| Result of this term   | 100.00 yen               | -  | -                   |
| Results for previous fiscal year<br>(Term that ended at the end of<br>March 2025) | 75.00 yen                | 90.00 yen                                  | 165.00 yen          |

\* The Company conducted a three-for-one stock split of its common shares, effective October 1, 2025. Both the previous forecast and the revised forecast for the year-end dividend are stated in two ways: the actual dividend amount following the stock split and the dividend amount on a pre-split basis.

### 2. Reason for revision

Our fundamental policy is to focus on returning profits to shareholders while securing a stable management base and investing for future growth to achieve sustainable enhancement of corporate value. We consider the return of profits through dividends to be a core principle, and we aim to realize sustainable growth by balancing enhanced shareholder returns with strategic investments for the future.

In order to further enhance shareholder returns, we announced a new dividend policy on March 19, 2026, in the "Update on Initiatives to Strengthen Management Focused on Cost of Capital and Stock Performance"

Regarding the dividend forecast for the fiscal year ending March 2026, we would like to announce that, due to the

solid progress in performance compared to the performance forecast announced on April 25, 2025, and taking into account dividend payout ratios, we have revised the dividend forecast announced on August 20, 2025, from ¥36.67 to an increase of ¥33.33 per share, resulting in ¥70.00 per share.
