Proposals and References

Proposal No. 1: Distribution of Surplus

The Company intends to appropriately distribute its corporate earnings based on the operating performance of the Group as a whole, and taking into consideration strategic growth investments, financial soundness, appropriate balance of return to shareholders and stable dividend payment.

Regarding shareholder returns during the three-year period of our current medium-term management plan starting from FY2025, our policy is to “stable dividends with a target DOE (dividends on equity attributable to owners of the parent company) of approximately 3.5% and flexible share buybacks.” Based on this policy, we will implement a stable dividend policy that is not affected by short-term profit fluctuations due to sudden changes in the environment.

Based on this basic policy, the Company hereby proposes its year-end dividends for the fiscal year ended December 31, 2025 as follows:

Matters concerning year-end dividends

1. Type of assets to be paid as dividends
Cash
2. Matters concerning allotment of property dividends to shareholders and the total amount
Divided per share of common stock: 40 yen
Total amount of dividends: 4,705,737,400 yen
3. Effective date for distribution of surplus
March 27, 2026

Based on the above, the annual dividend for the fiscal year ended December 31, 2025 including the interim dividend of 40 yen per share, will be 80 yen per share (DOE3.5%、連結配当性向 60.8%).

[Corporate Philosophy]

The Nabtesco Group, with our unique motion control technology, will provide safety, comfort and a sense of security in daily lives as well as any form of transportation.

[Long-term Vision]

Leaders in Innovation for the Future

[Basic policy of the Medium-Term Management Plan]

“Reviving Potential, Evolving Excellence.”

Reviving Potential; Reviving our profitability by executing Project 10
Evolving Excellence; Evolving our technology from “motion control” to “smart motion control” to provide new value that meets the needs of society

<Management Targets>

The Nabtesco Group has set the targets for the medium-term management plan for 2025 to 2027 as follows.

[The targets for the medium-term management plan]

ROIC: 10% or over

Return to shareholders: Maintain about DOE 3.5%
with stable dividend and share buyback in accordance of financial condition

Environmental Target: Reduce CO₂ Emissions by 50% in 2027
(Baseline year: FY 2015/aligned with the SBT 1.5 degree Celsius target)

<Medium- to Long-term Management Strategies>

Nabtesco is reviving profitability by executing Project 10 (Reviving Potential) and evolving our technology toward smart motion control (Evolving Excellence) to deliver the value of our products and services, ultimately achieving our long-term vision of becoming a “leader in innovation.”

Enhance profits through business growth, cost reduction, and optimization of fixed costs.

2) Smart Motion Control

Our core competence in component technology is evolving from “motion control” to “smart motion control,” including electrification, integration and data solutions. This will create new value to address societal challenges in our business fields

3) Build a resilient corporate foundation

Optimize our portfolio based on our vision (smart motion control) and profitability (ROIC)

(Reference) Management Materiality

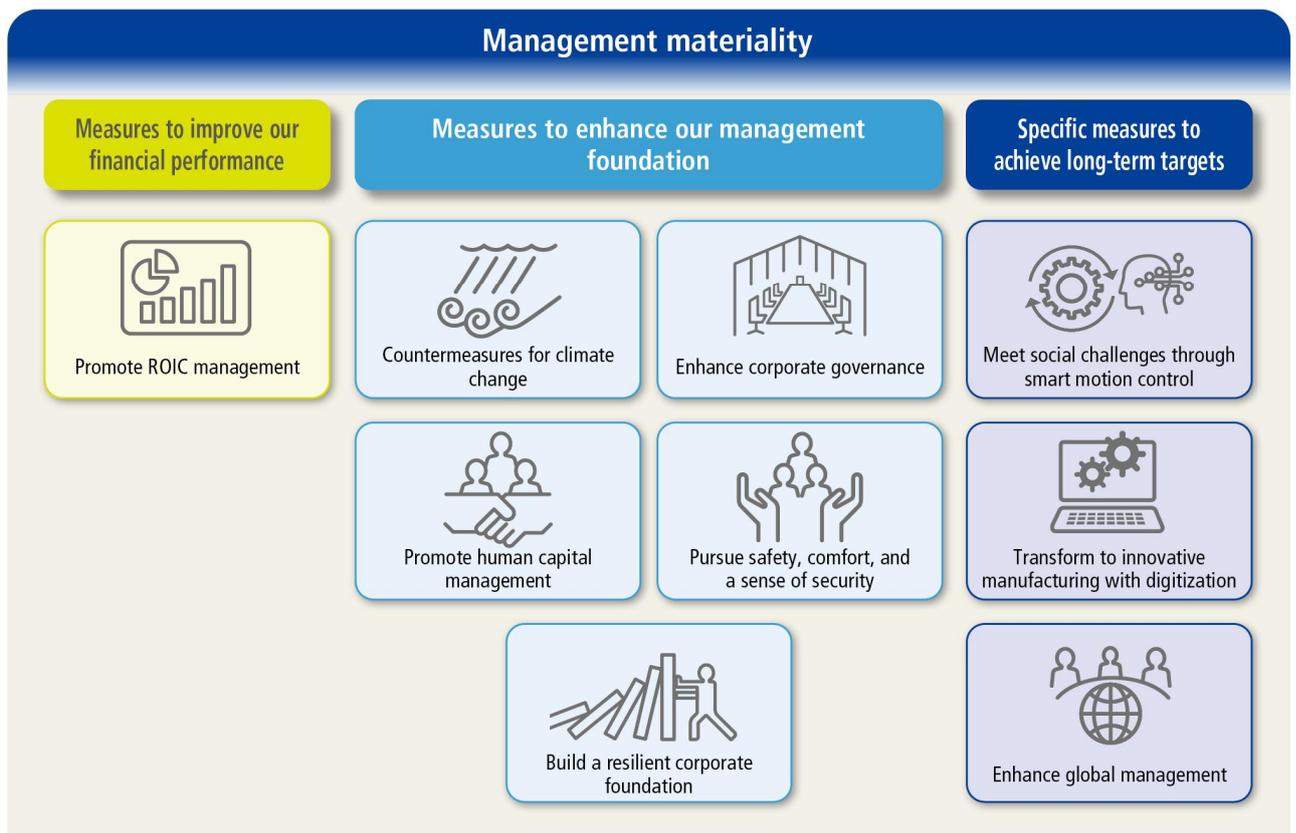

The Nabtesco Group aims for sustainable growth, regards management materiality as a particularly important management issue for achieving our long-term targets, and promotes related initiatives accordingly. In identifying management materiality, the Group finds social problems from social issues that should be solved through business strategies and from highly relevant ESG themes, etc., then analyzes materiality in terms of how they affect the Group and how they affect stakeholders. Furthermore, after evaluating consistency with company-wide material risks based on the results of risk assessments, management materiality is determined. Its adequacy is determined at a meeting of the Board of Directors after exchanges of opinions with external experts and deliberations at the Management Materiality Committee and management meetings.

Identified management materiality consists of three pillars: “Measures to improve our financial performance,” “Measures to enhance our management foundation,” and “Specific measures to achieve long-term targets,” and we aim to achieve a balance between economic value and environmental and social value from a long-term perspective through financial and non-financial measures.

In 2025, we re-evaluated the validity and significance of our recognition of issues, responding to changes in the internal and external environment related to “improving profitability and concretizing innovation areas as required by the Medium-term Management Plan” and “double materiality, a key societal requirement.” As a result, we have decided to maintain the management materiality items established in FY2024.

Going forward, we will further strengthen our business foundation and create value for all stakeholders while reviewing management materiality quickly and appropriately in consideration of changes in business environments and social demands.

- The Company is fully responsible for insurance fees under the said contract.

(4) Total amount of compensation paid to Directors and Audit & Supervisory Board Members

1) Policy on determination of compensation for individual Directors and Audit & Supervisory Board Members

■ Basic policy on compensation system

- The system shall ensure that shareholders and management share common interests by strengthening the link between compensation and the Company's performance and share value.
- The system shall function as an incentive to improve the medium- to long-term performance of the Group.
- The process of determining the compensation system shall be highly objective and transparent.

■ Structure of the compensation system

- 1) Compensation to Directors is composed of monthly compensation, comprising fixed basic compensation and short-term performance-linked compensation, and the Board Benefit Trust (BBT), which is stock compensation based on the degree of achievement of the Medium-term Management Plan as well as share value.
- 2) Basic compensation is fixed compensation according to the position of each Director, and is paid as monthly compensation.
- 3) The amount of performance-linked compensation (monthly compensation) to be paid is determined according to the following formula, based on the degree of achievement of annual results.

[Short-term performance-linked compensation]

$$\text{Short-term performance-linked compensation} = \text{Standard payment amount by position} \times \text{Performance evaluation coefficient}$$

* Performance evaluation coefficient: Determined by a matrix table using ROIC and profit (attributable to owners of the parent) for the previous fiscal year within a certain threshold as indicators (coefficient: 0.00 - 4.00)

For Directors in charge of internal companies, short-term performance-linked compensation is adjusted based on factors including the net sales growth rate, degree of improvement of operating income, degree of ROIC improvement, R&D indicators, and environmental indicators of the relevant companies.

- 4) Stock compensation is paid using the Board Benefit Trust (BBT) mechanism, and the amount of payment is determined according to the following formula, based on the degree

of achievement of the Medium-term Management Plan.

[Tenure grant-type stock compensation]

Tenure grant-type stock compensation = Share grant points by position × Performance evaluation coefficient × Medium-term Management Plan achievement coefficient

* Performance evaluation coefficient: Determined by a matrix table using ROIC and profit (attributable to owners of the parent) for the previous fiscal year within a certain threshold as indicators (coefficient: 0.00 – 4.00)

* Medium-term Management Plan achievement coefficient: Set based on the degree of achievement of the net sales and operating income stated in the Medium-term Management Plan (three years) (coefficient: 0 – 0.5)

Grant points will be vested on the day of the Annual General Meeting of Shareholders relating to the final fiscal year ending within three years from the awarding of points.

[Retirement grant-type stock compensation]

Retirement grant-type stock compensation = Share grant points by position

Grant points are vested at the end of each year's term and given on the day that the Director retires.

- 5) The composition of Directors' compensation emphasizes the link with performance and shareholder value.

Position	Fixed compensation	Performance-linked compensations		
	Basic compensation	Short-term performance-linked compensation	Tenure grant-type stock compensation	Retirement grant-type stock compensation
Chairman of the Board / President	25%	35%	25%	15%
Director	25%	35%	25%	15%

* The above table shows model compositions, where the figures are the median by position with the target achievement rate for performance-linked compensation set at 100%.

- 6) Compensation, etc., for Outside Directors and Audit & Supervisory Board Members consists only of fixed compensation, with no performance-linked compensation, as these officers are in a position independent from business execution.
- 7) As a result of having to revise the financial results of past fiscal years due to inappropriate accounting, etc., the Company has set compensation regulations so as to demand the return of all or part of performance-linked compensation in the event of material revisions in the performance of past fiscal years which was the basis of the calculation of performance-linked compensation, or in the event that the Company incurs material loss due to an officer's wrongful or illegal act.

■ Nabtesco's approach to indicators for performance-linked compensation

The basic indicators for performance-linked compensation paid to Directors (excluding Outside Directors) are ROIC and profit (attributable to owners of the parent), which reflect the fruits of all employee activity and are principal indicators linked to the improvement of ROE. In this way, the Company encourages all Directors to take note of capital costs and payout ratio, and promotes management that is mindful of the sustainable growth of the Group. Furthermore, indicators for Directors in charge of businesses have the added functions of incentivizing them to improve performance in the medium to long term by including R&D indicators to encourage the creation of intellectual property and environmental indicators showing how much CO₂ emission was reduced, in addition to management indicators such as the degree of ROIC improvement.

Furthermore, net sales and operating income are adopted as indicators for the degree of achievement of the Medium-term Management Plan, as they reflect the business activities of all Directors and employees, with the aim of aligning all business activities in one direction. However, in case of impacts from events not triggered by the Company's management decisions, the above indicators may be adjusted.

[Actual performance of principal indicators related to performance-linked compensation]

ROIC	Net sales	Operating income	Profit
3.4%	323,384 million yen	14,788 million yen	10,119 million yen

Performance-linked compensation for the fiscal year under review is calculated based on the figures in the financial results as of December 31, 2024 (before reclassification related to discontinued operations).

■ Method, etc. for determining compensation

The Board of Directors determines the policy regarding compensation, etc., of Directors, compensation system, level, and amount paid to each Director, based on the deliberations and reporting of the Compensation Committee, which is composed of one internal Director and four Independent Outside Directors / Audit & Supervisory Board Members (Independent).

Compensation, etc. of Audit & Supervisory Board Members is decided upon consultation with Audit & Supervisory Board Members.

The activities of the Committee, etc. during the fiscal year under review that deliberated and determined compensation, etc. of Directors are as follows.

[Number of meetings of the Committee, etc. (January 2025 to December 2025)]

Committee, etc.	Number of meetings
Remuneration Committee	2
Board of Directors	2

2) Total amount of compensation by managerial position, total amount of compensation by type of compensation, and number of recipients

Directors / Audit & Supervisory Board Members	Total amount of compensation (million yen)	Types of compensation (million yen)				Number of Directors and Audit & Supervisory Board Members
		Fixed compensation	Performance-linked compensation			
			Monthly compensation	Board Benefit Trust (BBT)		
		Tenure grant		Retirement grant		
Directors [Outside Directors]	210 [54]	149 [54]	20 —	17 —	23 —	11 [5]
Audit & Supervisory Board Members [Audit & Supervisory Board Members (Independent)]	81 [27]	81 [27]	— —	— —	— —	5 [3]
Total	291	230	20	17	23	16

(Notes)

- 1) The “Number of Directors and Audit & Supervisory Board Members” for Directors includes two Directors who retired during the fiscal year under review.
- 2) Monthly compensation consists of basic compensation and short-term performance-linked compensation paid out in total on a monthly fixed basis.
- 3) The Board Benefit Trust (BBT) amount is the amount expensed during the fiscal year under review according to J-GAAP, based on the number of share grant points awarded or expected to be awarded during the fiscal year under review.
- 4) The upper limit on compensation as resolved at the 21st Annual General Meeting of Shareholders (March 26, 2024) is set at 400 million yen per year for Directors (of which 70 million yen is for Outside Directors). The number of Directors at the conclusion of the 21st Annual General Meeting of Shareholders was ten (including five Outside Directors).
- 5) The upper limit on compensation as resolved at the 14th Annual General Meeting of Shareholders (March 28, 2017) is set at 90 million yen for Audit & Supervisory Board Members. The number of Audit & Supervisory Board Members at the conclusion of the 14th Annual General Meeting of Shareholders was five (including three Audit & Supervisory Board Members (Independent)).
- 6) In addition to the compensation amounts stated above, the Company has introduced a Board Benefit Trust (BBT) system for Directors (excluding Outside Directors) as resolved at the 14th Annual General Meeting of Shareholders (March 28, 2017). Based on the Regulations for Provision of Shares to Officers established under this system, the Company is making contributions to the Trust, with upper limits of 450 million yen (for three business years) for the tenure grant, and 420 million yen (for three business years) for the retirement grant, respectively. With regard to this system, upper limits for share grants were set at 56,000 points for the tenure grant (for a single fiscal year) and 51,000 points for the retirement grant (for a single fiscal year) separately from the upper limits on compensation stated in 4. above at the 14th Annual General Meeting of Shareholders (March 28, 2017). The number of Directors at the conclusion of the 14th Annual General Meeting of Shareholders was ten (including three Outside Directors).

3) Reason why the Board of Directors has deemed the details of compensation for individual Directors for the fiscal year under review to be in accordance with the policy on the determination of compensation

The Remuneration Committee deliberated on the details of compensation for individual Directors for the fiscal year under review, based on the perspectives described in “Structure of the compensation system” and “Nabtesco’s approach to indicators for performance-linked compensation” above. The Remuneration Committee then made recommendations based on these deliberations to the Board of Directors, which determined the amount of compensation for individual Directors with due respect for the recommendation. The Board of Directors therefore considers that the details of compensation for individual Directors for the fiscal year under review are in accordance with the policy on the determination of compensation for individual officers.

2) Risk management system

- i) For the purpose of grasping and managing various risks in connection with business activities of the Group and limiting losses incurred to a minimum when they occur, we are endeavoring to strengthen the Group's risk management system by formulating internal regulations, including risk management regulations.
- ii) At our in-house companies, and domestic and overseas subsidiaries, the head of each organization is assigned as a Risk Management Officer. The Company has established cross-company organizations such as the Risk Management Committee, the Quality & PL Committee, the Environment, Safety and Health Committee and the Information Security Committee, and deliberates measures concerning material risks. During the fiscal year under review, the Risk Management Committee met three times. Risk assessment of the Company and its domestic and overseas subsidiaries was implemented, and the Committee identified significant risks that must be addressed on a Group-wide basis. The identified risks are mitigated by formulating, supporting and implementing countermeasures at the supervising Corporate Headquarters, and the relevant companies and subsidiaries. Furthermore, the Quality & PL Committee met once, the Environment, Safety and Health Committee met twice, and the Information Security Committee met three times during the fiscal year.
- iii) The Group is promoting the development and enhancement of an effective BCP (business continuity plan at the time of a critical accident and disaster), and 14 of its main business bases have acquired the certification for organizations contributing to national resilience (Resilience Certification).

(Note) Resilience Certification is a system established in February 2016 by the National Resilience Promotion Office, Cabinet Secretariat of Japan, based on the Guidelines for the Certification for Organizations Contributing to National Resilience. Under the system, the Association for Resilience Japan certifies various organizations including companies, local governments, schools, and hospitals that support the objectives of national resilience with a concept of building a country resilient to disasters or critical events and are actively engaged in initiatives toward business continuity, as an Organization Contributing to National Resilience.

- iv) Expert staff members of the Head Office mainly from within the Business Auditing Department conduct internal audits to give appropriate guidance toward operational improvement, etc.

3) Execution of duties by Directors

Eighteen meetings of the Board of Directors of the Company were held in the fiscal year under review to deliberate and determine important matters relating to the execution of business operations and to supervise the execution of duties by Directors and Executive Officers. The minutes of the Board of Directors meetings and other important documents and materials relating to the execution of duties by Directors are appropriately prepared, stored, and managed.

4) Execution of duties by Audit & Supervisory Board Members

Thirteen meetings of the Audit & Supervisory Board were held in the fiscal year under review to report, discuss and resolve important matters relating to audits. In addition, the Audit & Supervisory Board Members attend the Board of Directors meetings, the Management Committee meetings, the Executive Officers Committee meetings and other important conferences, and hold meetings to exchange opinions with Representative Directors, meetings to exchange opinions with the Financial Auditor, the Audit Council meetings with the Business Auditing Department, and meetings of the Group Audit & Supervisory Board attended by Audit & Supervisory Board Members of the Company's subsidiaries, and thereby rigorously monitor the execution of duties by Directors, Executive

Officers, and employees. Moreover, to ensure the effectiveness of the audits by the Audit & Supervisory Board Members, the Company grants the Audit & Supervisory Board Members the right to access all of the management information databases and assigns two support personnel to the Audit & Supervisory Board Members at their request. In addition, the Audit & Supervisory Board Member Hotline, an internal reporting system with Audit & Supervisory Board Members serving as a point of contact, was established and is being appropriately operated.
