

NEWS RELEASE

December 17, 2025

YAMASHIN-FILTER CORP.

**Recognized as a CDP Climate Change A List Company
for the Second Consecutive Year**

YAMASHIN-FILTER CORP (President: Atsuhiko Yamazaki) is pleased to announce that it has been certified as a top-rated A List Company of CDP Climate Change 2025 for two consecutive years. One of the non-financial KPIs of our Mid-term Management Plan is to obtain a CDP climate change score of "A" by the fiscal year ending March 2028, in other words, to be recognized as an A List Company. Following our recognition in 2024, we have once again been recognized as an A List Company this year, and we remain committed to strengthening our efforts to address climate change.

The CDP is an international environmental non-profit organization founded in the United Kingdom in 2000 that collects, analyzes, and evaluates the environmental initiatives of companies and municipalities. The CDP evaluates on an eight-level (A, A-, B, B-, C, C-, D, D-) and it certifies those companies that are demonstrating particularly outstanding efforts as A List Company.

We will continue to fulfill our social responsibility as a company that contributes to sustainable social and economic activities under the themes of Environment, Air quality, and Health as a comprehensive filter manufacturer.
