### **Notice regarding**

#### **Ransomware Attack on a Consolidated Subsidiary and Possibility of Exfiltration of Data**

We found that the server of a consolidated subsidiary in Germany, Okuma Europe GmbH (“OEG”) was accessed by an unauthorized third party, which resulted in infection of the server by ransomware and that there might be risk of exfiltration of some personal data and confidential information.

We are currently working on investigation of information security breaches resulting from the infection and recovery of the affected system with supports from outside experts. We have already reported this case to the police and other relevant governmental agencies in Germany.

It will take some time to clarify the full extent of the damage and the cause of this incident.

We express deepest apologies for any inconvenience this has caused to our customers and other various stakeholders.

#### **1. How the unauthorized access was discovered.**

On September 20, 2025 (Sat), we found that the server of OEG had been accessed by an unauthorized third party and that various files stored in the server had been encrypted.

#### **2. Current Status and Future Responses**

We are currently investigating the cause of the incident and considering measures to prevent recurrence with the cooperation of external experts and are continuing to investigate whether any information was leaked. We will take actions to minimize any inconveniences to our customers and other various stakeholders.

No negative impacts of this incident on Okuma Corporation or Okuma group companies (other than OEG and its subsidiaries) have been observed.

#### **3. Impact on the Business Performance**

We are in the process of examining impact of this incident on the business performance of Okuma group. If we deem that this incident will have material impact on the business performance, we will promptly disclose it.
