one with expertise in legal affairs and one with expertise in finance and accounting.

All the Audit and Supervisory Board members make efforts to continuously expand their knowledge in order to fulfill their audit function in areas such as finance, accounting, and legal affairs through appropriate training courses funded by the Company. For example, the Audit and Supervisory Board members seek to deepen their understanding of the latest accounting standards and important matters for auditing by taking relevant training and seminars offered by the Japan Audit and Supervisory Board Members Association or by outside audit and assurance firms.

The above section complies with Corporate Governance Principles 4-4 and Supplementary Principle 4-4-1.

Advisory Bodies to the Board of Directors: Nomination and Governance Committee and Compensation Committee

The Nomination and Governance Committee, and the Compensation Committee advise the Board of Directors. Each committee has a majority of independent members and is chaired by an Independent Director in order to enhance the transparency and objectivity of the decision-making process.

These committees review and consider the nomination, evaluation, and compensation of Directors and Senior Vice Presidents in each fiscal year. Final decisions are made by resolution of the Board of Directors.

The roles of each committee are as follows:

Nomination and Governance Committee

The matters subject to deliberation by the Nomination and Governance Committee are as follows:

- The appointment or dismissal of the CEO
- CEO succession planning
- The process for appointing or dismissing Director candidates, Senior Vice Presidents, and Corporate Professional Officers
- Director candidates and the requirements for the appointment thereof
- Governance systems such as the Company's organizational structure and the composition of the Board of Directors

In FY2025, the main topics deliberated by the Nomination and Governance Committee were as follows:

The Nomination and Governance Committee deliberated on the appointment or dismissal of the CEO by considering whether the current CEO has effectively performed their role in light of the Company's progress in implementing its mid- to long-term strategy, business performance, and so forth. The Committee then presented a proposal to reappoint the current CEO for the following fiscal year to the Board of Directors. As for the CEO succession plan, the Committee evaluated the appropriateness and implementation progress of the development plan for potential successors, taking into account the talent requirements established based on its corporate strategy and anticipated timing of leadership transitions.

Regarding the process for appointing or dismissing Director candidates, Senior Vice Presidents, and Corporate Professional Officers, the Nomination and Governance Committee discussed the best management structure, taking into account the mid- to long-term governance policy and the timing of planned CEO succession. The Committee deliberated on the adequacy of the aforementioned process from the selection of candidates to the resolutions by the Board of Directors. Additionally, the dismissal of Directors, Senior Vice Presidents and Corporate Professional Officers is considered in cases where significant damage to the Company's corporate value is recognized, such as due to violations of laws and regulations. Regarding the Director candidates and the requirements for the appointment thereof, the Committee identified succession planning for Independent Directors as a priority and deliberated on the key talent criteria and review process.

As for governance systems such as the Company's organizational structure and the composition of the Board of Directors, the Nomination and Governance Committee took into account the outcomes of the evaluation of the effectiveness of the Board of Directors and deliberated on the policy for the mid- to long-term evolution of corporate governance.

Compensation Committee

The matters subject to deliberation by the Compensation Committee are as follows:

- Policies, compensation systems, and evaluation systems relating to the determination of the compensation of Directors and Senior Vice Presidents
- Individual compensation amounts for, and individual evaluations of, Directors
- The process for determining individual compensation amounts for, and individual evaluations of, Senior Vice Presidents other than Directors
- The maximum amount of equity compensation for the Recruit Group as a whole

In FY2025 the main topics deliberated by the Compensation Committee were as follows:

Regarding policies, compensation systems, and evaluation systems relating to the determination of the compensation of Directors and Senior Vice Presidents, the compensation level for the following fiscal year was determined by referencing data on the executive compensation in similar-sized companies in the same industry, both domestically and overseas, during the most recent fiscal year and so forth. In this context, it was determined that, in order to continue growing the Company's business in global markets and enhancing the corporate value of the Group, it is important to flexibly secure highly capable personnel with extensive knowledge and management experience in global markets; accordingly, the Committee deliberated on a proposal to be submitted to the Annual Meeting of Shareholders to revise the upper limit of the amount of equity compensation for Directors.

The Compensation Committee conducted the individual performance evaluations for the current fiscal year. The Executive Director under evaluation was not present during the process, and the evaluation was based on the review of the missions established for each individual prior to the start of the fiscal year. For the evaluation of the

individual performance of the two Representative Directors, an independent Director serving as the chair of the Committee formulated a draft proposal after conducting interviews with Executive Directors and Standing Audit and Supervisory Board members. As for the individual evaluation criteria of Executive Directors for the following fiscal year, the Committee determined each Executive Director's expected roles, with the individuals in question absent during the process. Furthermore, the Committee confirmed the process for determining individual compensation amounts for, and individual evaluations of, Senior Vice Presidents other than Directors, which are to be determined at the Business Strategy Meeting, in accordance with the compensation and evaluation systems deliberated by the Compensation Committee and resolved by the Board of Directors.

Lastly, the Compensation Committee deliberated on the appropriate maximum amount of equity compensation for the Recruit Group as a whole, taking into account the appropriate scope of beneficiaries to promote the implementation of the Group's mid- to long-term business strategy, as well as the performance outlook for the following fiscal year.

The above section complies with Corporate Governance Principles 3-1 (iv), and Supplementary Principles 4-1-3, 4-3-1, 4-3-2, 4-3-3, 4-10-1 and 4-11-1.
