--

Guidance on Exercising Voting Rights via the Internet, etc.

How to scan QR code “Smart voting”

You can log in to the voting rights exercise site without entering your code and password.

1. Scan the QR code printed on the right side of voting card (front).
* QR code is a registered trademark of DENSO WAVE INCORPORATED.
2. Then follow the guidance on the screen and vote for or against each proposal.

“Smart voting” can only be used once to exercise your voting rights.

In the event that you wish to modify the details of your vote after exercising your voting rights, please access the PC version of the website, enter the voting code printed on the voting card (back) together with your password, log in, and exercise your voting rights once again.

* If the QR code is read a second time, you will be transferred to the PC version of the website.

How to enter the voting code and password

Voting Rights Exercise Site:
<https://www.web54.net> (In Japanese)

1. Access the Voting Rights Exercise Site and click “次へすすむ (Next).”
2. Enter the voting code printed on voting card (back) and click “ログイン (Log in).”
3. Enter the password printed on the voting card (back).
Enter “Initial password”
Set a new password that you will actually use.
Click “Register”
4. Then follow the guidance on the screen and vote for or against each proposal.

If you have questions about the operation of your PC, smartphone or mobile phone regarding the exercise of voting rights via the Internet, please contact the following:

Stock Transfer Agency Website Support help desk,
Sumitomo Mitsui Trust Bank, Limited.
Phone: 0120-652-031
(9:00 a.m. to 9:00 p.m., toll free (only within Japan))

To exercise voting rights, institutional investors can use the Internet voting rights exercise platform for institutional investors operated by ICJ, Inc.

Reference Documents for the General Meeting of Shareholders

First Proposal:

Appropriation of Surplus

Comprehensively taking into account the business environment and maintaining a continuous, stable profit distribution, the Company will set the basic policy under which it gives top priority to improving the efficiency of shareholders' equity and distributing more profit to shareholders, thereby returning its profits to shareholders commensurate with its business performance.

In accordance with this policy, the company proposes to set the ordinary dividend at 25 yen per share for the year-end dividends for the 80th fiscal term.

Matters concerning year-end dividend:

(1) **Type of dividend**

Cash

(2) **Matters concerning the allocation of dividend and total amount**

25 yen per common share of the Company

Total dividends are 10,048,550,425 yen.

(3) **Effective date for surplus dividend**

June 29, 2026

Since the interim dividend in the amount of 25 yen per share has been distributed, the annual dividend for the 80th fiscal term would be 50 yen per share, an increase of 5 yen from the actual dividend of 45 yen per share paid in the previous fiscal term.

(Translation)

Second Proposal:
Partial Amendment to the Articles of Incorporation

1. Reason for the Proposal

To further strengthen the management system and corporate governance, the Company hereby proposes to increase the maximum number of Directors from twelve (12) to thirteen (13).

2. Details of the Amendment

Details of the Amendment are as follows.

(Underlined parts are amended)

Current Articles of Incorporation	Proposed Amendment
(Number of Directors) Article 17. The number of the Company’s Directors shall be not more than <u>twelve (12)</u> .	(Number of Directors) Article 17. The number of the Company’s Directors shall be not more than <u>thirteen (13)</u> .

(Translation)

Third Proposal:

Election of Thirteen (13) Directors

The terms of office of all eleven (11) Directors will expire at the conclusion of this General Meeting of Shareholders. To further strengthen its management system and corporate governance, the Company proposes to increase the number of Directors by adding two (2) Directors (including one (1) Outside Director), and the election of thirteen (13) Directors (including five (5) Outside Directors), on condition that the Second Proposal, “Partial Amendment to the Articles of Incorporation,” is approved.

The candidates for Director of the Company are as follows. This proposal has been determined after consulting the Nomination and Compensation Committee, which has an independent Outside Director as Chairman and independent Outside Directors comprising at least half of its members, and considering the committee’s report.

No.		Name	Position at the Company	Status of attendance at the Board of Directors Meeting
1	Reappointment	Yoshihisa Kainuma	Representative Director, Chairman CEO	100% (15/15)

<p>(Reason for nomination as candidate for Outside Director and expected roles) Mr. Hirofumi Katase has expertise in economy, industry, technological development, international trading, energy, environment, space development, etc. as well as broad knowledge and experience nurtured through holding important posts in the government agencies. He has been fulfilling his duties appropriately as Outside Director since June 2021. We continuously propose him as a candidate for Outside Director since we expect him to provide supervision and advice, etc. in his role based on such insight and experience.</p>			

Notes:

1. Special interests between respective candidates and the Company is as follows:
 - (i) Mr. Takashi Matsuoka concurrently holds a post as Director and Vice President Executive Officer of KEIAISHA Co., Ltd. The Company purchases machinery and equipment, components and grease, and other materials from KEIAISHA Co., Ltd. KEIAISHA Co., Ltd. is the parent company of KI BUSINESS PARTNERS CO., LTD., which is the ninth largest shareholder of the Company.
 - (ii) There are no conflicts of interest existing between other candidates and the Company.
2. Ms. Yuko Miyazaki, Mr. Katsumi Ihara, Ms. Atsuko Matsumura, Ms. Yuko Haga, and Mr. Hirofumi Katase are candidates for Outside Directors.
3. The terms of office for Outside Director candidates are as follows:
 - (i) Ms. Yuko Miyazaki will have been in office for four years upon the conclusion of the meeting.
 - (ii) Ms. Atsuko Matsumura will have been in office for eight years upon the conclusion of the meeting.
 - (iii) Ms. Yuko Haga will have been in office for six years upon the conclusion of the meeting.
 - (iv) Mr. Hirofumi Katase will have been in office for five years upon the conclusion of the meeting.
4. The Company concluded agreements with Directors (excluding Executive Directors) for limiting their liabilities under Article 423, paragraph (1) of the Companies Act so that the Outside Directors may fully perform their roles as expected. The amount subject to the limitation of liabilities of damages shall be the minimum liability amount set forth by laws and regulations. If this proposal is approved as drafted, the Company will continue the said liability limitation agreement with Mr. Takashi Matsuoka, Ms. Yuko Miyazaki, Ms. Atsuko Matsumura, Ms. Yuko Haga, and Mr. Hirofumi Katase, and newly conclude the said liability limitation agreement with Mr. Katsumi Ihara.
5. The Company has entered into a directors and officers liability insurance ("D&O insurance") policy as provided for in Article 430-3, paragraph (1) of the Companies Act with an insurance company, thereby covering losses and costs incurred by the Company's Directors, Audit & Supervisory Board Members and/or certain others in cases where they are liable for damages arising from their performance of duties (unless a coverage exclusion in the insurance policy is applied). The full amount of the insurance premiums for D&O insurance is borne by the Company. If this proposal is approved as drafted, all of the reelected Directors and Mr. Shinji Shirakata and Mr. Katsumi Ihara will be insured persons in the D&O insurance policy. The Company plans to renew the D&O insurance policy with the same details during the term of office of Directors and Audit & Supervisory Board Members.

(Translation)

6. *Ms. Yuko Miyazaki, Mr. Katsumi Ihara, Ms. Atsuko Matsumura, Ms. Yuko Haga, and Mr. Hirofumi Katase, candidates for Outside Directors, meet the requirements for independent officers stipulated by the Tokyo Stock Exchange, Inc. If this proposal is approved as drafted, the Company will continue to submit a notification designating Ms. Yuko Miyazaki, Ms. Atsuko Matsumura, Ms. Yuko Haga, and Mr. Hirofumi Katase as independent officers, and newly submit a notification designating Mr. Katsumi Ihara as an independent officer.*
7. *Candidate for Outside Director, Ms. Yuko Haga's registered name under the family registration system is Yuko Hayashi.*
8. *AIR WATER INC., for whom Ms. Yuko Haga serves as Independent Director, has announced that an incident occurred involving inappropriate accounting treatment at the company and its consolidated subsidiary. While Ms. Haga had not been aware of the fact until the incident was discovered, she has properly offered proposals from a legal compliance and compliance management perspective and has, since the incident, expressed her opinions about measures to prevent recurrence of such incident, thus properly fulfilling her responsibilities as the company's Independent Director.*

Fourth Proposal:

Election of One (1) Audit & Supervisory Board Member

The terms of office of Audit & Supervisory Board Member, Shinichiro Shibasaki will expire at the conclusion of this General Meeting of Shareholders. Accordingly, we hereby propose to elect one (1) Audit & Supervisory Board Member.

The candidate for Audit & Supervisory Board Member of the Company is as follows, and we have already obtained approval from the Audit & Supervisory Board with respect to this proposal.

Name (Date of Birth)	Career Summary, Position and Responsibilities at the Company, and Significant Concurrent Positions Outside the Company	Number of Shares of the Company Held
 Shuichi Namba (December 18, 1957) (New appointment) (Outside) (Independent)	Apr. 1984 Registered as attorney-at-law, member of Dai-Ichi Tokyo Bar Association Feb. 1988 Registered as a member of the State Bar of New York Dec. 1988 Registered as a member of the State Bar of California Apr. 1989 Partner, MOMO-O, MATSUO & NAMBA (Present) Feb. 1998 Outside Corporate Auditor, SANSHIN CORPORATION Sep. 2001 Supervisory Director, Japan Retail Fund Investment Corporation Jun. 2002 Outside Audit & Supervisory Board Member, ITOCHU ENEX Co., Ltd. Dec. 2011 Executive Officer, Japan Retail Fund Investment Corporation (currently Japan Metropolitan Fund Investment Corporation)	—
(Reason for nomination as candidate for Outside Audit & Supervisory Board Member) Although Mr. Shuichi Namba has never been involved in corporate management, he has a wealth of experience and deep insight as a lawyer well-versed in corporate legal affairs. We propose him as a new candidate for Outside Audit & Supervisory Board Member so that his insight and experience will be reflected in audits of the Company		

Notes:

1. *Mr. Shuichi Namba is a candidate for Outside Audit & Supervisory Board Member.*
2. *Mr. Shuichi Namba has no special interest in the Company.*
3. *Mr. Shuichi Namba, a candidate for Outside Audit & Supervisory Board Member, meets the requirements for independent officers stipulated by the Tokyo Stock Exchange, Inc. If this proposal is approved as drafted, the Company will submit a notification designating Mr. Shuichi Namba as a new independent officer.*
4. *The Company concluded agreements with Audit & Supervisory Board Members for limiting their liabilities under Article 423, paragraph (1) of the Companies Act so that the Audit & Supervisory Board Members may fully perform their roles as expected. The amount subject to the limitation of liabilities of damages shall be the minimum liability amount set forth by laws and regulations. If this proposal is approved as drafted, the Company will newly conclude the said liability limitation agreement with Mr. Shuichi Namba.*
5. *The Company has entered into a directors and officers liability insurance (“D&O insurance”) policy as provided for in Article 430-3, paragraph (1) of the Companies Act with an insurance company, thereby covering losses and costs incurred by the Company’s Directors, Audit & Supervisory Board Members and/or certain others in cases where they are liable for damages arising from their performance of duties (unless a coverage exclusion in the insurance policy is applied). The full amount of the insurance premiums for D&O insurance is borne by the Company. If this proposal is approved as drafted, Mr. Shuichi Namba will be a new insured person in the D&O insurance policy. The Company plans to renew the D&O insurance policy with the same details during the term of office of Directors and Audit & Supervisory Board Members.*

■ Skill items required for the Board of Directors

Skill item	Reasons for the selection of skill items required
Corporate management	The Company Group needs Directors with abundant management experience and achievements in corporate management as well as experience, knowledge, and skills for formulating a sustainable growth strategy, in order to constantly produce products contributing to social business solutions and sustainably increase corporate value amid a drastic change in the business environment surrounding the Group.
M&A	The Company Group needs Directors with experience, knowledge, and skills for finding possible M&A targets from the point of strengthening the “Eight Spears” strategy, determining fair prices based on financial discipline in order to maximize integration effectiveness flexibly and speedily by careful PMI (Post Merger Integration), respecting each corporate culture, etc., since we aim for well-balanced organic and M&A growth.
Global affairs	The Company Group needs Directors with experience, knowledge, and skills for making management decisions considering market and customer trends as well as country risks, including geopolitical risks, since our main customers operate manufacturing and sales globally, and their bases are located overseas.
Technology development, Manufacturing, Sales	The Company Group needs Directors with experience, knowledge, and skills for manufacturing and developing high quality and precision components in order to materialize and promote the Group’s management philosophy, “contribute to realizing a sustainable, earth-friendly, and prosperous society by producing better products, in faster speed, in larger numbers, in lower cost and by smarter means.”
Environment and society	The Company Group needs Directors with experience, knowledge, and skills for promoting solutions of environmental and human rights problems, and social issues in order to realize enhancing corporate value by contributing to realizing a sustainable society through our businesses.
Personnel and human resources development	The Company Group needs Directors with experience, knowledge, and skills for producing innovations continuously with accelerating synergy between various “wisdom” and “human,” which have been accumulated through our active overseas deployment and M&A since our foundation, in order to promote human resources strategy aiming at sustainable enhancement of corporate value.
Legal affairs	The Company Group needs Directors with experience, knowledge, and skills concerning for ensuring thorough compliance with laws and the practice of ethics in our business operations to expand our businesses globally.
Finance accounting and tax affairs	The Company Group needs Directors with experience, knowledge, and skills concerning developing financial strategies to realize promoting growth investment, including M&A, and enhancing shareholder return.

Fifth Proposal:

Revision to the Amount of Compensation for Directors

The amount of cash compensation for the Company's Directors has been set at up to 1.5 billion yen per year, as approved at the 71st Ordinary General Meeting of Shareholders held on June 29, 2017, and the amount of compensation for the Company's Outside Directors has been set at up to 70 million yen per year out of the 1.5 billion yen per year, as approved at the 75th Ordinary General Meeting of Shareholders held on June 29, 2021.

Currently, the number of the Company's Directors is eleven (11) (including four (4) Outside Directors). In the Third Proposal, to further strengthen the management system and corporate governance, the Company proposes the election of thirteen (13) Directors. If this proposal is approved as drafted, the number of Directors will increase by two (2) (including one (1) Outside Director) to thirteen (13) (including five (5) Outside Directors).

In the Company's director compensation system, the compensation for Directors consists primarily of basic and performance-linked compensation. In July 2024, to further enhance Directors' motivation for contributing to the enhancement of corporate value and their sense of achievement, the Company revised the system, increasing the ratio of performance-linked compensation.

In recent years, the amount of performance-linked compensation paid to Directors has been increasing, driven by the improved results of the Company's operations, so that the amount of compensation paid to Directors has come close to the current upper limit. In addition, as stated above, the number of Directors is to increase by two (2), including one (1) Outside Director. For these reasons, the Company hereby proposes that the amount of compensation for Directors be revised to up to 2.0 billion yen per year (including up to 100 million yen for Outside Directors). As in the past, this amount does not include the portion of employee salary for Directors who concurrently serve as employees of the Company.

This proposal comprehensively takes into account the scale of the Company's business, the Company's director compensation system and the levels of compensation paid under the system, the number of Directors today and its future outlook, as well as other factors, and has been determined by the Board of Directors after consultation with the Nomination and Compensation Committee. Accordingly, the Company considers this proposal appropriate.

Business Report (April 1, 2025 to March 31, 2026)

1. Status of the MinebeaMitsumi Group

(1) Operating performance of the fiscal year

During the consolidated fiscal year, the global economy showed diverse performance results across countries and regions amid growing uncertainty about the outlook against the backdrop of the imposition of reciprocal tariffs by the U.S. and heightened geopolitical risks.

The Japanese economy saw steady personal consumption backed by wage raises, and capital investment for labor saving and digital transformation (DX) has also remained robust. The U.S. economy remained solid overall, as corporate activity stayed strong, driven by an expansion in capital investment primarily relating to artificial intelligence (AI), while there were some signs of personal consumption slowing, with the pass-through of tariff increases pushing prices higher. The European economy showed signs of recovery in the manufacturing sector, supported by personal consumption buoyed by a favorable employment environment, although exports to the U.S. declined because of the effect of U.S. tariff measures. The Chinese economy remained slow overall, affected by a prolonged slowdown in the real estate market, while exports of semiconductors and computer parts remained firm, backed by robust global demand for AI, as did car exports due to the easing of tariff measures. The economies of Southeast Asian countries vary from country to country. In Thailand and the Philippines, exports of goods showed improvement, but the economy recovered only at a moderate pace affected by, among other factors, delays in government spending in both countries.

Working against this backdrop, the MinebeaMitsumi Group (the “Group”) has focused on improving productivity, thoroughly cutting costs, creating high-value-added products, developing new technologies, and expanding sales to achieve sustainable growth and boost profitability.

As a result, net sales were up 141,684 million yen (9.3%) year on year to 1,664,387 million yen. Operating income was up 9,497 million yen (10.1%) year on year to 103,979 million yen, profit before income taxes was up 51,170 million yen (61.9%) year on year to 133,779 million yen, and profit for the year attributable to owners of the parent was up 39,577 million yen (66.6%) year on year to 99,034 million yen.

Performance by segment is as follows:

From the current consolidated fiscal year, some categories were changed in “Motor, Lighting & Sensing Business” and “Semiconductor & Electronics segment,” as a result of organizational change. Segment information for the previous fiscal year is disclosed based on the classification after the reorganization.

Precision Technologies Business

The main products in our Group’s Precision Technologies segment include our Group’s anchor product line, ball bearings, in addition to mechanical components such as rod-end bearings used in aircraft and hard disk drive (HDD) pivot assemblies, etc. as well as fasteners for aircraft. Sales of ball bearings, our Group’s mainstay product, increased due to steady demand for servers for data centers and use in aircraft.

As a result, net sales were up 25,449 million yen (10.0%) year on year to 281,151 million yen, and operating income was up 6,549 million yen (11.8%) year on year to 62,245 million yen.

Motor, Lighting & Sensing Business

The main products of our Group’s Motor, Lighting & Sensing segment include electronic devices (devices such as LED backlights for LCDs, smart products, etc.), HDD spindle motors, sensing devices (measuring components), stepping motors, DC motors, air movers, automotive motors, and special devices. Sales increased mainly due to an increase in demand for fan motors.

As a result, net sales were up 29,573 million yen (6.9%) year on year to 456,517 million yen, and operating income was up 1,547 million yen (6.1%) year on year to 26,929 million yen.

Semiconductor & Electronics Business

The main products in the Semiconductor & Electronics business segment are semiconductor devices, optical devices, mechanical components, and power supply components. Sales increased mainly due to an increase in sales of mechanical components.

As a result, net sales were up 81,818 million yen (16.1%) year on year to 590,263 million yen, and operating income was up 7,060 million yen (36.0%) year on year to 26,669 million yen.

Access Solutions Businesses

The main products of the Access Solutions business segment are key sets, door latches, door handles, and other automotive components as well as industrial equipment components. Sales increased due to an increase in demand for communication antennas and industrial equipment components.

(Translation)

As a result, net sales were up 4,168 million yen (1.3%) year on year to 332,249 million yen, and operating income was up 1,163 million yen (7.3%) year on year to 17,087 million yen.

Notes:

1. Main products of Other Businesses segment include software design, development, and machines produced in-house. Net sales were up 676 million yen (19.2%) year on year to 4,207 million yen (composition ratio to sales: 0.2%), and operating income was down 1,463 million yen for an operating loss of 2,657 million yen (composition ratio to operating income: -2.5%).
2. In addition to the figures noted above, 26,294 million yen (composition ratio to operating income: -25.3%) in corporate expenses, etc. not belonging to any particular segment is indicated as adjustments. Adjustments in the previous fiscal year came to 20,935 million yen.

(2) Capital expenditures, financing, and major lenders

(i) Capital expenditures

During the fiscal year under review, capital expenditures were 10,275 million yen for the Precision Technologies business, 15,775 million yen for the Motor, Lighting & Sensing business, 25,372 million yen for the Semiconductor & Electronics business, 20,427 million yen for the Access Solutions business, 4,498 million yen for the Other businesses, and 20,114 million yen for the whole company (common), totaling 96,461 million yen. The main capital expenditures for the Precision Technologies business were equipment to increase production of ball bearing, etc. in Thailand. The main capital expenditures for the Motor, Lighting & Sensing business were equipment for motor-related facilities, etc. in Thailand and Cambodia. The main capital expenditures for the Semiconductor & Electronics business were optical devices related facilities, etc. in the Philippines and semiconductor related facilities, etc. in Japan. The main capital expenditures for the Access Solutions business were equipment for automotive related facilities in Europe and China.

Capital expenditures included 8,727 million yen for intangible assets and an increase of 10,483 million yen in right-of-use assets in line with new lease agreements under the application of IFRS 16 “Leases.”

(ii) Financing

Own funds, corporate bonds and borrowings were applied to capital expenditures and operating funds during the fiscal year under review.

At the end of the fiscal year under review, borrowings including bonds stood at 482,491 million yen.

(iii) Major lenders (As of March 31, 2026)

Lenders	Outstanding borrowing (millions of yen)
Syndicated loans	182,500
Sumitomo Mitsui Trust Bank, Limited	82,104
Sumitomo Mitsui Banking Corporation	80,299
MUFG Bank, Ltd.	73,434

Notes:

1. Outstanding borrowing from MUFG Bank, Ltd. includes 15,000 million yen for corporate bonds.
2. The syndicated loans consist of as follows:
 - borrowings of 20,000 million yen organized by Sumitomo Mitsui Trust Bank, Limited (the main source: 17,500 million yen from Sumitomo Mitsui Trust Bank, Limited)
 - borrowings of 32,500 million yen organized by Sumitomo Mitsui Trust Bank, Limited (the sources: 15,000 million yen from Sumitomo Mitsui Trust Bank, Limited, 10,000 million yen from Sumitomo Mitsui Banking Corporation, and 7,500 million yen from MUFG Bank, Ltd.)
 - borrowings of 50,000 million yen organized by MUFG Bank, Ltd.
 - borrowings of 40,000 million yen organized by Sumitomo Mitsui Banking Corporation
 - borrowings of 5,000 million yen organized by Sumitomo Mitsui Trust Bank, Limited
 - borrowings of 35,000 million yen organized by Sumitomo Mitsui Trust Bank, Limited

(3) Acquisition or disposition of shares, other equity or subscription rights to shares, etc. of other companies

Not applicable.

Notes:

1. Figures in parentheses for the voting rights ratio in the above table show the ratio of indirect ownership.
2. The number of consolidated subsidiaries of the Company as of March 31, 2026 is 146, including 14 significant subsidiaries shown in the above table.

(Translation)

(6) Tasks to be accomplished

(i) Corporate Philosophy, corporate credo, and vision

The Company's Corporate Philosophy is "To contribute to realization of a sustainable, eco-friendly, and prosperous society by providing better products, at a faster speed, in larger numbers, at a lower cost and by smarter means," and its vision is "Becoming an indispensable company by driving the world." We are committed to conducting business based on the Corporate Philosophy and to enhancing corporate value and achieving our vision by putting our "The Five Principles" company credo into practice. In addition, MinebeaMitsumi is a unique INTEGRATED precision components manufacturer with core businesses "Eight Spears" at its core. We will generate "differences" that transcends common sense and create new value that only the MinebeaMitsumi Group can by leveraging our broad product portfolio included in core businesses "Eight Spears," while also creating new products that integrate the product portfolio.

Company credo "The Five Principles"

- 1) Be a company where our employees are proud to work
- 2) Earn and preserve the trust of our valued customers
- 3) Respond to our shareholders' expectations
- 4) Work in harmony with the local community
- 5) Promote and contribute to global society

Core businesses "Eight Spears"

We position our core businesses "Eight Spears" as areas within vast markets where we can leverage our strengths to create products that are not easily replaced. Specifically, they are categorized into eight core businesses: bearings, analog semiconductors, motors, access products, sensors, connectors/ switches, power supply components, and wireless/ communications/ software.

INTEGRATION

This term was adopted with the intended meaning to be combined, rather than to sum up, to create new value through synergy by combining all the resources of the MinebeaMitsumi Group.

(ii) Changes in the environment surrounding the MinebeaMitsumi Group

The external environment surrounding the MinebeaMitsumi Group is changing at a global scale and at unprecedented speed. In terms of geopolitical risks, developments in U.S. policies continue to affect the macroeconomy and financial markets, and unpredictable events have occurred in succession, such as a surge in crude oil prices triggered by the armed conflicts in the Middle East. The Group's business is now significantly affected by geopolitical risks.

In terms of the market environment, issues such as an aging population with a declining birth rate and energy supply are recognized as posing increasing challenges to society, and advanced technologies in such fields as electrification, automation, AI, ultra high-speed telecommunication, and sensing are attracting more attention as the technologies to help solve these challenges. New markets for products leveraging these cutting-edge technologies, such as humanoid robots, self-driving vehicles, and drones are expected to expand.

(iii) Priority issues (four priority topics determined based on the Corporate Philosophy)

The MinebeaMitsumi Group considers sustainability as a core element of its management. To achieve sustainable growth in this time of uncertainty, we believe that it is essential to respond to the evolving external environment effectively while taking risks into account appropriately, and to steadily take actions to create business opportunities. Accordingly, in the fiscal year ended March 31, 2026, we determined the following four "priority topics," based on the degree of impact on our business from the external environment, as well as society's expectations, which we have identified through dialogue with stakeholders. With an eye toward the fiscal year ending March 31, 2029, the target year of our medium-term management plan, we will place special focus on these priority topics and strive to address them. Through these efforts, we will endeavor to seize opportunities to create future businesses, create new value, and achieve sustained growth.

(1) Development and dissemination of innovative products, technologies, and business models

Core technological elements that meet demands from advanced technologies, such as humanoid robotics, autonomous driving, and drones, can be categorized into four areas: high voltage, high current, high frequency, and high speed. We believe that our core businesses "Eight Spears" can address technological issues in these four areas directly. In addition, we will steadily advance our efforts to introduce AI and DX technologies into our manufacturing processes and thereby improve quality and further consolidate our value chain systems. We will strive to further strengthen our ultra-precision processing technology, mass production technology, and stable supply system, and pursue "INTEGRATION" across our core businesses "Eight Spears," thereby establishing the foundation of "an indispensable company by driving the world."

(Translation)

(2) Creating a workplace where employees can fully and energetically utilize their capabilities

To achieve sustainable growth, we consider it essential to create an organization in which employees take initiative of their own accord and that it is important to actively invest in human capital. We will endeavor to optimize our human resource system and create an environment where each employee can fully utilize their capabilities, and to enhance our training programs to provide growth opportunities for employees. In addition, we are conducting an employee engagement survey to assess how motivated employees are to contribute to the Company of their own accord, as well as identifying issues that the Company needs to address to help employees do so. The results of the survey and issues identified through analysis of the survey results are discussed in depth at the Board of Directors meeting, etc. Our whole management team is dedicated to creating a better workplace environment.

(3) Strengthening the management framework

To achieve sustainable growth, it is essential to further enhance corporate governance and further strengthen risk management. In addition to passing resolutions on matters stipulated by the Companies Act, the Company's Board of Directors deliberates medium- to long-term policies that contribute to enhancing corporate value, formulates management strategies including the Company's business portfolio, and also strives to control various risks. We will work to further strengthen our governance system so that our Board of Directors can fully perform its monitoring function.

(4) Contributing to solutions to global environmental issues

We will contribute to reducing global greenhouse gas emissions through our efforts to minimize environmental impact by expanding the use of renewable energy and other measures, and to reduce global CO₂ emissions through environmentally friendly products by leveraging our ultra-precision processing technology, the greatest strength of the Company, and INTEGRATION.

We look forward to the continued support and guidance of our shareholders.

(7) Major offices (As of March 31, 2026)

(i) The Company's major offices

Head Office	Miyota-machi, Kitasaku-gun, Nagano Prefecture	Tokyo Headquarters	Minato-ku, Tokyo
Plants	Karuizawa Plant (Miyota-machi, Kitasaku-gun, Nagano Prefecture) Hamamatsu Plant (Fukuroi-shi, Shizuoka Prefecture) Fujisawa Plant (Fujisawa-shi, Kanagawa Prefecture) Yonago Plant (Yonago-shi, Tottori Prefecture) Matsuida Plant (Annaka-shi, Gunma Prefecture)	Sales Offices	Tokyo Office (Minato-ku, Tokyo) Nagoya Office (Nagoya-shi, Aichi Prefecture) Osaka Office (Osaka-shi, Osaka Prefecture)

(ii) Major subsidiaries' offices

Indicated in “(5) Significant parent company and subsidiaries, (ii) Significant subsidiaries.”

(8) Employees (As of March 31, 2026)

(i) Employees of the MinebeaMitsumi Group

Classification	Number of employees	Increase (decrease) from the end of the previous year
Precision technologies business	16,656	(93)
Motor, lighting & sensing business	29,866	(1,132)
Semiconductor & electronics business	20,127	(488)
Access solutions business	12,859	(372)
Other businesses	784	246
Whole company (common)	1,091	(34)
Total	81,383	(1,873)

Notes:

1. The number of employees is the number that is at work.
2. The “Whole company (common)” refers to employees in the administration department, etc. but not under any business segment.

(ii) Employees of the Company

Number of employees	Increase (decrease) from the end of the previous year	Average age	Average years of service
4,946	125	45.0	15.9

Note: The number of employees is the number that is at work.

(9) Policy on deciding dividend of surplus

The Company recognizes shareholder return as the important management issue. Comprehensively taking into account the business environment and maintaining a continuous, stable profit distribution, the Company sets the basic policy under which it gives top priority to improving the efficiency of shareholders' equity and distributing more profit to shareholders, thereby returning its profits to shareholders commensurate with its business performance. Moreover, the Company will conduct repurchases of its treasury stock as necessary to improve return to shareholders and capital efficiency, and to implement agile capital policy according to the business environment.

Based on the above basic policy, the year-end dividend for the fiscal year under review shall be 25 yen per share. Since the interim dividend in the amount of 25 yen per share has been distributed, the annual dividend for this fiscal year would be 50 yen per share (total annual dividends: 20,097,114,575 yen).

(10) Other important matters concerning status of the Group

Not applicable.

2. Shares of the Company

(1) Overview of shares (As of March 31, 2026)

(i) Total number of shares authorized: 1,000,000,000 shares

(ii) Number of shares issued: 427,080,606 shares

(iii) Number of shareholders: 38,033 persons

(iv) Major shareholders (top 10):

Name of shareholders	Number of shares (thousands)	Shareholding ratio (%)
The Master Trust Bank of Japan, Ltd. (Trust account)	65,442	16.28
Custody Bank of Japan, Ltd. (Trust account)	31,972	7.95
Takahashi Industrial and Economic Research Foundation	15,447	3.84
Sumitomo Mitsui Trust Bank, Limited	15,413	3.83
STATE STREET BANK AND TRUST COMPANY 505001	12,498	3.10
National Mutual Insurance Federation of Agricultural Cooperatives	11,600	2.88
Sumitomo Mitsui Banking Corporation	10,223	2.54
MUFG Bank, Ltd.	10,181	2.53
KI BUSINESS PARTNERS CO., LTD.	10,100	2.51
JP MORGAN CHASE BANK 385642	8,303	2.06

Notes:

1. The Company holds 25,138,589 shares of treasury stock, and is excluded from the major shareholders list above.
2. The number of shares owned by the trust account, which was opened for the Board Benefit Trust is not included in the above number of treasury stock because they are not owned by the Company. The number of shares owned by the given trust account is 346,498 shares.
3. Shareholding ratio is calculated exclusive of treasury stock. The numbers of shares and shareholding ratios are rounded down to the nearest unit of presentation.

(v) Shares granted to the Company's officers as consideration for their performance of duties during the fiscal year under review

Category of Directors	Class and number of shares	Number of eligible Directors
Directors (excluding Outside Directors)	10,703 shares of common stock of the Company	1

(2) Other important matters concerning shares

Not applicable.

(Translation)

(3) Matters relating to subscription rights to shares, etc.

(i) Subscription rights to shares held by the Company's officers which were granted as consideration for their performance of duties at the end of the fiscal year under review

Name (Date of issuance)	Resolution date of issuance	Number of subscription rights to shares	Class and number of shares underlying the exercise of subscription rights to shares	Issue price per one subscription right to share	Exercise value per one subscription right to share	Exercise period for subscription rights to shares	Number of subscription rights to shares held by Directors (Number of holders)
Series I subscription rights to shares of Minebea Co., Ltd. issued in 2012 (July 17, 2012)	June 28, 2012	470	47,000 shares of common stock	25,200 yen	100 yen	From July 18, 2012 to July 16, 2042	100 (1)
Series II subscription rights to shares of Minebea Co., Ltd. issued in 2013 (July 16, 2013)	June 27, 2013	420	42,000 shares of common stock	36,700 yen	100 yen	From July 17, 2013 to July 15, 2043	100 (1)
Series III subscription rights to shares of Minebea Co., Ltd. issued in 2014 (July 18, 2014)	June 27, 2014	252	25,200 shares of common stock	117,400 yen	100 yen	From July 19, 2014 to July 17, 2044	60 (1)

Notes:

- The number of shares to be issued upon exercise of subscription rights to shares is 100 shares as per one subscription right to share.*
- The issue prices represent the sum total of the fair value of subscription rights to shares as of the allotment date and the payment amount at the time of exercise of subscription rights to shares (1 yen per share). Any person who receives an allotment of subscription rights to shares (hereinafter, a "holder of subscription rights to shares") may offset debts for payment for the subscription rights to shares with compensations receivable due to them in lieu of direct payment.*
- Shares delivered to holders of subscription rights to shares when they exercise subscription rights to shares are exclusively shares of treasury stock, hence no new shares will be issued in the context of this transaction. If any shares of treasury stock are delivered, no capitalization will be made.*
- During the exercise period, any director who is a holder of subscription rights to shares may exercise all of his or her subscription rights to shares at one time within a 10-day period following the date of termination of his or her directorship (when the 10th day following the date of termination falls on holiday, the period up to the following business day).*
 - When any holder of subscription rights to shares passes away, his or her heirs may exercise all the subscription rights to shares, only in a single transaction, within the six-month period following the day after the date of death.*
 - Other terms and conditions for the exercise of subscription rights to shares are as specified in the "Subscription Rights to Shares Agreement" entered into by and between the Company and the holders of subscription rights to shares.*
- Subscription rights to shares have not been allotted to Outside Directors and Audit & Supervisory Board Members.*

(ii) Subscription rights to shares granted to employees, etc. as consideration for their performance of duties during the fiscal year under review

Not applicable.

(iii) Other important matters concerning subscription rights to shares, etc.

Not applicable.

(2) Compensation to Directors and Audit & Supervisory Board Members

(i) Determination of the policy on determining Compensation to individual Directors

In order to enhance the transparency and objectivity of processes for determining the compensation to Directors, the Company has established a Nomination and Compensation Committee, which has an independent Outside Director as Chairman, and independent Outside Directors comprising at least half of its members. The policy on determining compensation to individual Directors was deliberated in the Nomination and Compensation Committee, and the Board of Directors determined it after giving careful considerations to recommendations from the committee.

With regard to determining compensation to individual Directors, the Board of Directors has determined the policy on determination to be in line as the Nomination and Compensation Committee is conducting a comprehensive review including consistency between the proposal and policy on determination.

(ii) Overview of the policy on determining compensation to individual Directors

The compensation to individual Directors is determined by a resolution of the Board of Directors after consulting the Nomination and Compensation Committee, within the maximum amount authorized by the General Meeting of Shareholders.

<Basic Principle to the Officer Compensation System>

The Company establishes and operates the Officer Compensation System based on the following concepts:

- I. A balanced system that realizes a high incentive effect that draws out the full potential of individual Directors and a sustainable increase in corporate value from a medium- to long-term perspective
- II. Aiming for a level of compensation that is competitive in attracting talented domestic and overseas personnel and can be attractive to the Company's employees in their pursuit to be part of future management team
- III. An appropriate framework that ensures transparency, fairness, and rationality in the fulfillment of accountability to shareholders, investors, and other stakeholders

<Policy on determining compensation composition and composition ratio>

Compensation for Directors is composed as follows.

Composition		Name
Non-performance-linked	Cash	Basic compensation
Performance-linked (*1)		Short-term performance-linked compensation (bonuses)
		Medium- to long-term performance-linked compensation (stock/cash)
	Stock	Performance-linked stock compensation

The ratio of non-performance-linked compensation and performance-linked compensation as well as the ratio of cash and stock are not determined because of fluctuations due to the degree in achieving corporate earnings each fiscal year. However, we have set a policy designed to be highly linked to corporate earnings, which includes the standards of non-performance-linked compensation: performance-linked compensation = 1 : 2 or more, and stock compensation to be 10% or more of the total amount of compensation.

<Basic compensation> (*2)

Basic compensation is composed of responsibility compensation (fixed position) according to the "Directors' Compensation Regulations," and performance compensation (individual performance evaluations), revised each fiscal year taking into consideration each Director's track record, performance, and various other factors, and the amount paid is determined by a resolution of the Board of Directors after consulting the Nomination and Compensation Committee.

<Short-term performance-linked monetary compensation (bonuses)>

As short-term performance-linked monetary compensation (bonuses) focuses on profit, the final result of each fiscal year, and corporate value expressed in the stock price is included in Director evaluations, consolidated corporate earnings centered on consolidated profit for the year and stock price levels, including the Company's market capitalization, are used as evaluation indicators, with the incentives to improve corporate earnings and increase in corporate value by achieving the management plan. The amount paid is calculated based on the

(Translation)

bonus calculation table according to the “Directors’ Compensation Regulations,” and with adjustments made within a certain ratio based on individual performance evaluations, is determined by a resolution of the Board of Directors after consulting the Nomination and Compensation Committee.

Evaluation indicator	Results for the fiscal year ended March 31, 2026
Consolidated profit for the year	99.2 billion yen
Growth of the consolidated net sales	+9.3%
Company’s stock price performance compared to the Nikkei stock average	-0.18
Market capitalization at fiscal year-end	1,082.6 billion yen
Consolidated operating income margin (8%-10%)	+6.2%

<Medium- to long-term performance-linked compensation (stock/cash)>

Medium- to long-term performance-linked compensation (stock/cash) has been set as a driving force for the realization of 2.5 trillion yen in net sales and 250 billion yen in operating income, the targets we are striving to achieve in the fiscal year ending March 31, 2029. The number of shares (points) or amount paid are calculated based on the points calculation table or the Medium- to long-term performance-linked compensation calculation table using the items in the table below as indicators, and the compensation shall be paid in stock or cash according to the level of achievement. However, Directors who do not hold a number of the Company’s shares at a level required by the Company’s “Stock Ownership Guidelines for Directors” (*3) shall in principle be paid in stock. Details are stipulated in the “Share Grant Regulations” and “Directors’ Compensation Regulations,” which are determined in the Board of Directors meeting.

Evaluation indicator	Aim, etc.	Results for the fiscal year ended March 31, 2026
Achievement of EPS growth rate of 15% (the latest 3-year average)	By using the achievement of an EPS growth rate of 15% or above, which is a management indicator, as an evaluation indicator based on the latest 3-year average, the Company will strengthen its motivation from a medium- to long-term perspective to continuously generate consolidated profit for the year, which is a source of growth. The Company will grant cash or shares according to the level of achievement of the indicator, ranging from 15% to 20%.	+17.6% (*4)

<Performance-linked stock compensation>

Performance-linked stock compensation is a number of the Company’s shares equivalent to the number of points the Company grants to Directors upon retirement according to the achievement of each evaluation indicator in the table below toward achieving the target for consolidated profit for the year, achieving ROE, a management indicator, and realizing SBT targets (*5). The purpose is to further clarify the link between Directors’ compensation and the Company’s business performance and stock value and to raise awareness among Directors of the need to contribute to improving the Company’s performance and enhancing its corporate value over the medium- to long- term by sharing with shareholders the benefits and risks associated with stock price fluctuations. The number of shares (points) to be paid is calculated based on the points calculation table using the items in the table below as indicators. Details are stipulated in the “Share Grant Regulations,” which is determined in the Board of Directors meeting.

(Translation)

Evaluation indicator	Aim, etc.	Results for the fiscal year ended March 31, 2026
Consolidated profit for the year	The most important management indicators as the source for growth investments	99.2 billion yen
Achievement of ROE 15%	The compensation system is centered on consolidated profit for the year, and this supplements the medium- to long-term perspective.	+12.1%
Achievement of GHG (scope 1-2) -5% YoY (*5)	A specific numerical target to be set in order to realize SBT targets (*5), which is the Company's external commitment.	-0.6%

- (*1) For non-executive Directors (including Outside Directors), basic compensation (non-performance-linked) is set, and performance-linked compensation is not set, taking into account expected roles, etc. of each Director.
- (*2) Changes have been made as follows in accordance with the revision dated July 1, 2026:
The amount of basic compensation has been set according to the duties of each Director's position and determined by a resolution of the Board of Directors after consulting the Nomination and Compensation Committee by referencing the levels of other companies' director compensations, etc. based on surveys by external professional institutions, and it is stipulated by the "Directors' Compensation Regulations" (duty-based compensation).
- (*3) Stock Ownership Guidelines for Directors
<https://www.minebeamitsumi.com/english/corp/investors/management/governance/>
- (*4) For the 80th fiscal term, while the evaluation indicator for the medium- to long-term performance-linked compensation (stock/cash) was achieved, we have decided not to pay the full amount of the compensation.
- (*5) For Science Based Targets (SBT) under the Paris Agreement, the Company has announced a reduction of Greenhouse Gas (GHG) (scope 1-2) by 42% compared to the fiscal year ended March 31, 2023, and the achievement of this target needs a reduction of 5% or more compared to the previous year.

(Translation)

(iii) The provision of the Articles of Incorporation or resolutions at the General Meeting of Shareholders concerning compensation to Directors and Audit & Supervisory Board Members

The maximum amount of compensation to Directors and Audit & Supervisory Board Members was approved as follows.

Payee	Approved date	Compensation type	Approved contents	Number of applicable persons at the time of approval
Directors	71st Ordinary General Meeting of Shareholders on June 29, 2017	Basic compensation Performance-linked compensation for Directors	Up to 1.5 billion yen per year	12 Directors
Outside Directors	75th Ordinary General Meeting of Shareholders on June 29, 2021	Basic compensation	Up to 70 million yen per year within the above compensation amount for Directors	5 Outside Directors
Directors (Excluding Outside Directors)	66th Ordinary General Meeting of Shareholders on June 28, 2012	Stock options	Up to 30 million yen per year within the above compensation amount for Directors	8 Directors
Directors (Excluding Outside Directors)	74th Ordinary General Meeting of Shareholders on June 26, 2020	Performance-linked stock compensation	Up to 100,000 points per fiscal year separate from the above compensation amount for Directors	8 Directors
Directors (Excluding Outside Directors)	78th Ordinary General Meeting of Shareholders on June 27, 2024	Partial amendments and continuation of performance-linked stock compensation	Up to 160,000 points per fiscal year separate from the above compensation amount for Directors	7 Directors
Audit & Supervisory Board Members	61st Ordinary General Meeting of Shareholders on June 28, 2007	Basic compensation	Up to 100 million yen per year	5 Audit & Supervisory Board Members

(iv) Total amount paid as compensation to Directors and Audit & Supervisory Board Members

Categories	Number of payees	Amount of compensation, etc. (thousands of yen)			
		Basic compensation	Performance-linked compensation for Directors	Performance-linked stock compensation	Total
Directors (Outside Directors)	12 (4)	370,333 (54,168)	592,170 (Not applicable)	60,000 (Not applicable)	1,022,503 (54,168)
Audit & Supervisory Board Members (Outside Audit & Supervisory Board Members)	4 (3)	55,831 (37,638)	Not applicable (Not applicable)	Not applicable (Not applicable)	55,831 (37,638)
Total	16	426,164	592,170	60,000	1,078,334

Notes:

- The above includes Mr. Shigeru None, who retired at the conclusion of the 79th Ordinary General Meeting of Shareholders held on June 27, 2025.
- Mr. Takashi Matsuoka, Non-Executive Director, is not included in the Directors who are paid a performance-linked compensation and performance-linked stock compensation.
- The compensation for Directors excludes the salary to be paid for service as employee for Directors who concurrently hold a post of officer or employee of the Company.
- During the fiscal year under review, 591,170 thousand yen in accrued bonuses for directors was posted for performance-linked bonuses for Directors. Also, 60,000 thousand yen in accrued bonuses for directors was posted in this fiscal year for performance-linked stock compensation for Directors.
- The amount of compensation, etc. is shown with fractions of 1 (one) thousand yen rounded down.

4. Matters relating to Independent Auditors

(1) Name KPMG AZSA LLC

(2) Amount of compensation, etc.

	Amount paid
Amount of compensation, etc. of Independent Auditors for the fiscal year	165 million yen
Total amount of money and other property benefit to be paid from the Company and its subsidiaries to Independent Auditors	320 million yen

Notes:

1. *In the audit agreement by and between the Company and the Independent Auditors, the Company does not keep accounts by each category of the amount of audit fee, etc. for auditing services under the Companies Act and under the Financial Instruments and Exchange Act. Furthermore, the amount of auditing services cannot be distinguished between the two categories practically. Therefore, the Company states the total amount thereof in the amount of compensation, etc. of Independent Auditors for the fiscal year.*
2. *The Audit & Supervisory Board decided to agree on the amount of compensation, etc. of Independent Auditors after making necessary examination of whether the content of Independent Auditors' audit plan, performance of duties and a basis for calculation of estimated compensation, etc. are appropriate.*

(3) Non-auditing services

With regard to services other than those services provided for in Article 2, paragraph (1) of the Certified Public Accountants Act of Japan, the Company entrusts Independent Auditors with primarily financial due diligence and tax due diligence and pays consideration for it.

(4) Policy regarding determination of removal or refusal of reappointment of Independent Auditors

The Audit & Supervisory Board shall make the agenda regarding removal or refusal of reappointment of Independent Auditors purpose of the General Meeting of Shareholders if the Audit & Supervisory Board believes that it is necessary due to causes including the Independent Auditors' difficulty in performing their duties.

When an Independent Auditor is deemed to fall under the items set forth in items of Article 340, paragraph (1) of the Companies Act, the Audit & Supervisory Board shall remove the Independent Auditor based on the consent of all Audit & Supervisory Board Members. In this case, the Audit & Supervisory Board Member appointed by the Audit & Supervisory Board will report the removal of Independent Auditors and its reasons at the first General Meeting of Shareholders after the removal thereof.

(5) Audit of consolidated subsidiaries

The Company's significant consolidated subsidiaries that have been audited by certified public accountants or auditing firms (including those who have equivalent qualifications in foreign countries) other than the Company's Independent Auditors are NMB-Minebea Thai Ltd., NMB (USA) Inc., NMB Technologies Corporation, New Hampshire Ball Bearings, Inc., NMB-Minebea-GmbH, MINEBEA ELECTRONICS & HI-TECH COMPONENTS (SHANGHAI) LTD., MINEBEA (HONG KONG) LIMITED, NMB SINGAPORE LIMITED, MINEBEA (CAMBODIA) Co., Ltd.

(Translation)

5. System to Ensure the Proper Business and Status of Its Operation

Based on the Companies Act, the Company enacted its Basic Policy for the Formulation of an Internal Control System by a resolution of the Board of Directors Meeting in an effort to ensure the sound management of the Company. A summary of this resolution and status of operation is provided below.

I. System to Ensure the Proper Business

(1) Structure to assure that the execution of duties by Directors, Executive Officers, etc., and employees conforms to laws and regulations and Articles of Incorporation (Compliance system)

- 1) The MinebeaMitsumi Group has set up a management structure regarding compliance and established the MinebeaMitsumi Group Code of Conduct (hereafter the “Code of Conduct”), the MinebeaMitsumi Group Officer and Employee Compliance Guidelines (hereafter the “Compliance Guidelines”) and Compliance Management Rules (hereafter the “Rules”) in order to have group company Directors, Executive Officers, etc. and Employees follow laws and regulations, the Company’s Articles of Incorporation and the Company Credo.
- 2) These Code of Conduct and Compliance Guidelines have set the specific guidelines and standards that have to be observed for labor, safety and health, environment protection, and ethical management. In order to enforce this, the Compliance Committee was established to control the MinebeaMitsumi Group’s compliance efforts in a cross-sectional manner, as well as educating officers and staff members. In the Rules, the basic policy, such as a basic policy of the compliance in our group, organization, and management rules are defined, and the various measures regarding maintenance of organization and compliance are implemented appropriately.
- 3) The MinebeaMitsumi Group has nothing to do with anti-social forces and organizations that threaten social order or safety. The Group does not compromise on unreasonable demands, and work uncompromisingly in cooperation with external authorized institutions such as police and lawyers. These matters are also written in the Code of Conduct and the Compliance Guidelines.
- 4) Activities of the Compliance Committee are reported to the Board of Directors regularly, or whenever necessary.
- 5) The Company appoints Outside directors in the Board of Directors in order to have the check-and-balance system that assures the legality of the Directors’ execution of duties.

(2) Storage and management of information related to the execution of duties by Directors and Executive Officers, etc. (Information Storage and Management System)

- 1) The MinebeaMitsumi Group has established the MinebeaMitsumi Group Document Management Rules for maintaining documents (including electronic records) and other relevant materials.
- 2) If the documents should be kept for a certain period of time or at a certain location, the preservation period and location shall follow these rules except in cases where there are specific provisions in any law. The documents are stored by a method as it can be viewed within 2 (two) days, if there is an inspection request from a Director or Audit & Supervisory Board Member.

(3) Rules for risk of loss management and other structures (Risk Management Structure)

- 1) The MinebeaMitsumi Group established “MinebeaMitsumi Group Basic Rules for Risk Management” that systematically sets up risk management. The Chief Officer of the risk management of the MinebeaMitsumi Group shall be the Representative Director, Chairman CEO, and the Risk Management Committee is under his direct control.
- 2) Based on these Rules, the individual risks will be monitored continuously by each responsive organization, and we also assume and classify specific risks in advance, and develop a quick, adequate communication and emergency structure in case of an emergency.
- 3) The Risk Management Committee will regularly review above structure, verify specific items and report the status of risk management including such verification results to the Board of Directors regularly, or whenever necessary.

(4) Structure to assure that the execution of duties by the Directors and Executive Officers, etc. is efficiently performed (system for an Efficient Execution of Duties)

- 1) The MinebeaMitsumi Group makes rapid and highly strategic management judgments by limiting the number of Directors to 12 or less. At the same time, the Company makes significant transfer of the authority for business execution from Directors to Executive Officers by introducing an Executive Officer System to

(Translation)

facilitate a clear distinction between management and supervisory functions and business executing functions and speed up the business execution.

- 2) The MinebeaMitsumi Group sets group-wide goals that are shared by Directors, Executive Officers, etc. and employees and spreads those goals across the group. In addition, to achieve the goals, chiefs of headquarters and officers in charge of divisions and chiefs of business units determine specific objectives to be implemented by each headquarters, division or business unit and efficient methods of achieving the objectives. Their performance results are converted into verifiable data via an IT system and are regularly reviewed by the Board of Directors after being analyzed by each relevant headquarters, division and business unit. Leveraging the inherent strength of this process, enables us to sweep away obstacles to efficiency, bring everyone closer to achieving their goals, and lay a solid foundation upon which we can build a more efficient organization.

(5) Structures to ensure that the operations of the Company's and its subsidiaries are adequate (Management of Group Companies)

- 1) MinebeaMitsumi's headquarters, divisions and business units take all necessary steps to provide effective guidance on group company business operations.
- 2) Our common commitment to legal and ethical standards is reflected in the "MinebeaMitsumi Group Code of Conduct" and the "Compliance Guidelines."
- 3) "Rules for Management of Group Companies" that are common to our group are established in order to, establish the management standards and management procedures for its group companies located domestically in Japan and overseas as well, and to facilitate business development of the corporate group consisting of the Company and the group companies, strengthen its corporate governance structure and enhance its corporate value.
- 4) In order to increase the effects of the internal control system audits for group companies currently done by the Audit & Supervisory Board Members, we maintain a cooperative posture toward the Audit & Supervisory Board Members.
- 5) We set numerical goals for each group company, review them regularly, and provide relevant organizations with feedback after performing a thorough performance review.
- 6) The Internal Auditing Office regularly audits the group companies.

(6) Structures to ensure that the audits by the Audit & Supervisory Board Members are effective (Audit System matters)

- 1) Issues concerning when an Audit & Supervisory Board Member requests for an employee to assist him/her and issues concerning such employee's independence from Directors
 - (i) When such employee is required, he/she is properly set, and assists the audit.
 - (ii) When an employee in charge of work to assist duties of an Audit & Supervisory Board Member receives directions on the work from the Audit & Supervisory Board Member, a system that allows such employee to concentrate on following commands and orders is established.
 - (iii) The audit support by such employee is done under the Audit & Supervisory Board Member's directions and orders.
 - (iv) The Audit & Supervisory Board's opinion is respected on the personnel changes and personnel evaluation regarding such employee.
- 2) Structure of the report from Directors, Executive Officers, etc. and employees to the Audit & Supervisory Board Member, and other reporting structure to the Audit & Supervisory Board Member
 - (i) The Directors report the following to the Audit & Supervisory Board
 - a. Matters discussed at the Senior Executive Officers Council
 - b. Matters that might cause the Group a significant loss
 - c. Monthly business conditions that is important
 - d. Important matters regarding internal audit status and risk management
 - e. Significant violations of law or Articles of Incorporation
 - f. Status of calls to the compliance hotline and its contents
 - g. Other important matters related to compliance
 - h. Matters related to request for approval decided by Directors or Executive Officers, etc.
 - i. Agreements executed by Directors or Executive Officers, etc.
 - j. Matters related to litigations
 - (ii) Executive Officers, etc. directly report b. through e. in the previous paragraph (i) hereof to the Audit & Supervisory Board. Also, if the employee discovers a significant fact related to b. and e. in the previous paragraph (i) hereof, he/she may directly report it to the Audit & Supervisory Board.

(Translation)

- (iii) Group companies' Directors, Audit & Supervisory Board Members or employees who execute business operations or any person who receives a report from them may report a matter concerning b. through e. of (i) above directly to the Audit & Supervisory Board.
 - (iv) Executives and employees of the Company and group companies shall not to be treated disadvantageously by reason of their reporting on each item listed above.
- 3) Other matters in order to ensure the efficiency of the Audit & Supervisory Board Member's audit
- (i) The Audit & Supervisory Board Member has an opportunity to interview Directors, Executive Officers, etc. and important employees, as well as hold informal meetings regularly with Representative Director, Chairman CEO and the Independent Auditor respectively.
 - (ii) The Internal Auditing Office carries out the internal audit items requested by the Audit & Supervisory Board Members based on discussions with the Audit & Supervisory Board and reports those results to the Audit & Supervisory Board.
 - (iii) As a general rule, costs arising from execution of duties by Audit & Supervisory Board Members are expensed based on the annual budget planned by the Audit & Supervisory Board. When an Audit & Supervisory Board Member asks for advance payment of costs, etc. required for execution of his or her duties by necessity, the costs or obligations are processed promptly.

Based on the policies above, the Company is promoting in unison the establishment of the Internal Control System.

II. Overview of Operation of the System to Ensure the Proper Business

(1) Compliance system

The Company holds meetings of the Compliance Committee that one independent Outside Director attends, considers various measures regarding compliance, and reports these measures to the Board of Directors. In addition, the compliance consultation center for which the internal responsible department and an external outsourced company act as a contact point has been set up, and the provided information shall also be notified to Audit & Supervisory Board Members.

In the fiscal year under review, the Company implemented various tier-based training programs for new employees, experienced employees who newly joined the Company, and newly appointed assistant managers and managers. Additionally, compliance training and education were conducted for all employees, including officers, of the Group companies in Japan. Furthermore, to promote compliance, the Company implemented various measures such as publishing a compliance newsletter on the internal portal every three months. The Company continues its efforts to increase awareness about compliance, including regular "Employee Compliance Awareness Survey" to measure the extent of awareness of compliance.

(2) Information storage and management system

Based on the "MinebeaMitsumi Group Document Management Rules," the Company has appropriately stored significant minutes of meetings, various written decisions, financial statements and other documents.

(3) Risk management structure

The Risk Management Committee develops the risk management structure in the MinebeaMitsumi Group and promotes the development of business continuity plans (BCP) that provide for remediation activities in case any risk occurs at major production sites.

For example, in Thailand, where our largest group of plants is located, the Ayutthaya Plant and the Ban Wa Plant acquired ISO 22301 certification, the international standard for business continuity management systems, for floods, fires, etc., in April 2021, following the Bang Pa-in Plant, the Lop Buri Plant, the Rojana Plant, and the Navanakorn Plant. In this way, the Company intends to expand and enhance its BCP.

In addition, in the fiscal year under review, with the aim for further enhancement and strengthening of the Group's risk management structure, the Company established risk management structures at business sites in coordination with persons responsible for or in charge of risk management who were placed in each region and business site of the MinebeaMitsumi Group in addition to the Risk Management Committee, and carried out various initiatives related to risk management. In addition, the results of examinations were reported to the Board of Directors. In order to prepare for risks that are diversified further in line with the expansion of the Group, the Company will examine and understand risks for each business site and strive to effectively promote preventive and control activities tailored to characteristics of each business site.

(Translation)

(4) System for an efficient execution of duties

Based on the “Board of Directors’ Rules” and other regulations, necessary resolutions are made at the Board of Directors Meetings. The Company made significant transfer of the authority to Executive Officers by an Executive Officer System to ensure efficient execution of duties.

With the Company’s goals as the company credo, the Board of Directors formulates medium-term and annual business plans and gives direction strategically. When plans are considered, constructive discussions are made at the Annual Operating Plan Meeting that all Directors, Audit & Supervisory Board Members, Executive Officers, Chiefs of Business Units, etc. attend, a Top Meeting held around the end of the first half where achievement of the plans is confirmed and deliberations are conducted for the future and other meetings. Based on the results of these discussions, the Company makes decisions on business execution through deliberations at the Board of Directors Meeting after discussions at the Senior Executive Officers Council, which is an advisory body for Representative Director, Chairman CEO.

The progress of plans is reported at the Board of Directors Meeting on a quarterly basis and monitored.

(5) Management of group companies

Based on the “Rules for Management of Group Companies,” group companies are managed and operated while each headquarters, division and business unit of the Company provide effective guidance on group company business operations.

The status of operations is confirmed through audits by Audit & Supervisory Board Members and internal audits. A periodic audit is made for particularly important business sites.

(6) Audit system matters

Audit & Supervisory Board Members attend the Board of Directors’ meetings and other important meetings, interview the Company’s Directors and Executive Officers, etc. and review important written decisions while visiting domestic and overseas group companies for audits and interviewing directors and other persons concerned of group companies.

In addition, Audit & Supervisory Board Members periodically have a meeting with the Internal Auditing Office, hear an annual audit plan and its objectives, etc., discuss the key points in audit in advance, and receive a report about all internal audit results. They also hold regular meetings with the Independent Auditor to confirm the audit system and an audit plan, receive an explanation on implementation of an audit, etc., exchange opinions, as well as participate in domestic audits by the Independent Auditor, including inventory audits, as appropriate. Additionally, during visits to overseas group companies, they also exchange opinions with the local accounting auditor.

Furthermore, Audit & Supervisory Board Members periodically interview Representative Director, Chairman CEO and set a liaison council with Outside Directors to periodically exchange views.

An employee to assist Audit & Supervisory Board Members on a full-time basis has been assigned to the Audit & Supervisory Board Members Office. Directions and orders to and personnel evaluations of such employee are given by Audit & Supervisory Board Members.

An annual budget is appropriated by the Audit & Supervisory Board, and relevant costs are expensed based on the annual budget.

6. Basic Policy relating to Control of the Company

(1) Contents of Basic Policy

The Company believes that the persons who control decisions on the Company's financial and business policies need to be persons who fully understand the details of the Company's financial and business affairs and the source of the MinebeaMitsumi Group's corporate value and who will make it possible to continually and persistently ensure and enhance the MinebeaMitsumi Group's corporate value and, in turn, the common interests of its shareholders.

The Company believes that ultimately its shareholders as a whole must make the decision on any proposed acquisition that would involve a transfer of corporate control of the Company. Also, the Company would not reject a large-scale acquisition of the shares in the Company if it would contribute to the corporate value of the MinebeaMitsumi Group and, in turn, the common interests of its shareholders.

Nonetheless, there are some forms of corporate acquisition that benefit neither the corporate value of the target company nor the common interests of its shareholders including without limitation, those with a purpose that would obviously harm the corporate value of the target company and the common interests of its shareholders, those with the potential to substantially coerce shareholders into selling their shares, those that do not provide sufficient time or information for the target company's board of directors and shareholders to consider the details of the large-scale acquisition or for the target company's board of directors to make an alternative proposal and those that require the target company to discuss or negotiate with the acquirer in order to procure more favorable terms for shareholders than those presented by the acquirer.

In order for the MinebeaMitsumi Group to ensure and enhance the corporate value and, in turn, the common interests of its shareholders, it is necessary for the MinebeaMitsumi Group to efficiently and continuously develop new products, cultivate new markets, and revolutionize production technology over medium to long term through "INTEGRATION." At the same time, the Group needs to globally roll out large-scale overseas mass production facilities and the vertically integrated production system using the advanced ultra-precision machining technology—the source of MinebeaMitsumi Group's corporate values—and to thoroughly refine and reinforce the "Eight Spears" core business.

Unless the acquirer in a proposed large-scale acquisition of the shares in the Company understands the source of the corporate value and the characteristics that are indispensable to enhance the corporate value of the MinebeaMitsumi Group, as well as the details of the financial and business affairs of the Company, and will ensure and realize these elements over the medium-to-long-term, the corporate value of the MinebeaMitsumi Group and the common interests of its shareholders would be harmed.

Therefore, the Company believes that persons who would make a large-scale acquisition of the shares in the Company in a manner that does not contribute to the corporate value of the MinebeaMitsumi Group or the common interests of its shareholders would be inappropriate to become persons who control decisions on the Company's financial and business policies. The Company believes that it is necessary to deter acquisitions that are detrimental to the corporate value of the MinebeaMitsumi Group and, in turn, the common interests of its shareholders.

(2) Special measures for realization of Basic Policy

The MinebeaMitsumi Group upholds the Corporate Philosophy, "To contribute to realization of a sustainable, eco-friendly and prosperous society by providing better products, at a faster speed, in larger numbers, at a lower cost and by smarter means." Under this philosophy, the Group will aim to fulfill its social responsibility and to maximize the corporate value for its various stakeholders, such as shareholders, business partners, local communities, global society and employees.

In line with the basic management philosophy described above, the MinebeaMitsumi Group will conduct a thorough review of productivity, aiming to significantly boost the profitability of existing products. In addition, we will work to develop new products for a new generation and expand the integrated business by blending the machined products technology, electronic device and component technology with the in-vehicle technology held by U-Shin Ltd. and Minebea AccessSolutions and the semiconductor technology held by MITSUMI ELECTRIC CO., LTD., ABLIC Inc. and Minebea Power Semiconductor Device Inc. We will also leverage the INTEGRATION ability we have gained in manufacturing, sales, engineering and development to provide flexible prices and meet the needs of our customers. We will actively work on improving our profitability and increasing corporate value via M&As and alliances. At the same time, we will also focus on establishing large-scale overseas mass production facilities as well as global R&D capabilities in light of regional risk assessment findings. Through these initiatives, we are committed to achieving net sales of 2.5 trillion yen and operating income of 250 billion yen in the fiscal year ending March 31, 2029.

(Translation)

(3) Measures to prevent control over decisions on the Company's financial and business policies by persons deemed as inappropriate under the Basic Policy (after "countermeasures to large-scale acquisition of Minebea shares" (takeover defense measures) was resolved to be expired at the conclusion of the 74th Ordinary General Meeting of Shareholders on June 26, 2020)

The Company will take timely, appropriate measures against large-scale purchases of the shares in the Company within the scope permitted by the Financial Instruments and Exchange Act, the Companies Act, and other related laws. We will request the purchaser to provide the necessary and sufficient information for shareholders to appropriately determine whether the large-scale purchase is acceptable, and will disclose opinions of the Board of Directors of the Company, securing the necessary time and information for shareholders to investigate the matter.

(4) Decisions and reasoning by the Company's Board of Directors regarding above measures

The Company has implemented various measures, such as the medium-term business plan and other initiatives for enhancing corporate value, and worked to reinforce the corporate governance in order to continually and persistently enhance the MinebeaMitsumi Group's corporate value and, in turn, the common interests of the Company's shareholders. Such efforts are completely in harmony with the Company's Basic Policy and not aimed at sustaining positions of officers of the Company.

Notes to Consolidated Financial Statements

Basis of Presenting Consolidated Financial Statements

1. Standards for the preparation of consolidated financial statements
MinebeaMitsumi Inc. (the “Company”) and its subsidiaries (collectively, the “Group”) prepare consolidated financial statements by adopting International Financial Reporting Standards (“IFRS”) based on Article 120, paragraph (1) of the Regulation on Corporate Accounting. In accordance with the provisions of the second sentence of the same paragraph, certain descriptions and notes required under IFRS are omitted.
2. Consolidated subsidiaries
Number of consolidated companies:
146 companies
The names of principal consolidated subsidiaries:
NMB-Minebea Thai Ltd.
NMB Technologies Corporation
New Hampshire Ball Bearings, Inc.
NMB-Minebea-GmbH
MINEBEA ELECTRONICS & HI-TECH COMPONENTS (SHANGHAI) LTD.
MINEBEA (HONG KONG) LIMITED
NMB SINGAPORE LIMITED
MINEBEA (CAMBODIA) Co., Ltd.
CEBU MITSUMI, INC.
MITSUMI ELECTRIC CO., LTD.
U-Shin Ltd.
ABLIC Inc.
Minebea AccessSolutions Inc.
Minebea Power Semiconductor Device Inc.
3. Application of the equity method
Affiliated companies under the equity method
Number of affiliated companies under the equity method: 0 company
4. Changes in scope of consolidation
 - (1) Increase in consolidated subsidiaries through business integration (2 companies)
Minebea Linear Motion Inc.
Minebea Linear Motion (Taiwan) INC.
 - (2) Increase due to establishment of company (1 company)
Minebea AccessSolutions India Pvt.Ltd.
 - (3) Decrease due to merger (1 company)
U-Shin Deutschland Grundvermögen GmbH
 - (4) Decrease due to liquidation (2 companies)
Sartorius Mechatronics Philippines Inc.
U-SHIN AMERICA INC.
 - (5) Decrease due to sale (1 company)
HTK EUROPE LTD.
5. Fiscal years, etc. of consolidated subsidiaries
Of the consolidated subsidiaries, the settlement date of MINEBEA ELECTRONICS & HI-TECH COMPONENTS (SHANGHAI) LTD., MINEBEA (CAMBODIA) Co., Ltd. and 36 other companies is December 31, and preliminary financial statements prepared as of the consolidated closing date are used.
6. Accounting policies
Unless otherwise specified, the significant accounting policies applied by the Group to these consolidated financial statements apply to all periods referenced in the consolidated financial statements.
 - (1) Basis of consolidation
 - (i) Subsidiaries
Subsidiary refers to an entity controlled by the Group. The Group determines that it controls an entity when it is exposed to, or has rights to, variable returns arising from its involvement in the entity and also has the ability to affect those returns through its power over the entity. The financial statements of subsidiaries are included in the scope of consolidation from the date that the Group acquires control, or the acquisition date, to the day that control is lost.

(Translation)

In the event that the accounting policies applied by a subsidiary differ from those applied by the Company, the financial statements of said subsidiary are adjusted as necessary. Additionally, debts and credits between consolidated companies, transactions between consolidated companies, and unrealized gains or losses arising from transactions within the Group are eliminated when preparing consolidated financial statements. Non-controlling interests in subsidiaries are identified separately from the Company's equity therein. Non-controlling interest consists of the initial amount of equity on the date of business combination and changes in non-controlling interest since the date of business combination. Changes in the Company's interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration is recognized directly in equity as equity attributable to owners of parent.

When the Group loses control over a subsidiary, it derecognizes the assets and liabilities of the subsidiary and any related non-controlling interests or other components of equity. Gains or losses arising from loss of control are recognized as profit or loss.

(ii) Affiliated companies

Affiliated companies are those entities in which the Group has significant influence, but not control, over the financial and operating policies. When the Group holds between 20% and 50% of another entity's voting rights, it is presumed to have significant influence over that entity.

Affiliated companies are accounted for using the equity method from the day that significant influence is acquired by the Company to the day that it is lost. Investments in affiliated companies include goodwill recognized when acquired.

(2) Business combinations

The Group accounts for business combinations using the acquisition method on the day that control is acquired. The consideration for acquisition is measured as the total fair value of the assets transferred in exchange for control of the acquiree, the liabilities incurred, and the equity instruments issued by the Company and its consolidated subsidiaries as of the acquisition date. When the total fair value of the consideration for acquisition and the amount of non-controlling interests in the acquiree as well as the acquirer's previously held equity interest in the acquiree if the business combination is a step acquisition exceeds the fair value of the identifiable assets and liabilities, it is recorded as goodwill on the consolidated statement of financial position. Conversely, if it is less than same, it is immediately recognized as profit or loss on the consolidated statement of income. Any acquisition-related costs are recognized as profit or loss. Contingent consideration is classified as either capital or financial liability, and the amount that is classified as financial liability is remeasured later at fair value through profit or loss. If the business combination is a step acquisition, the acquisition-date carrying amount of the acquirer's previously held equity interest is remeasured to fair value at the acquisition date. Profit or loss arising from this remeasurement is recognized as profit or loss.

Additional acquisitions of non-controlling interests after the acquisition of control are accounted for as equity transactions and goodwill is not recognized for those transactions.

(3) Segment information

A business segment is a component of business activities from which it earns revenues and incurs expenses, including transactions with Other Businesses segments. The business results of all business segments are subject to regular review by the Board of Directors of the Company in order to determine allocation of management resources to each segment and evaluate performance, and separate financial information is available for each.

(4) Foreign currency translation

(i) Translation of foreign currency transactions

Foreign currency transactions are translated into the functional currency of each group entity at the exchange rate or approximate exchange rate as of the transaction date.

Foreign currency monetary assets and liabilities are translated into the functional currency at the exchange rate as of the reporting date. Foreign exchange differences, except translation differences arising from cash flow hedges and net changes in revaluation of equity instruments measured through other comprehensive income, are recognized as profit or loss.

(ii) Translation of a foreign operation

Translation of assets and liabilities of foreign operations in functional currencies other than the Japanese yen are translated into yen at the exchange rate as of the reporting date. Revenues and expenses are translated using the exchange rates as of the dates of the transactions, and unless the exchange rate fluctuates significantly, the average rate for the period is used. Translation differences arising from translation of the financial statements of foreign operations are recognized in other comprehensive income except when allocated to non-controlling interests. When control or significant influence is lost, the cumulative total of

(Translation)

translation differences related to the foreign operation is recognized in profit or loss as partial gain or loss relating to disposition.

(5) Financial instruments

(i) Initial recognition and derecognition

The Group recognizes financial assets and financial liabilities on the consolidated statements of financial position only when it becomes a party to the contractual provisions of the financial instrument.

The Group derecognizes a financial asset when the rights to receive cash flows from the asset expire, or it transfers the rights to receive the cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset. Any interest in such derecognized financial assets that is retained by the Group is recognized as a separate asset or liability. The Group derecognizes a financial liability when its contractual obligations are discharged or canceled, or expire. Trade receivables and other financial assets are written off when the Group considers that there are no realistic prospects of recovery of the balance. This is recognized when the Group has lost all reasonable means of recovering the receivable subject to impairment.

Purchases or sales of financial assets are recognized or derecognized using transaction date or settlement date accounting. The Group applies the following methods according to classification of the financial asset:

- Settlement date accounting for financial assets measured at amortized cost
- Transaction date accounting for financial assets measured at fair value through other comprehensive income
- Transaction date accounting for financial assets measured at fair value through profit or loss

(ii) Classification and measurement — Financial assets

The Group classifies financial assets into financial assets measured at amortized cost, financial assets measured at fair value through other comprehensive income, and financial assets measured at fair value through profit or loss.

i. Financial assets measured at amortized cost

A financial asset is measured at amortized cost if it meets the following two criteria:

- The financial asset is held within a business model with the objective of holding financial assets in order to collect contractual cash flows
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding

These assets are initially recognized at fair value plus any directly attributable transaction costs. Subsequent to initial recognition, they are measured at amortized cost using the effective interest method. The criteria for impairment in (v) below are also applied.

ii. Financial assets measured at fair value through other comprehensive income

A financial asset is measured at fair value through other comprehensive income if it meets the following two criteria:

- The financial asset is held for a business model that is achieved by both collecting contractual cash flows and selling
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding

Additionally, as for equity financial assets measured at fair value, except for equity financial assets held for the purpose of selling that must be measured at fair value through profit or loss, the Group has irrevocably elected, on initial recognition, to present in other comprehensive income subsequent changes in the fair value of each equity financial asset, and they are classified as financial assets measured at fair value through other comprehensive income.

These financial assets measured at fair value through other comprehensive income are measured at fair value plus any directly attributable transaction costs. Subsequent to initial recognition, the measurements below are used.

• Equity instruments

Subsequent to initial recognition, these are measured at fair value without deducting costs of disposal. Except for dividend income, the related gains and losses (including the related foreign exchange portion) are recognized in other comprehensive income. The amount recognized in other comprehensive income is not transferred to profit or loss later.

• Liability instruments

Subsequent to initial recognition, these are measured at fair value without deducting from sales or deducting costs of disposal. Subsequent measurement includes the following criteria:

- Expected credit loss is recognized in profit or loss.
- Exchange difference is calculated on an amortized cost basis and recognized in profit or loss.
- Interest is calculated using the effective interest method and recognized in profit or loss.

(Translation)

- Other gains and losses associated with fair value are recognized in other comprehensive income.
- If an asset is derecognized, the past total gains or losses recognized in other comprehensive income are transferred from other comprehensive income to profit or loss.

iii. Financial assets measured at fair value through profit or loss

Financial assets not classified as financial assets measured at amortized cost or financial assets measured at fair value through other comprehensive income are classified as financial assets measured at fair value through profit or loss. Additionally, assets may be irrevocably designated as financial assets measured at fair value through profit or loss on initial recognition. Transaction costs directly attributable to purchase of the financial asset are recognized as profit or loss as incurred. Subsequent to initial recognition, they are measured at fair value, and any gains or losses are recognized in profit or loss.

(iii) Classification and measurement — Financial liabilities

Financial liabilities are classified into financial liabilities subsequently measured at amortized cost or financial liabilities measured at fair value through profit or loss. These classifications are determined on initial recognition.

i. Financial liabilities measured at amortized cost

These financial liabilities are initially recognized at the amount less any directly attributable transaction costs. Subsequent to initial recognition, they are measured at amortized cost using the effective interest method.

ii. Financial liabilities measured at fair value through profit or loss

These financial liabilities include financial liabilities held with the objective of selling and financial liabilities designated on initial recognition as measured at fair value through profit or loss, and are initially recognized at fair value. Subsequent to initial recognition, these liabilities are measured at fair value and changes therein, including any interest expense, are recognized in profit or loss.

(iv) Compound financial instruments

The components of compound financial instruments issued by the Group (e.g. convertible bonds) are individually classified as financial liabilities or equity according to contractual arrangements and the respective definitions of financial liabilities and equity instruments.

The liability component of compound financial instruments is initially recognized at the fair value of a similar liability that does not have an equity component.

The equity component is initially recognized at the difference between the fair value of the compound financial instrument as a whole and the fair value of the liability component. Any directly attributable transaction costs are allocated to the liability and equity components in proportion to their initial carrying amounts.

Subsequent to initial recognition, the liability component of a compound financial instrument is measured at amortized cost using the effective interest method. Interest related to the financial liability is recognized in profit or loss. When converted into shares, financial liabilities are transferred to equity and are not recognized in profit or loss. The equity component of a compound financial instrument is not remeasured.

(v) Impairment of financial assets

The Group recognizes a loss allowance based on expected credit loss for financial assets measured at amortized cost and debt instruments and lease receivables measured at fair value through other comprehensive income. An expected credit loss is the weighted average of credit losses with the respective risks of a default occurring as the weights. The credit loss is the difference between contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the Group expects to receive, discounted at the original effective interest rate.

The Group assesses expected credit losses at each reporting date to determine whether the credit risk has increased significantly since initial recognition. In its assessment, the group compares the risk of a default occurring through the expected life as at the reporting date with the risk of a default occurring as at the date of initial recognition. The Group considers all related information available that is reasonable and supportable on individual financial instruments, including historical information, to determine whether the credit risk has increased significantly since initial recognition.

For those financial assets for which credit risk has not increased significantly since initial recognition, a loss allowance at an amount equal to the 12-month expected credit loss is recognized. For those financial assets for which credit risk has increased significantly since initial recognition, a loss allowance at an amount equal to the lifetime expected credit loss is recognized. Regardless of the above, for those accounts receivable and lease receivables that do not include significant financial components, a loss allowance based on lifetime expected credit loss is recognized.

Measurement of expected credit loss reflects the following criteria:

(Translation)

- It reflects an unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes
- Time value of money
- Reasonable and supportable information available at the reporting date without undue cost or effort about past events, current conditions, and future economic conditions

(vi) Offsetting financial assets and financial liabilities

Financial assets and financial liabilities are offset and the net amount presented in the consolidated statement of financial position when, and only when, the Group has a legal right to offset the amounts and intends to either settle them on a net basis or to realize the asset and settle the liability simultaneously.

(vii) Derivatives and hedge accounting

The Group holds derivative financial instruments to hedge its foreign currency and interest rate risk exposures. Derivatives are initially recognized at fair value on the date the contract is entered into. Subsequent to initial recognition, derivatives are remeasured at fair value on each reporting date. Subsequent to initial recognition, the method of recognizing changes in fair value depends on whether the derivative is designated as a hedging instrument, and if so, the nature of the item being hedged.

i. Derivatives meeting criteria for hedge accounting

The Group designates derivatives as either of the following and documents the risk management objective and strategies for undertaking hedge transactions. The Group also conducts assessments, both at hedge inception and on an ongoing basis throughout each reporting period, of whether the hedging instrument, hedged items, nature of the hedge risks, and hedge relationship meet the criteria for hedge effectiveness. Changes in fair value after initial recognition are accounted for as described below.

Fair value hedge

(A hedge of the exposure to changes in fair value of a recognized asset or liability or unrecognized firm commitment that is attributable to a particular risk and could affect profit or loss)

Changes in the fair value of hedged items and hedging instruments are recognized in profit or loss.

Cash flow hedge

(A hedge of the exposure to variability in cash flows that is attributable to a particular risk associated with all or a component of a recognized asset or liability or a highly probable forecast transaction, and could affect profit or loss)

Changes in fair value associated with hedging instruments are recognized as cash flow hedge reserve in other components of equity. The balance of the cash flow hedge reserve is transferred from other comprehensive income to profit or loss in the same item as the hedged item in the period when the cash flow of the hedged item affects profit or loss. If a hedged forecast transaction subsequently results in the recognition of a non-financial asset or non-financial liability or a hedged forecast transaction associated with a non-financial asset or non-financial liability becomes a firm commitment for which fair value hedge accounting is applied, the amount that has been accumulated in the cash flow hedge reserve is removed and included directly in the initial cost or other carrying amount of the asset or liability. The ineffective portion of the hedge is recognized in profit or loss.

For both fair value hedges and cash flow hedges, if the hedging instrument expires or is sold, terminated or exercised, or the hedge designation no longer meets the criteria for hedge accounting, then hedge accounting is discontinued prospectively.

The hedging relationship is rebalanced if the relationship still has an unchanged risk management objective but no longer meets the hedge effectiveness requirements regarding the hedge ratio. Rebalancing is a change made so that the hedge ratio reflects the anticipated changes in the relationship between the hedge item and hedging instrument and is affected by adjusting the weighting of either the hedged item or the hedging instrument.

ii. Derivatives not meeting criteria for hedge accounting

Subsequent to initial recognition, changes in the fair value of derivative instruments that do not meet the criteria for hedge accounting are immediately recognized as profit or loss.

(6) Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and demand deposits, together with short-term investments that are readily convertible to cash and that are subject to an insignificant risk of changes in value, such as short-term deposits that have a maturity of three months or less.

(Translation)

(7) Inventories

Inventories are measured at the lower of cost and net realizable value. Net realizable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale. The cost of inventories includes direct material costs, direct labor costs, and overhead based on normal production capacity and is mainly calculated using the moving average method. However, certain products and works in process are calculated using specific identification of cost. Trade discounts, rebates, and other similar items are deducted when calculating costs of purchase.

(8) Property, plant and equipment (excluding right-of-use assets)

Subsequent to initial recognition, the cost model is applied to property, plant and equipment, and items are carried at their cost less any accumulated depreciation and any accumulated impairment losses. The cost of an item of property, plant and equipment includes borrowing costs and expenditures that are directly attributable to the acquisition as well as the present value of the estimated cost of dismantling and removing the item that meets the capitalization criteria.

Subsequent expenditure is added to the carrying amount of the asset only if it is probable that the future economic benefits associated with the expenditure will flow to the Group and the amount can be measured reliably. When it becomes necessary to replace parts on certain items of property, plant and equipment of high importance, the Group records the asset and depreciates it according to its useful life. All other repair and maintenance expenses are accounted for as expenses when incurred.

The Group classifies items of property, plant and equipment into the asset categories below and depreciates them according to the listed useful life. Depreciation begins when the asset is available for use. The main method of depreciation used is the straight-line method.

- Buildings and structures 5 to 50 years
- Machinery and vehicles 2 to 15 years
- Tools and equipment 2 to 20 years

On disposal of an item of property, plant and equipment or when future economic benefits are no longer expected from its use, it is derecognized. Gains or losses arising from derecognition are included in profit or loss when the asset is derecognized. Gains or losses are calculated as the difference between the asset's net disposal proceeds and its carrying amount. Depreciation methods, estimated useful lives, and residual values are reviewed at each reporting date, and if there are any changes, they are applied prospectively as changes in accounting estimates.

(9) Goodwill and intangible assets

(i) Goodwill

Goodwill is presented as cost less any accumulated impairment losses and is not amortized. An impairment test is carried out annually or more frequently where an indication of impairment exists. Impairment of goodwill is recognized in profit or loss, and no subsequent reversals are carried out.

(ii) Intangible assets

Subsequent to initial recognition, the cost model is applied to intangible assets, and items are carried at their cost less any accumulated amortization and any accumulated impairment losses. In addition, development expenses are recognized as internally generated assets if they meet all of the following requirements, and as expenses if they do not:

- the technical feasibility of completing the intangible asset so that it will be available for use or sale
- its intention to complete the intangible asset and use or sell it
- its ability to use or sell the intangible asset
- how the intangible asset will generate probable future economic benefits
- the availability of adequate technical, financial and other resources to complete the development and to use or sell the intangible asset
- its ability to measure reliably the expenditure attributable to the intangible asset during its development

Intangible assets with finite useful lives are amortized using the straight-line method based on their estimated useful life. Amortization begins when the asset is available for use. Amortization methods, estimated useful lives, and residual values are reviewed at each reporting date, and if there are any changes, they are applied prospectively as changes in accounting estimates. The useful lives of intangible assets with finite useful lives are as follows:

- Capitalized development costs 2 to 10 years
- Software 2 to 10 years
- Patents 3 to 10 years

(Translation)

- Trademarks 7 to 10 years
- Customer-related assets 9 to 21 years
- Technology-related assets 4 to 20 years

Intangible assets whose useful lives cannot be confirmed are not amortized. Instead, the Group carries out impairment tests annually or more frequently where an indication of impairment exists.

(10) Leases

(i) Lessee

Lease liabilities in a lease transaction are measured on the commencement date of the lease at the present value of remaining lease payments, discounted by the lessee's incremental borrowing rate. Initial measurement of right-of-use assets is performed by adjusting the initial measurement of the lease liability on the commencement date by initial direct costs, etc., and by adding costs associated with the obligation to restore the asset to its original condition, as required by the lease agreement. Right-of-use assets are depreciated systematically over the lease term. The Group determines the lease term as the non-cancelable period of a lease, together with the periods covered by an option to extend a lease if it is reasonably certain that the lessee will exercise that option, and the periods covered by an option to terminate a lease if it is reasonably certain that the lessee will not exercise that option.

Lease payments are allocated between finance costs and the repayable portion of the remaining balance of the lease liability, so as to produce a constant periodic rate of interest on the remaining balance of the lease liability. Finance costs are classified and shown on the consolidated statements of income as a depreciation charge for the right-of-use asset.

With regard to whether an agreement is, or contains, a lease, even if the agreement does not have the legal form of lease, the Group arrives at a judgment based on the substance of the agreement.

Moreover, for leases in which the lease term ends within 12 months, or leases for which the underlying asset is of low value, lease payments for the lease in question are recognized as expenses on either a straight-line basis or some other systematic basis over the lease term.

(ii) Lessor

Leases are classified as either operating leases or finance leases. A lease is classified as a finance lease if it transfers substantially all the risks and economic rewards associated with ownership of the underlying asset, and as an operating lease if it does not transfer substantially all the risks and economic rewards associated with ownership of the underlying asset. The assessment of whether a lease is a finance lease or an operating lease is dependent not on the form of the agreement, but on the substance of the transaction.

Furthermore, when classifying a sublease, the intermediate lessor performs the classification with reference to the right-of-use asset arising from the head lease.

(11) Impairment of non-financial assets

The Group carries out an impairment test annually and when events or changes in circumstances indicate that impairment may be present, and does not amortize goodwill and intangible assets for which the useful life is not determined. For other assets, an impairment test is carried out when events or changes in circumstances indicate that impairment may be present.

For impairment testing, assets are grouped together into the smallest group of identifiable assets (cash-generating units) that generates cash inflows that are largely independent of the cash flows of other assets or asset groups. In addition, for idle assets, which are not expected to be used in the future, individual assets are used as the cash-generating unit.

An impairment loss is recognized for the amount of the difference if the impairment test shows that the recoverable amount is less than the carrying amount of the cash-generating unit or cash-generating unit group. The recoverable amount refers to the value in use or the fair value after deducting costs of disposal of the cash-generating unit, etc. whichever is higher.

For impairment losses recognized with respect to non-financial assets other than goodwill in previous periods, the Group considers reversing them on the last day of each reporting period.

(12) Employee benefits

(i) Short-term employee benefits

Short-term employee benefits are expensed as the related service is provided. A liability is recognized for the amount expected to be paid if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

(ii) Defined contribution plans

Obligations for contributions to defined contribution plans are expensed as the related service is provided. Prepaid contributions are recognized as an asset to the extent that a cash refund or a reduction in future payments is available.

(Translation)

(iii) Defined benefit plans

The Group's liabilities or assets associated with defined benefit plans are calculated by deducting the fair value of any plan assets from the present value of the defined benefit obligations.

The calculation of defined benefit obligations is performed annually by a qualified actuary using the projected unit credit method. The discount rate is determined based on the market yield of the high-quality bonds issued by the Company at the last day of the reporting period corresponding to the estimated maturity of the retirement benefit obligation.

Net interest on defined benefit obligations is calculated by applying the discount rate to the net amount of defined benefit obligations. Net interest expense and other expenses related to defined benefit plans are recognized in profit or loss, except for the portion of these expenses that is recorded in inventories and other assets. When the calculation results in a potential asset for the Group, the recognized asset is limited to the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan. To calculate the present value of economic benefits, consideration is given to any applicable minimum funding requirements.

Remeasurements of defined benefit plans are recognized as other components of equity in the period in which they arise and immediately transferred from other components of equity to retained earnings.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognized immediately in profit or loss. The Group recognizes gains and losses on the settlement of a defined benefit plan when the settlement occurs, eliminating the legal or constructive obligation.

(iv) Other long-term employee benefits

The Group's net obligation with respect to long-term employee benefits is the amount of future benefit that employees have earned in return for their service in the current and prior periods. That benefit is discounted to determine its present value. Remeasurements are recognized in profit or loss in the period in which they arise.

(v) Termination benefits

Termination benefits are expensed at the earlier of when the Group can no longer withdraw the offer of those benefits and when the Group recognizes costs for a restructuring. If benefits are not expected to be settled wholly within 12 months of the reporting date, then they are discounted.

(13) Provisions

Provisions are recognized when the Group has a present legal or constructive obligation as a result of past events, it is likely that an outflow of economic resources will be required to settle the obligation, and the amount can be reliably estimated. If time value is significant, provisions are measured at the present value by discounting the expected future cash flows at a pre-tax rate that reflects the time value of money and the risks specific to the liability. The unwinding of the discount is recognized as finance cost.

A provision for environmental remediation expenses is recognized when the land of a business site is contaminated, etc. A provision for restructuring is recognized when the Group has approved a detailed and formal restructuring plan, and the restructuring either has commenced or has been announced publicly. A provision for warranties is recognized when a defective product is sold and discovered and an outflow of economic resources is likely to compensate the customer.

(14) Government grants

Government grants are recognized at fair value when there is reasonable assurance that the Company will comply with the conditions attached to them and the grant will be received.

A grant related to an asset is deducted from the acquisition cost of the asset, and is recognized in profit or loss over the life of the asset as a reduced depreciation expense.

A grant related to income is recognized in profit or loss on a systematic basis over the period in which the Company recognizes as expenses the related costs for which the grant is intended to compensate, and is deducted from the related costs.

(15) Revenue recognition

The Group recognizes revenue under the following five-step approach for contracts with customers, excluding interest and dividend income, etc. under IFRS 9 "Financial Instruments."

Step 1: Identify the contract(s) with a customer

Step 2: Identify the performance obligations in the contract

Step 3: Determine the transaction price

Step 4: Allocate transaction price to the performance obligations in the contract

Step 5: Recognize revenue when (or as) the entity satisfies a performance obligation

(Translation)

Based on the approach above, the Group recognizes and measures revenue as set forth below.

(i) Sale of goods

Revenue is an increase in equity during the current period from an increase in economic benefits during the course of normal business activities and is measured at the amount of consideration the Group has earned the right to receive based on the transaction price allocated to the obligations that have already been fulfilled. Revenue is measured net of returns, trade discounts, volume rebates, and taxes on sales.

Revenue is recognized when the obligations are fulfilled by transferring control of the goods to the customer based on the arrangements with the customer. The timing of the transfer of control of goods varies depending on the individual terms of the sales agreement. In most cases, it is transferred when the goods are delivered to the customer's warehouse. However, in some cases, it is transferred when the customer's acceptance inspection is completed or when the goods are loaded at the port.

(ii) Rendering of services

The Group mainly provides maintenance services for sensing devices to customers. Maintenance services include inspection, process optimization, and improvement proposals. For maintenance services contracts, because obligations are fulfilled primarily over time, the contract amounts with customers are recognized as revenue over the relevant service period on a straight-line basis.

The amount of the promised consideration does not include important financial components. Consideration is generally paid within two months of fulfillment of obligations.

(16) Income taxes

Income tax expenses comprises current and deferred tax. It is recognized in profit or loss except for items recognized directly in equity or other comprehensive income.

Current tax is the estimated income taxes payable or income taxes receivable on the taxable income or loss for the year adjusted by the income taxes payable and income taxes receivable of previous years. It is measured using tax rates enacted or substantially enacted at the reporting date in the jurisdiction where the taxable income was generated by the Group and is recognized at the amount expected to be paid to (or received from) the taxation authority. Accrued income tax receivable and income tax payable are offset only if certain criteria are met.

When there is a possibility that uncertainty may arise with respect to the Group's tax position, the Group recognizes the impact of the tax position in the consolidated financial statements based on its assessment of various factors, including interpretation of tax law and past experience.

Deferred tax is recognized with respect to temporary differences between the carrying amounts of assets and liabilities on the consolidated financial statements and the amounts used for taxation purposes, loss carried forward, and tax credits carried forward. Deferred tax assets and liabilities are not recorded for the following temporary differences:

- Temporary differences arising on the initial recognition of goodwill
- Temporary differences on the initial recognition of assets or liabilities in a transaction that is not a business combination, that affects neither accounting profit nor taxable profit (tax loss) at the time of transaction, and does not give rise to equal taxable and deductible temporary differences at the time of transaction
- Taxable temporary differences related to investments in subsidiaries and affiliated companies to the extent that the Group is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future
- Deductible temporary differences related to investments in subsidiaries and affiliated companies that the Group probably will not reverse in the foreseeable future

Excluding the temporary differences above, deferred tax liabilities are, in principle, recognized for all taxable temporary differences. Deferred tax assets are recognized to the extent that it is probable that taxable income will arise considering the timing of reversal of taxable temporary differences, tax planning, and other such factors.

Deferred tax assets and liabilities are measured using the statutory effective tax rate expected to be applied in the period that the assets or liabilities are settled based on the tax rate and tax law enacted or substantially enacted at the last day of the period.

Deferred tax assets and liabilities are offset only when a legally enforceable right of offset exists for the related accrued income tax receivable and income tax payable and the deferred tax assets and liabilities arose in the same tax jurisdiction and relate to the same taxable entity.

(17) Capital

(i) Common stock and capital surplus

Ordinary shares issued by the Group are classified as equity, and the issue price is recorded in common stock and capital surplus. Cost directly related to issuance of ordinary shares are deducted from equity.

(Translation)

(ii) Treasury stock

When the Group repurchases ordinary shares, the amount of consideration paid is recognized as a deduction from equity. Repurchased shares are classified as treasury stocks. When treasury stocks are sold or reissued subsequently, the amount received is recognized as an increase in equity. The difference between the carrying amount and the amount received is recognized as capital surplus.

(iii) Dividends

The amount available for dividends is calculated based on the Companies Act of Japan. A liability is recognized for dividends that were properly approved before the last day of the fiscal year that were not yet distributed as of the end of the fiscal year.

(18) Earnings per share

Basic earnings per share is calculated by dividing the net profit or loss attributable to owners of the parent by the adjusted weighted average number of ordinary shares outstanding during the period. Diluted earnings per share is calculated by adjusting the weighted average number of ordinary shares outstanding to assume conversion of all dilutive potential ordinary shares.

7. Change in Accounting Policy

The Group has applied the following standard from this fiscal year.

IFRS		Outline of establishment and amendment
IAS 21	The effects of changes in foreign exchange rates	Clarification of the requirements for cases where exchangeability between two currencies is lacking

The impact of the adoption of the aforementioned standards on the condensed quarterly consolidated financial statements is immaterial.

8. Notes to accounting estimates

Preparing the consolidated financial statements requires determinations, estimates and assumptions by the management that affect the reported amounts of assets and liabilities on the settlement date and the reported income and costs during the reporting period. Such determinations and estimates, and assumptions that serve the basis of them, are continually reviewed taking any rationally possible factors into consideration, including past experience and possible future occurrences that may pose financial impacts on the Group. The actual results may differ from such estimates.

Items for which there is significant risk that would require significant revisions owing to uncertainty in these assumptions and estimates are as follows.

(1) Measurement of the fair value of unlisted stocks and investments in capital

The Group determines fair values of stocks that are not exchanged in active markets and investments in capital by using valuation techniques. The Group deploys the approach to select various valuation methods, and sets the assumption based on the market condition mainly on each reporting date. For the balance of unlisted stocks and investments in capital and details of valuation techniques, see “11. Notes relating to financial instruments.”

(2) Impairment test of assets

The Group carries out an impairment test when events or changes in circumstances indicate that impairment may be present, for property, plant, and equipment and intangible assets which can be finalized durable years. Balances of property, plant and equipment, and intangible assets at the end of this fiscal year were 585,303 million yen, 33,290 million yen, respectively. The recoverable amount for each cash-generating unit or cash-generating unit group is the fair value or the value in use that involves the use of assumption, whichever is higher. With regard to the calculation of the value in use, the Group deploys the specific estimates and assumption for durable year, future cash flow, discount before taxes, and long-term growth rate. With regard to the calculation of the value in use, the Group deploys the cash flow forecast based on the business plan three or five years into the future approved by the management. Cash flow beyond the term of the business plan approved by the management is estimated by the anticipated growth rate. The anticipated growth rate is calculated based on the long-term economic growth rate and inflation rate, and kept consistent with forecasts specific to industries where each cash-generating unit, etc. conducts business operations.

These estimates and assumptions are based on all information and evidence that are available to the management. However, such assumptions may be influenced by uncertain changes in the future economic climate, and may greatly impact the consolidated financial statements in the following fiscal year onwards.

The Group carries out an impairment test annually and when events or changes in circumstances indicate that impairment may be present, and does not amortize goodwill and intangible assets for which the useful life is not determined. Balances of goodwill at the end of this fiscal year were 61,164 million yen. The recoverable

(Translation)

amount for each cash-generating unit, etc., is calculated mainly based on the value in use. With regard to the calculation of the value in use, specific estimates and assumptions are used for the future cash flow, the pretax discount rate, and long-term growth rate. For estimates of the future cash flow, the cash flow forecast and long-term growth rate, based on the business plan, are used, as is the case with assets other than goodwill and intangible assets for which the useful life is not determined.

The estimates of value in use for U-Shin Ltd. are based on a three-year business plan approved by management. Such estimates include key assumptions of future sales volumes, a pre-tax discount rate of 15.0% and a long-term growth rate of 3.0%. In this fiscal year, the company's automotive products business recorded a higher profit, as its major customers' sales to North America were strong. The company's agricultural machinery business recorded higher sales and a higher profit, driven by increased demand for high value-added smart agricultural machinery that contributes to productivity improvement. In addition, the construction machinery market is also showing signs of recovery after a temporary slowdown. As a result, U-Shin Ltd. as a whole recorded a higher profit. Going forward, geopolitical risks, including developments in the Middle East, could send raw material and transportation costs higher, and changes in the external environment could lead to a slowdown in demand. Despite the uncertain business environment, the company is expected to post a higher profit, with its profitability continuing to improve, mainly driven by its cost management efforts and a further increase in its sales share. The long-term growth rate is subject to the impact of, among other factors, changes in the business environment of regions where the company's customers operate. Such sales volume and long-term growth rate estimates are subject to a high degree of uncertainty. In addition, estimating the discount rate used to measure the value in use requires a high level of valuation expertise in the selection of calculation methods and input data. Thus, revisions to its business plans, discount rates and long-term growth rate on the impact of future changes in uncertain economic conditions may have a material impact on the consolidated financial statements in the following fiscal year onwards.

(3) Measurement of retirement benefit liabilities

The Group has various retirement benefit plans including the defined benefit plan. The balance of retirement benefit liabilities at the end of this fiscal year was 28,982 million yen. The present value of defined benefit liabilities of these plans and associated service costs are calculated based on actuarial assumptions. The actuarial assumptions include estimated variables such as the discount rate, pay rise rate, inflation rate, etc. The Group has obtained advice from external pension actuaries on appropriateness of actuarial assumptions including these variables. These actuarial assumptions are determined based on all information and evidence that are available to the management. However, such assumptions may be influenced by uncertain changes the future economic climate, and revisions and promulgation of related laws and regulations. The resulting review of assumptions may greatly impact the consolidated financial statements in the following fiscal year onwards.

(4) Accounting method for provisions and contingencies

The Group recognizes various provisions in the consolidated statements of financial position. The balance of provisions at the end of this fiscal year was 3,091 million yen. These provisions are recognized based on the best estimates of payments to liabilities, which take into consideration risks and uncertainty related to the liabilities on the reporting date. The payment to liabilities is calculated by comprehensively taking into consideration any possible events that may occur in the future.

The main example would be in the Group's access solutions business. The Group may conclude an agreement with an automobile manufacturer to pay a certain percentage or certain amount of the costs incurred in the event of some service campaigns or a recall issued by the automobile manufacturer. Therefore, the Group recognizes the provision for after-care of products for such costs. The estimates may be influenced by unexpected events and changes in circumstances, and may greatly impact the consolidated financial statements in the following fiscal year onwards.

With regard to contingencies, items which may impact seriously on businesses in the future are disclosed based on all available evidence as of the reporting date as well as probability of their occurrences and associated financial impacts.

Others

The Group also carries out specific estimates and assumptions important to understand the consolidated financial statements of the Group, although the level of uncertainty of those are lower than that of the above estimates and assumptions. These estimates are related to the net realizable value of inventories and the useful lives of specific items in the property, plant and equipment.

9. Notes to consolidated statements of financial position, etc.

Contingent liabilities

Although there are possibilities that the Group may bear part of costs incurred by faults in automotive parts that the Group supplied to customers, the provision is not recorded because estimating the amount rationally is currently difficult.

(Translation)

10. Notes to consolidated statements of changes in equity

(1) Matters relating to class and total number of issued shares and class and total number of treasury stock

Class of shares	Shares at beginning of current FY (shares)	Increased shares in current FY (shares)	Decreased shares in current FY (shares)	Shares at end of current FY (shares)
Issued shares				
Common stock	427,080,606	–	–	427,080,606
Total	427,080,606	–	–	427,080,606
Treasury stock				
Common stock ^(Note)	25,495,141	787	10,841	25,485,087
Total	25,495,141	787	10,841	25,485,087

Notes:

1. The increase of 787 shares in the number of treasury stock of common stock reflects an increase of shares from the purchase of fractional shares.
2. The decrease of 10,841 shares in the number of treasury stock of common stock reflects a decrease of 10,800 shares due to share allotment relating to the Board Benefit Trust and a decrease of 41 shares due to additional purchase of fractional shares.
3. The number of treasury stock of common stock includes our shares owned by the trust account for the Board Benefit Trust (346,498 shares at the end of this fiscal year) approved in the 74th Ordinary General Meeting of Shareholders held on June 26, 2020.

(2) Matters relating to dividends from surplus

(i) Amount of dividends paid

Matters on dividends by the resolution of the 79th Ordinary General Meeting of Shareholders held on June 27, 2025

Total amount of dividends: 10,040 million yen
Dividend per share: 25.00 yen
Record date: March 31, 2025
Effective date: June 30, 2025

Note: Total amount of dividends does not include 9 million yen of dividends to the trust account for the Board Benefit Trust. This is because the Company recognizes the shares of the Company owned by the trust account for the Board Benefit Trust as its treasury stock.

Matters on dividends by the resolution of the Meeting of the Board of Directors held on November 6, 2025

Total amount of dividends: 10,040 million yen
Dividend per share: 25.00 yen
Record date: September 30, 2025
Effective date: November 28, 2025

Note: Total amount of dividends does not include 9 million yen of dividends to the trust account for the Board Benefit Trust. This is because the Company recognizes the shares of the Company owned by the trust account for the Board Benefit Trust as its treasury stock.

(ii) Dividends with a record date that falls within the current fiscal year but an effective date in the following fiscal year

The following proposal will be submitted to the 80th Ordinary General Meeting of Shareholders to be held on June 26, 2026.

Total amount of dividends: 10,040 million yen
Source of dividends: Retained earnings
Dividend per share: 25.00 yen
Record date: March 31, 2026
Effective date: June 29, 2026

Note: Total amount of dividends does not include 9 million yen of dividends to the trust account for the Board Benefit Trust. This is because the Company recognizes the shares of the Company owned by the trust account for the Board Benefit Trust as its treasury stock.

(Translation)

(3) Matters related to subscription rights to shares at the end of this fiscal year

Filing company (parent company)

	Series I subscription rights to shares	Series II subscription rights to shares	Series III subscription rights to shares
Class of shares underlying subscription rights to shares	Common stock	Common stock	Common stock
Number of shares underlying subscription rights to shares	10,000 shares	10,000 shares	6,000 shares
Outstanding balance of subscription rights to shares	2 million yen	3 million yen	7 million yen

11. Notes related to financial instruments

(1) Matters related to financial instruments

(i) Policy on handling of financial instruments

The Group procures necessary funds (primarily through bank loans and issuance of corporate bonds) in light of its capital expenditure plan. Temporary surplus funds are invested mainly in highly liquid financial assets while short-term operating funds are procured through bank loans. The Company, by policy, utilizes derivatives to evade risks described hereafter and not for the purpose of speculative transactions.

(ii) Contents of financial instruments and associated risks

Notes and accounts receivable, which are operating receivables, are exposed to the credit risk of customers. Although foreign currency-based receivables that arise in conducting business in overseas are exposed to FX rate fluctuation risk, the Company, as a general rule, hedges the risk with the use of exchange forward contracts with the exception of any receivable item within the outstanding balance of accounts payable, which are operating payables, in the same foreign currency.

Equity instruments are stocks of companies with which the Company holds business relationships, and are exposed to market price fluctuation risk. Long-term loans receivable are mainly loans to business partners. As for notes and accounts payable, which are operating payables, most of the items are due for payment within 6 months. Though some of them are foreign currency-based and are exposed to FX rate fluctuation risk, the Company hedges the risk with the use of exchange forward contracts with the exception of any payable item within the outstanding balance of accounts receivable, which are operating receivable, in the same foreign currency.

Bank loans, corporate bonds and lease liabilities relating to finance lease transactions are executed for the purpose of procuring funds primarily for capital expenditures. While these obligations, in part, are exposed to interest rate fluctuation risk, the Company hedges the risk with the use of derivative transactions (interest rate swaps).

Derivative transactions are exchange forward contracts executed for the purpose of hedging FX rate fluctuation risk associated with foreign currency-based operating receivables and payables and interest rate swaps executed for the purpose of hedging interest rate fluctuation risk associated with bank loans. With respect to hedging instruments and hedged items, hedge policy and method of assessing hedge effectiveness; please refer to “(5) Financial instruments” in “6. Accounting policies.”

(iii) Risk management system relating to financial instruments

(a) Management of credit risk (risk associated with breach of contract, etc. by customer)

Credit risk is the risk that counterparties of financial assets held will default on contractual obligations, and the Group will incur a financial loss. The Group’s system is to control due dates and outstanding balance by customer, while also periodically monitoring the credit status of its major customers, in accordance with its credit management regulations. Of the Group’s outstanding accounts receivable as of the end of the fiscal year under review, 11.6% is attributable to the Apple group. In regard to financial assets other than accounts receivable, credit risk is not concentrated in terms of credit rating. In addition, the Group conducts derivatives transactions only with financial institutions, etc. with a high level of creditworthiness, and these transactions’ effect on credit risk is thus limited. Furthermore, the Group is not exposed to any credit risk excessively concentrated in a specific counterparty or group to which a specific counterparty belongs. The carrying amount of financial assets less the allowance for doubtful receivables presented on consolidated financial statements is the Group’s maximum exposure to the credit risk of financial assets.

(Translation)

(b) Management of liquidity risk

Liquidity risk is the risk that the Group will be unable to make payments to fulfill its obligations to repay financial liabilities whose due date has arrived on the payment dates of those liabilities. The Group manages liquidity risk by preparing appropriate funds for repayment, while also securing lines of credit that may be used as needed from financial institutions, and monitoring cash flow plans and results on an ongoing basis. The Group manages liquidity risk by having the responsible department timely develop and update the funding plan based on reports from each of the departments and by maintaining short-term liquidity. Consolidated subsidiaries also exercise similar management.

(c) Management of foreign currency risk

The Group operates its businesses internationally, and is therefore exposed to foreign currency risk on operating receivables and payables. In order to manage foreign currency risk, the Group monitors fluctuations in exchange rates on an ongoing basis, and uses forward exchange contracts to reduce currency risk.

(d) Management of interest rate risk

The Group is exposed to various forms of interest rate risk in its business activities, and fluctuations in interest rates have a particularly significant effect on borrowing costs. The Group uses interest rate swaps to reduce interest rate risk.

(iv) Supplementary explanation on matters relating to the fair value of financial instruments, etc.

The fair value of financial instruments includes, in addition to the value based on market value, a value rationally computed in the absence of market value. The computation of such a value incorporates fluctuation factors, and as different preconditions, etc. are adopted, the value may be subject to fluctuation.

(2) Matters related to the fair value of financial instruments, etc.

For financial instruments measured at fair value, the fair value measurements are classified from Level 1 to Level 3, based on the observability and materiality of the inputs used in the measurements.

Level 1: quoted prices in active markets for identical assets or liabilities (unadjusted)

Level 2: fair value calculated based on prices other than quoted market prices included within Level 1 that are observable for assets or liabilities, either directly or indirectly

Level 3: fair value calculated based on valuation techniques that include unobservable inputs for assets or liabilities

When multiple inputs are used to measure fair value, the fair value level is determined based on the lowest level of input that is significant to the entire measurement of fair value.

(i) Fair value of financial instruments

Amount on the consolidated statements of financial position as of March 31, 2026 and fair value are as follows.

	Carrying amount (millions of yen)	Fair value (millions of yen)
Current portion of bonds payable	14,976	14,847
Current portion of long-term debt	56,000	55,501
Bonds	24,965	24,381
Long-term debt	193,404	190,258

(Note) The fair values of bonds and long-term debt are classified as Level 2.

Furthermore, financial assets and financial liabilities other than those shown in the table above are omitted as their carrying amounts are equal to fair value or a reasonable approximation of fair value.

(ii) Computation method for fair value

The fair value of bonds and borrowings is calculated based on their present value obtained by discounting future cash flows using the expected interest rate if a similar contract was newly executed. Furthermore, the carrying amount is used for the fair value of borrowings with variable interest rates, as the interest rate is adjusted on a short-term basis and the carrying amount is approximately equal to the fair value.

(Translation)

(iii) Financial instruments measured at fair value

The fair value hierarchy of financial instruments measured at fair value is as follows.

(Unit: millions of yen)

	Level 1	Level 2	Level 3	Total
Assets				
Financial assets at fair value through profit or loss				
Bonds	8,837	–	–	8,837
Derivative assets	–	171	–	171
Investments in capital	–	–	49,534	49,534
Other	–	1,754	–	1,754
Equity instruments at fair value through other comprehensive income				
Stocks	15,237	–	3,724	18,961
Total	24,074	1,925	53,258	79,257
Liabilities				
Financial liabilities at fair value through profit or loss				
Derivative liabilities	–	4,311	–	4,311
Total	–	4,311	–	4,311

Transfers between levels of the fair value hierarchy are recognized on the date the event or change in circumstances giving rise to the transfer occurs. No material transfers between Fair Value Level 1 and Level 2 were made.

The fair value of bonds for which an active market exists is based on quoted market prices, and they are therefore classified as Level 1. Those calculated based on prices provided by correspondent financial institutions, etc., are classified as Level 2.

The fair values of derivative assets and derivative liabilities are measured at amounts determined based on prices and other inputs provided by correspondent financial institutions, and they are therefore classified as Level 2.

The fair value of stocks for which an active market exists is based on quoted market prices, and they are therefore classified as Level 1. For stocks for which active market doesn't exist, the inputs are unobservable, in which case the fair value is measured primarily using the comparable company analysis method, and they are classified as Level 3.

Investments in capital is an investment into unlisted investment partnerships. The fair value of investments in capital of an investment partnership is measured by using the comparable company analysis method or other appropriate valuation methods. The measurement of the fair value of investments in capital of an investment partnership uses unobservable inputs, and is therefore classified as Level 3.

(Translation)

12. Notes related to revenue recognition

(1) Matters relating to financial instruments

Relationship between decomposed revenue and segment revenue

Sales by major product and related segment information are as follows.

All revenues are based on contracts with customers.

(Unit: millions of yen)

	Reportable Segments				Other Businesses (Note) 4	Total
	Precision Technologies	Motor, Lighting & Sensing	Semiconductor & Electronics	Access Solutions		
Ball bearings	186,413	–	–	–	–	186,413
Rod end bearings • Fasteners	66,014	–	–	–	–	66,014
Pivot assemblies	28,724	–	–	–	–	28,724
Motors	–	340,304	–	–	–	340,304
Electronic devices	–	67,953	–	–	–	67,953
Sensing devices	–	38,503	–	–	–	38,503
Semiconductor & Electronics products (Note) 2	–	–	590,263	–	–	590,263
Access Solutions products (Note) 3	–	–	–	332,249	–	332,249
Other	–	9,757	–	–	4,207	13,964
Total	281,151	456,517	590,263	332,249	4,207	1,664,387

Notes:

1. Net amounts after deducting intercompany transactions among group companies are shown.
2. MITSUMI products include semiconductor devices, optical devices, mechanical components, and power supply components.
3. Access Solutions products include automotive parts and parts for industrial equipment.
4. The “Other businesses” category covers business segments not included in the reportable segments, and its main products are design and development of software, and in-house manufactured machines.

(2) Significant determination

As described in “6. Accounting policies,” “(15) Revenue recognition.”

(3) Outstanding contracts

A breakdown of outstanding contracts in the Group is as follows.

(Unit: millions of yen)

	April 1, 2025	March 31, 2026
Accounts receivable arising from contracts with customers		
Notes and accounts receivable – trade	280,912	345,733

(4) Transaction price allocated to remaining performance obligations

The Group has no material individual transactions with expected contract durations exceeding one year. There are no amounts of consideration arising from contracts with customers that are not included in the transaction prices and are material to revenue recognition.

13. Notes to per share information

- | | |
|---|--------------|
| (1) Equity attributable to owners of the parent per share | 2,238.50 yen |
| (2) Earnings per share, basic | 246.60 yen |

14. Notes to subsequent events

Not applicable.

Notes to Non-Consolidated Financial Statements

Significant Accounting Policies

(1) Standards and method of valuation of assets

Marketable securities

Investments securities in affiliates:

Stated at cost determined by the moving average method.

Other marketable securities:

Securities other than stocks, etc., without market prices

Market value method (The revaluation differences are accounted for based on the direct net assets method and the sales costs are calculated by the moving average method.)

Stocks, etc., without market prices

Non listed marketable securities are stated at cost determined by the moving average method.

Derivatives

Market value method

Inventories

Purchased goods: Stated at cost determined by the moving average method (the balance sheet amounts of the inventories are calculated at the lowered book values reflecting potential decline in profitability.)

Finished goods: Stated at cost determined by the moving average method (the balance sheet amounts of the inventories are calculated at the lowered book values reflecting potential decline in profitability.)

Work in process: Stated at cost determined by the moving average method for bearings, fasteners, and motors (the balance sheet amounts of the inventories are calculated at the lowered book values reflecting potential decline in profitability.)
Stated at cost determined respectively for sensing devices (measuring components), special motors and special devices (the balance sheet amounts of the inventories are calculated at the lowered book values reflecting potential decline in profitability.)

Raw materials: Stated at cost determined by the moving average method (the balance sheet amounts of the inventories are calculated at the lowered book values reflecting potential decline in profitability.)

Supplies: Stated at cost determined by the moving average method (the balance sheet amounts of the inventories are calculated at the lowered book values reflecting potential decline in profitability.)

(2) Depreciation

Tangible fixed assets (excluding leased assets):

Depreciation of tangible fixed assets is made on the straight-line method.

Their major useful lives are as follows:

Buildings and structures 5 to 50 years

Machinery and equipment 2 to 15 years

Tools, furniture and fixtures 2 to 20 years

They also collectively show equal charges for small depreciable assets (whose acquisition values are not less than 100,000 yen and less than 200,000 yen) over the 3 years each fiscal year.

Intangible assets (excluding leased assets):

Depreciation of intangible fixed assets is made on the straight-line method.

The depreciation method of software (for internal use) is computed on the straight-line method based on our expected useful period (5 to 10 years).

Leased assets:

Lease assets related to finance lease transactions that do not transfer ownership

The Company adopts the straight-line method of making lease periods depreciable lives and salvage values zero.

Long-term prepaid expenses:

Depreciation of long-term prepaid expenses is made on the straight-line method.

(3) Translation of foreign currency assets and liabilities

Foreign currency monetary receivables and payables are translated into yen at the exchange rate on the balance sheet date. The resulting exchange differences are accounted for as an exchange gain or loss.

(4) Allowances

Allowance for doubtful receivables:

We post in the amount required for the estimated uncollectible receivables based on actual losses of trade receivables and on collectability of specific receivables with loss possibilities.

(Translation)

Accrued bonuses:

To make preparations for the payment of bonuses to employees, accrued bonuses are shown based on the estimated amount of payment.

Accrued bonuses for directors:

To make preparations for the payment of bonuses to directors, allowance for bonuses to directors is shown based on the amount of payment estimated in the fiscal year under review.

Provision for retirement benefits:

To provide for payment of employee retirement benefits, the Company reported a provision for retirement benefits or prepaid pension costs, based on estimated retirement benefit debts and pension assets at the end of the current term.

(i) Method of attributing expected retirement benefits to periods

We calculate retirement benefit obligations by attributing projected benefit obligations to periods up to the end of the current fiscal year on a benefit formula basis.

(ii) Method of recognizing actuarial gains and losses and past service costs in profit or loss

Unrecognized past service costs are amortized using the straight-line method over a period of 10 years as cost.

Over the 5 years from the following term after the differences accrue, the Company will charge differences in mathematical calculation to expenses in accordance with the straight-line method.

Provision for retirement benefits for executive officers:

To provide for payment of retirement allowance to executive officers, we post retirement allowances to be required for payment at the end of the current fiscal year in accordance with regulations.

Provision for after-care of products:

We post reasonably projected amounts to be incurred in the future as expenses for after-care of products.

(5) Accounting method of hedge transactions

(i) Method of hedge accounting

The Company adopts the deferred hedge method. The Company also adopts the special method to account for the interest rate swaps, which meet the requirements of special accounting.

(ii) Hedging instruments and hedged items

(Hedging instruments)

Forward exchange contracts

Interest rate swaps

(Hedged items)

Anticipated transactions in foreign currencies

Interest rates on borrowings

(iii) Hedge policy

Under the guidance of its Corporate Finance Department, the Company makes forward exchange contracts to hedge risks in foreign exchange fluctuations arising from export and import transactions. The Company also makes interest rate swaps to hedge fluctuation risks in interest rates on borrowings.

(iv) Method of assessing hedge effectiveness

Regarding forward exchange contracts, in principle, the Company allocates them to anticipated transactions in foreign currencies with same maturities and same amounts in foreign currency at closing of forward exchange contracts in accordance with the risk management policy. This completely ensures correlations reflecting subsequent exchange rate fluctuations. The Company assesses hedge effectiveness based upon such correlations.

Also, regarding interest rate swaps, the Company assesses hedge effectiveness based upon the fulfillment of the accounting requirements for special treatment.

(6) Basis for recording revenues and expenses

Information that provides a basis for understanding revenue arising from contracts with customers is the same as that described in "Notes to Consolidated Financial Statements," "6. Accounting policies," "(15) Revenue recognition."

(Translation)

(7) Others

- (i) Amortization of deferred asset
Deferred asset is equally amortized over the term of bonds issued (10 years).
- (ii) Accounting method for retirement benefits
The accounting method for the outstanding balances of unrecognized actuarial gains and losses and unrecognized past service costs is different from the accounting method for these balances in the consolidated financial statements.

Notes to Accounting Estimates

- (1) Valuation of affiliates' shares and investments in capital
For affiliates' shares and investments in capital, their acquisition costs are recorded in the balance sheet, but appropriate reduction is made and the valuation differences are counted in the loss for the year under review if the actual value decreases significantly due to a deterioration of the financial position of the given company unless the possibility of its recovery can be proven with ample evidence.
Among affiliates' shares, the actual value of U-Shin Ltd. is calculated to reflect its excess earnings potential, and estimates and assumptions for the excess earnings potential are determined based on all information and evidence that are available to the management. However, such assumptions may be influenced by uncertain changes in the future economic climate, and may greatly impact the non-consolidated financial statements in the following fiscal year onwards.
Among affiliates' shares, the balance of investments in U-Shin Ltd. at the end of this fiscal year was 33,238 million yen.
- (2) Impairment test of assets
Balances of tangible fixed assets and intangible assets at the end of this fiscal year were 113,714 million yen and 2,031 million yen, respectively. Descriptions of the estimates are the same as the descriptions under "Notes to Consolidated Financial Statements," "8. Notes to accounting estimates," "(2) Impairment test of assets" in the consolidated financial statements.
- (3) Measurement of retirement benefit liabilities
The balance of provision for retirement benefits at the end of this fiscal year was 7 million yen. Descriptions of the estimates are the same as the descriptions under "Notes to Consolidated Financial Statements," "8. Notes to accounting estimates," "(3) Measurement of retirement benefit liabilities" in the consolidated financial statements.
- (4) Accounting method for provisions and contingencies
The balance of provisions excluding the provision for retirement benefits at the end of this fiscal year was 9,076 million yen. Descriptions of the estimates are the same as the descriptions under "Notes to Consolidated Financial Statements," "8. Notes to accounting estimates," "(4) Accounting method for provisions and contingencies" in the consolidated financial statements.
- (5) Others
Descriptions are the same as the descriptions under "Notes to Consolidated Financial Statements," "8. Notes to accounting estimates," "Others" in the consolidated financial statements.

Notes to Non-Consolidated Balance Sheet

- (1) Accumulated depreciation of tangible fixed assets: 72,577 million yen
- (2) Contingent liabilities
Guarantee liabilities
The Company has provided the following companies with guarantees for their bank borrowings, etc.

Guarantee	Amount (millions of yen)
NMB-Minebea-GmbH	42,072
MINEBEA (CAMBODIA) Co., Ltd.	11,831
NMB-MINEBEA UK LTD.	1,834
NMB-Minebea Thai Ltd.	1,008
Minebea Intec GmbH	538
NMB SINGAPORE LIMITED	196
Total	57,480

(Translation)

(3) Monetary receivables from and monetary payables to affiliates:	
Short-term receivables (excluding short-term loans receivables from affiliates)	112,808 million yen
Short-term payables (excluding short-term loans payable to affiliates)	160,632

Notes to Non-Consolidated Statement of Income

Transaction with affiliates:	
Sales:	491,724 million yen
Purchase:	710,755
Amount of other operational transactions:	13,549
Amount of non-operating transactions:	31,519

(Translation)

Notes to Non-Consolidated Statement of Changes in Net Assets

Class and number of treasury stock

Class of shares	Shares at beginning of current FY (shares)	Increased shares in current FY (shares)	Decreased shares in current FY (shares)	Shares at end of current FY (shares)
Common stock ^(Note)	25,495,141	787	10,841	25,485,087

Notes:

1. The increase of 787 shares in the number of treasury stock of common stock reflects an increase of shares from the purchase of fractional shares.
2. The decrease of 10,841 shares in the number of treasury stock of common stock reflects a decrease of 10,800 shares due to share allotment relating to the Board Benefit Trust and a decrease of 41 shares due to additional purchase of fractional shares.
3. The number of treasury stock of common stock includes our shares owned by the trust account for the Board Benefit Trust (346,498 shares at the end of this fiscal year) approved in the 74th Ordinary General Meeting of Shareholders held on June 26, 2020.

Notes to Tax-Effect Accounting

- (1) Major reasons for the accrual of deferred tax assets and deferred tax liabilities:

(Deferred tax assets)

Loss on valuation of investment securities in affiliates	5,780	million yen
Excess of allowed limit chargeable to accrued bonuses	2,469	
Excess of allowed limit chargeable to the depreciation	393	
Provision for retirement benefits	2	
Loss on valuation of investment securities	532	
Foreign tax credit carried forward	66	
Deferred losses on hedges	31	
Accrued enterprise taxes	202	
Accrued social security premiums	359	
Loss on valuation of inventories	116	
Retirement benefits to directors	30	
Tax loss carried forward	318	
Others	1,838	
Sub-total of deferred tax assets	12,143	
Valuation allowance for total deductible temporary differences, etc.	(6,421)	
Sub-total of valuation allowance	(6,421)	
Total deferred tax assets	5,722	

(Deferred tax liabilities)

Reserve for reduction entry	(4,102)
Difference on revaluation of available-for-sale securities	(2,786)
Deferred gains on hedges	(0)
Total deferred tax liabilities	(6,889)
Net deferred tax assets (liabilities)	(1,166)

- (2) Major reasons for significant difference between the legal effective tax rate and the ratio of income tax burden after the application of tax effect accounting

Domestic legal effective tax rate	30.6%
(Adjustments)	
Items not tax deductible, such as entertainment expenses	0.4
Items not taxable, such as dividends income	(26.9)
Inhabitant tax levied per capita	0.1
Valuation allowance	(0.1)
Withholding taxes, etc. on dividends and other income from overseas subsidiaries, etc.	3.6
Tax credits for R&D expenses, etc.	(2.1)
Others	(0.0)
Ratio of income tax burden after the application of tax effect accounting	5.7

- (3) Accounting of income taxes and local corporation taxes or accounting of tax-effect accounting for them
The Company has adopted the group tax sharing system since this fiscal year. The Company has also accounted for income taxes and local corporation taxes or accounted for and disclosed tax-effect accounting for them in accordance with the “Practical Solution on the Accounting and Disclosure Under the Group Tax Sharing System” (PITF No. 42, August 12, 2021).

(Translation)

Notes to Fixed Assets Used through Lease Contracts

(1) Finance lease transactions (lessee)

Finance lease transactions that do not transfer ownership

(i) Contents of leased assets

Tangible fixed assets: Mainly computer terminals (tools, furniture and fixtures).

(ii) Depreciation method of leased assets

Indicated in (2) Depreciation, Significant Accounting Policies.

(2) Operating lease transactions

Outstanding future lease payments for noncancellable operating leases

Due within 1 year	1,130 million yen
Due after 1 year	4,278
Total	<hr/> 5,409

(Translation)

Opinion

We have audited the Consolidated Financial Statements, which comprise the Consolidated Statements of Financial Position, the Consolidated Statements of Income, the Consolidated Statements of Changes in Equity and the Notes to Consolidated Financial Statements of MINEBEA MITSUMI Inc. (“the Company”) and its subsidiaries (collectively referred to as “the Group”), as at March 31, 2026 and for the year from April 1, 2025 to March 31, 2026 in accordance with Article 444-4 of the Companies Act.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position and the results of operations of the Group for the period, for which the consolidated financial statements were prepared, in accordance with the provisions of the second sentence of Paragraph 1, Article 120 of the Regulation on Corporate Accounting, which permit preparation omitting certain disclosures required under International Financial Reporting Standards.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in Japan. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in Japan (including requirements applied to the audit of financial statements of entities that have high social influence), and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Information

The other information comprises the business report and its supplementary schedules. Management is responsible for the preparation and presentation of the other information. Corporate auditors and the board of corporate auditors are responsible for overseeing the directors' performance of their duties with regard to the design, implementation and maintenance of the reporting process for the other information.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Responsibilities of Management and Corporate Auditors and the Board of Corporate Auditors for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the provisions of the second sentence of Paragraph 1, Article 120 of the Regulation on Corporate Accounting, which permit preparation omitting certain disclosures required under International Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern in accordance with the provisions of the second sentence of Paragraph 1, Article 120 of the Regulation on Corporate Accounting, which permit preparation omitting certain disclosures required under International Financial Reporting Standards.

Corporate auditors and the board of corporate auditors are responsible for overseeing the directors' performance of their duties with regard to the design, implementation and maintenance of the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with auditing standards generally accepted in Japan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of our audit in accordance with auditing standards generally accepted in Japan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, while the objective of the audit is not to express an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required

(Translation)

to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

- Evaluate whether the presentation and disclosures in the consolidated financial statements are in accordance with the provisions of the second sentence of Paragraph 1, Article 120 of the Regulation on Corporate Accounting, which permit preparation omitting certain disclosures required under International Financial Reporting Standards, the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Plan and conduct the audit of consolidated financial statements to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group that serves as the basis for the expression of an opinion on the consolidated financial statements. We are responsible for the command, supervision and inspection of the group audit. We remain solely responsible for our audit opinion.

We communicate with corporate auditors and the board of corporate auditors regarding, among other matters, the planned scope and timing of the audit, significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide corporate auditors and the board of corporate auditors with a statement that we have complied with relevant ethical requirements regarding independence, and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, measures taken to eliminate obstacles or safeguards applied to reduce obstacles to an acceptable level.

Interest required to be disclosed by the Certified Public Accountants Act of Japan

We do not have any interest in the Group which is required to be disclosed pursuant to the provisions of the Certified Public Accountants Act of Japan.

Notes to the Reader of Independent Auditor's Report:

The Independent Auditor's Report herein is the English translation of the Independent Auditor's Report as required by the Companies Act for the conveniences of the reader.

Opinion

We have audited the Non-Consolidated Financial Statements, which comprise the Non-Consolidated Balance Sheet, the Non-Consolidated Statement of Income, the Non-Consolidated Statement of Changes in Net Assets and the Notes to Non-Consolidated Financial Statements, and the accompanying supplementary schedules (“the financial statements and the accompanying supplementary schedules”) of MINEBEA MITSUMI Inc. (“the Company”) as at March 31, 2026 and for the 80th fiscal year from April 1, 2025 to March 31, 2026 in accordance with Article 436-2-1 of the Companies Act.

In our opinion, the financial statements and the accompanying supplementary schedules referred to above present fairly, in all material respects, the financial position and the results of operations of the Company for the period, for which the financial statements and the accompanying supplementary schedules were prepared, in accordance with accounting principles generally accepted in Japan.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in Japan. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements and the Accompanying Supplementary Schedules* section of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in Japan (including requirements applied to the audit of financial statements of entities that have high social influence), and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Information

The other information comprises the business report and its supplementary schedules. Management is responsible for the preparation and presentation of the other information. Corporate auditors and the board of corporate auditors are responsible for overseeing the directors' performance of their duties

with regard to the design, implementation and maintenance of the reporting process for the other information.

Our opinion on the financial statements and the accompanying supplementary schedules does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements and the accompanying supplementary schedules, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements and the accompanying supplementary schedules or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Responsibilities of Management and Corporate Auditors and the Board of Corporate Auditors for the Financial Statements and the Accompanying Supplementary Schedules

Management is responsible for the preparation and fair presentation of the financial statements and the accompanying supplementary schedules in accordance with accounting principles generally accepted in Japan, and for such internal control as management determines is necessary to enable the preparation of financial statements and the accompanying supplementary schedules that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements and the accompanying supplementary schedules, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern in accordance with accounting principles generally accepted in Japan.

Corporate auditors and the board of corporate auditors are responsible for overseeing the directors' performance of their duties with regard to the design, implementation and maintenance of the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements and the Accompanying Supplementary Schedules

Our objectives are to obtain reasonable assurance about whether the financial statements and the accompanying supplementary schedules as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with auditing standards generally accepted in Japan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements and the accompanying supplementary schedules.

As part of our audit in accordance with auditing standards generally accepted in Japan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements and the accompanying supplementary schedules, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, while the objective of the audit is not to express an opinion on the effectiveness of the Company's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements and the accompanying supplementary schedules or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate whether the presentation and disclosures in the financial statements and the accompanying supplementary schedules are in accordance with accounting standards generally accepted in Japan, the overall presentation, structure and content of the financial statements and the accompanying supplementary schedules, including the disclosures, and whether the financial statements and the accompanying supplementary schedules represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with corporate auditors and the board of corporate auditors regarding, among other matters, the planned scope and timing of the audit, significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide corporate auditors and the board of corporate auditors with a statement that we have complied with relevant ethical requirements regarding independence, and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, measures taken to eliminate obstacles or safeguards applied to reduce obstacles to an acceptable level.

Interest required to be disclosed by the Certified Public Accountants Act of Japan

We do not have any interest in the Company which is required to be disclosed pursuant to the provisions of the Certified Public Accountants Act of Japan.

Notes to the Reader of Independent Auditor's Report:

This is an English translation of the Independent Auditor's Report as required by the Companies Act of Japan for the conveniences of the reader.

Audit Report of the Audit & Supervisory Board

AUDIT REPORT

As the results of deliberation, the Audit & Supervisory Board prepared this Audit Report in accordance with reports presented by each Audit & Supervisory Board Member with respect to the performance of duties by the Directors during the 80th fiscal year from April 1, 2025 to March 31, 2026, and report the results as follows:

1. Method and Content of Audit Conducted by Audit & Supervisory Board Members and Audit & Supervisory Board

- (1) The Audit & Supervisory Board established the audit policy and audit plan, etc., received reports from each Audit & Supervisory Board Member on the implementation of audit and its results, received reports from Directors, etc. and the Independent Auditors on the performance of their duties and asked them details when necessary.
- (2) Each Audit & Supervisory Board Member conformed to the auditing standards prescribed by the Audit & Supervisory Board, complies with the audit policy and audit plan, etc., maintains communication with Directors, Executive Officers, and the Internal Auditing Office, other employees, etc., endeavored to collect information and establish a system necessary for auditing services, and conducted audit by the following method:
 - 1) We received reports from Executive Officers and employees, etc. on the performance of their duties, asked them details when necessary, reviewed important written decisions, and investigated business and financial conditions at the head office as well as at the main business offices of the Company while we attended meetings of the Board of Directors and other important meetings and held interviews with all Directors, including the Representative Directors. For subsidiaries, we communicated and exchanged information with their Directors, Audit & Supervisory Board Members, and others and received their business reports as necessary.
 - 2) We received reports from Directors, Executive Officers, and employees, etc., sought explanations as necessary and expressed opinions on the resolutions of the Board of Directors and the status of the system developed under such resolutions with regard to the establishment and management of the system stipulated in Article 100, paragraphs (1) and (3) of the Regulation for Enforcement of the Companies Act (Internal Control System) necessary to ensure the conformity of the performance of duties described in the business report by Directors with laws and regulations and the Articles of Incorporation and also to ensure the appropriateness of business in the corporate group that consists of a joint stock company and its subsidiaries.
 - 3) The Basic Policy of Item 3 (a), Article 118 of the Regulation for Enforcement of the Companies Act and each approach of Item 3 (b), Article 118 of the same described in the business report were reviewed.
 - 4) We monitored and verified that the Independent Auditors have maintained their independence and conducted appropriate audits. Also, we received reports from the Independent Auditors regarding the execution of their duties and requested explanations as needed. We received a notice from the Independent Auditors purporting to the formulation of a "System to ensure proper performance of its duties" (provided in each item of Article 131 of the Regulation on Corporation Accounting) in accordance with the "Quality Control Standards for Audits" (Business Accounting Council), among others, and requested explanations as needed.

Through the above methods, we reviewed the business report and the supplementary statements, Consolidated Financial Statements (Consolidated Statements of Financial Position, Consolidated Statements of Income, Consolidated Statements of Changes in Equity and Notes to Consolidated Financial Statements, which have been prepared omitting certain disclosures required under International Financial Reporting Standards, in accordance with the provisions of the second sentence of Article 120, paragraph (1) of the Regulation on Corporation Accounting) and Non-Consolidated Financial Statements (Non-Consolidated Balance Sheet, Non-Consolidated Statement of Income, Non-Consolidated Statement of Changes in Net Assets and Notes to Non-Consolidated Financial Statements) and the supplementary statements for the fiscal year ended March 31, 2026.

2. Results of Audit

- (1) Audit Results of business report, etc.
 - 1) We certify that the business report and their detailed statements fairly present the situation of the Company in accordance with laws and regulations and the Articles of Incorporation.
 - 2) We found no wrongful act or material fact in violation of laws and regulations or the Articles of Incorporation with respect to the performance of duties by the Directors.
 - 3) We certify that the resolutions of the Board of Directors with respect to the internal control system are proper and correct. In addition, we found no matter to be pointed out about the description in the business report and performance of duties by the Directors with respect to the internal control system.

(Translation)

4) We found no matter to be pointed out about the basic policy, which is described in the business report, regarding the quality and nature of persons who control decisions on the Company's financial and business policies.

We certify that each measure stipulated in Item 3 (b), Article 118 of the Regulation for Enforcement of the Companies Act, which is described in the business report, are consistent with such basic policy, would not interfere with the shareholders' common interests and are introduced not for maintaining the positions of the Company's officers.
