The Company also judges whether the holding is necessary to increase its mid- to long-term corporate value, considering comprehensively its business strategies and business relation with such partners, among other factors.

For the shares other than those of affiliated companies, the Company determines that the holding of the shares be limited to a minimum necessary, and every year at the Board of Directors Meeting, examines the purpose of the acquisition and holdings per share and cost & benefit with consideration of capital cost, and periodically judges the appropriateness of holding. The “Rules for Board of Directors Meeting” and “Standards for the Discussions at Board of Directors Meetings” require that conflict of interest transactions between the Company and any of its Directors be approved by the Board of Directors. The regulations of the Company also require the Board approval for conflict of interest transactions between the Company and any individual who, having been elected by a board resolution, accepts a position in charge of executing the business of the Company or a Group Company (“Executive Officers”), and does not serve concurrently as Directors. The Company determines the amounts of the basic remuneration based on the roles of recipients, taking also into account the management environment, their responsibilities and the remuneration trends of other companies.

The “performance-based remuneration” is provided to boost motivation to improve business performance, and its amount is determined based on a single-year performance evaluation of the entire Company and a specific business of which a Director is in charge.

The "performance-based remuneration" is designed in a way that the amount of payment will increase according to the results. The payment rate of the basic remuneration ranges from 0% to 150% (when the standard value is achieved: 75%). The performance is measured using a combination of key management indicators which the Company should continue to attach importance to, such as adjusted operating profit (\*), net profit attributable to Panasonic Corporation stockholders and operating cash flows. Specifically, the performance of Directors is evaluated based on the comparison between the results of each of such indicators in the previous fiscal year and numerical targets of the fiscal year in which they are evaluated.

The "restricted stock as remuneration" is a type of stock compensation in which the restriction of transfer of shares is lifted subject to Directors serving the Company for a specified period of time, and is allocated with the aim of providing an incentive to continuously improve corporate value and promote further value sharing with the Company's shareholders. The ratio of the incentive option to the overall remuneration package is designed to increase as the position of the recipient Director gets higher. In addition, the total amount for each recipient is set based on overall considerations of various factors, such as duties of each Director and the balance with monetary remuneration.

In November 2020, the Company resolved to transition to a holding company system scheduled for April 2022. The aim of the transition is to strengthen the competitiveness of its business from a medium- to long-term perspective.

With the transition to a holding company structure, the group will be divided into operating companies. Each operating company will work to significantly enhance its business competitiveness through swift decision-making in response to the external environmental changes and flexibly develop systems in accordance with business characteristics. On the other hand, the holding company will continue to support the business growth of each operating company and define growth areas from the perspective of optimizing the group as a whole, thereby striving to enhance the corporate value of the entire group.

Aiming to continuously generate returns that exceed the expectations from the capital market, the Company has been conscious on its capital cost management. ROIC (Return on Investment Capital) and WACC (Weighted Average Cost of Capital) are calculated according to each business division, and are used in portfolio management and making investment decisions, etc. As a Company-wide KPI, the Company continuously aims to reach ROE of 10% or more. The Company’s business strategies and policies are posted on its official web site.

| Supplementary Explanation [updated] |
|-------------------------------------|

In November 2015, the Company has established an optional “Nomination and Compensation Advisory Committee” that is chaired by an independent Outside Director. In response to inquiries from the Board of Directors, this committee deliberates and reports to the Board, on the results of its deliberation regarding the Company’s internal reviews on the nomination of candidates for Directors, Executive Officer, and A&SB Member, and on the appropriateness of the Company’s Director and Executive Officer Compensation System and amount and content of individual compensation.

The Committee monitors the candidates for the Group CEO successor and can propose the replacement timing of the Group CEO. The committee deliberated on the timing of replacement of the Group CEO and the candidates for the Group CEO successor and on the result of internal discussion regarding candidates such as Directors at the five meetings held in fiscal 2021 (Attendance ratio: 100%), and reported to the Board of Directors. In particular, in appointing the candidate for a new Group CEO, the committee selected multiple candidates, carefully conducted a series of selection processes, including monitoring, and deliberated on the appropriateness of the candidates based on the qualities required of the role of a new Group CEO, taking into account the fact that there will be a significant change, which was the transition to a holding company structure, and reported the results of the deliberations at the Board of Directors.

As of the filing date of this report, the members of this Committee are (a) Ms. Ota, an Independent Outside Director and the chairman of this Committee, (b) Mr. Toyama, an Independent Outside Director, (c) Mr. Tsutsui, an Independent Outside Director, (d) Mr. Tsuga, Director, Chairman of the Board, and (e) Mr. Kusumi, Representative Director, Group CEO. The Company has enhanced the objectivity, transparency and independence of the committee, by ensuring that it is chaired by an Outside Director and that Outside Directors constitute a majority of its membership.

### Supplementary Explanation

#### <Performance based compensation>

The Company adopts the "performance based compensation" as a short-term incentive to provide incentive to boost business performance, and its amount shall be determined based on a single-year performance evaluation of the entire Company and a specific business of which a Director is in charge.

The "performance-based remuneration" is designed in a way that the amount of payment will increase according to the results. The payment rate of the basic remuneration ranges from 0% to 150% (when the standard value is achieved: 75%). The performance is measured using a combination of key management indicators which the Company should continue to attach importance to, such as adjusted operating profit (\*), net profit attributable to Panasonic Corporation stockholders and operating cash flows. Specifically, the performance of Directors is evaluated based on the comparison between the results of each of such indicators in the previous fiscal year and numerical targets of the fiscal year in which they are evaluated.

\* A management indicator for Panasonic calculated by subtracting Cost of sales and Selling,

general and administrative expenses from Net sales.

(3) Lifting of the restriction period

Notwithstanding the provision of (1) above, Panasonic shall lift the restrictions for all the Allotted Shares at the end of the restriction period, provided that the Applicable Director remained in his/her position as preassigned by the Panasonic Board of Directors during the restriction period. However, in the case of term of office expiration, death or other justifiable reason, set forth in (2) above, if the Applicable Director retires from the position set forth in (2) above before the expiration of the restriction period, the number of Allotted Shares to be freed from restriction and the timing of restriction lifting shall be reasonably adjusted as necessary. In addition, Panasonic shall acquire without consideration, the Allotted Shares on which
