1. Qualitative Information Regarding the Quarterly Financial Results Under Review

(1) Explanation of Operating Results

During the first half of the fiscal year under review (July 1, 2020 to December 31, 2020), the spread of the novel coronavirus could not be contained, causing economic activities to stagnate and consumer confidence to decline. Under these circumstances, the Company Group has been operating its stores while taking all possible measures to prevent infection.

Revenue decreased by 1,810 million yen year on year due to a decline in the number of customers visiting our stores caused by the impact of the novel coronavirus. The status of the novel coronavirus and its impact on revenue in each country is as described below.

<Domestic operations>

New infections continue to occur, causing us to remain taking measures such as telework and self-restraint from going out. The number of customers visiting the Company's stores is decreasing year on year due to the impact of lengthening of hair-cut cycle and other factors under the circumstances.

Year-on-year comparison of the number of customers in Japan

(Unit: %)

	July 2020	August 2020	September 2020	October 2020	November 2020	December 2020	(Reference) January 2021
All	74.5	83.4	81.1	86.7	86.0	82.6	81.8
Existing stores	73.9	82.5	79.8	85.3	84.8	81.6	80.8

<Hong Kong>

As the number of newly infected persons has resurged since late November 2020, preventive measures, such as teleworking and self-restraint on going out, have continued, causing some impact on the business. Consequently, the number of customers visiting our stores has declined compared with the level of the previous year.

<Singapore>

Although the number of newly infected persons has been almost contained, preventive measures, such as teleworking and self-restraint from going out, have continued, causing some impact on the business. Consequently, the number of customers visiting our stores has declined compared with the level of the previous year.

<Taiwan>

The number of newly infected persons has been almost contained, and preventive measures are limited. Therefore, the impact of teleworking, self-restraint on going out and others is minor, and the number of customers visiting our stores has increased compared with the level of the previous year.

<United States (New York)>

New infections continue to occur and preventive measures, such as telework and self-restraint from going out, remain intact, causing a significant impact on the business, and the number of customers visiting our stores has been declining considerably compared to the level of the previous year. However, the impact on the consolidated results is minimal.

Cost of sales decreased by 182 million yen year on year mainly due to a decrease in the number of subcontracted stores and a decrease in outsourcing fees due to lower sales, although personnel expenses increased due to an increase in staff members at stores in Japan and abroad.

Selling, general and administrative expenses decreased by 119 million yen year on year mainly due to a decrease in the amount of provision for year-end allowances in Japan.

As a result, consolidated earnings in the first six months of the fiscal year under review were as follows: Revenue amounted to 9,300 million yen (down 16.3% year on year), operating profit was 358 million yen (down 70.5%), profit before tax was 266 million yen (down 76.7%), and profit attributable to owners of parent came to 228 million yen (down 69.9%).

In terms of our store network, we opened 16 stores. The breakdown is nine stores in Japan, and overseas, one in Singapore, two in Hong Kong, and four in Taiwan. Moreover, since we closed eight stores mainly due to relocation and integration with neighboring stores, we had 723 stores as of the end of the second quarter of the fiscal year under review.

The description by segment is omitted because the Company Group engages in a single segment of the haircut business.

(2) Explanation of Financial Position

(i) Assets, liabilities and equity

Assets, liabilities and equity at the end of the second quarter under review were as follows:

Current assets decreased by 1,422 million yen from the end of the previous fiscal year to 5,122 million yen. This was mainly due to a decrease of 1,355 million yen in cash and cash equivalents and a decrease of 268 million yen in income taxes receivable. Non-current assets decreased by 458 million yen from the end of the previous fiscal year to 25,718 million yen. This was mainly due to a decrease of 103 million yen in property, plant and equipment and a decrease of 308 million yen in right-of-use assets. As a result, assets decreased by 1,881 million yen from the end of the previous fiscal year to 30,840 million yen.

Current liabilities decreased by 1,473 million yen from the end of the previous fiscal year to 7,310 million yen. This was mainly due to a decrease of 1,485 million yen in borrowings and an increase of 96 million yen in other current liabilities. Non-current liabilities decreased by 628 million yen from the end of the previous fiscal year to 13,523 million yen. This was mainly due to a decrease of 343 million yen in borrowings and a decrease of 284 million yen in lease obligations. As a result, liabilities decreased by 2,101 million yen from the end of the previous fiscal year to 20,834 million yen.

Equity increased by 220 million yen from the end of the previous fiscal year to 10,006 million yen. This was mainly due to an increase in retained earnings of 228 million yen.

(ii) Cash flows

Cash and cash equivalents (hereinafter referred to as "Cash") at the end of the second quarter under review decreased by 1,355 million yen from the end of the previous fiscal year to 3,762 million yen. Individual cash flows for the first half of the fiscal year under review and the factors behind them were as follows:

(Cash flows from operating activities)

Cash provided by operating activities was 2,050 million yen (2,204 million yen provided in the same period of the previous fiscal year). This was mainly attributable to increasing factors of Cash, such as depreciation and amortization of 1,639 million yen and income taxes refund of 271 million yen, in contrast to decreasing factors, such as an increase in trade and other receivables of 243 million yen.

(Cash flows from investing activities)

Cash used in investing activities was 281 million yen (471 million yen used in the same period of the previous fiscal year). This was mainly attributable to decreasing factors of Cash, such as purchase of property, plant and equipment of 254 million yen and payments of guarantee deposits of 28 million yen.

(Cash flows from financing activities)

Cash used in financing activities was 3,093 million yen (1,706 million yen used in the same period of the previous fiscal year). This was mainly attributable to decreasing factors of Cash, such as a net decrease in short-term borrowings of 1,500 million yen and repayments of lease obligations of 1,313 million yen.

(3) Explanation of Information on Future Forecasts Including Consolidated Earnings Forecast

The full-year earnings forecast for the fiscal year ending June 30, 2021 announced on August 13, 2020 remains unchanged. Please note that forward-looking statements and others included in this document, including earnings forecasts, are based on information available to and certain premises deemed to be rational by the Company, which is not committed to achieving such. Actual earnings and others may differ due to various factors.
