Non-consolidated net shipments for the fourth quarter (January-March) were 98.1B yen, a year-on-year increase of 28.2% and a quarter-on-quarter increase of 9.0%.

Both precision processing equipment and precision processing tool shipments increased with a focus on generative AI applications, and quarterly shipments reached a record high.

Full-year shipments for the 2025 fiscal year reached a record high for the sixth consecutive year.

The official financial results for the fourth quarter of the 2025 fiscal year will be announced on April 22, 2026.

#### Purpose of the Preliminary Report

DISCO CORPORATION's (the Company's) preliminary report is a voluntary disclosure on non-consolidated sales and shipment figures that is made each quarter, as soon as those figures are tabulated, in order to deliver real-time information on the Company's financial results to investors. The report above was created before the completion of an audit and is based on information available to the Company at the time of release. The actual operating results may differ from the preliminary report as a result of findings made after a detailed audit by an auditing firm.
