

April 30, 2025  
Sony Group Corporation

### Statement Regarding Media Reports

Certain media reports were published from April 28, 2025 to today (JST) stating that Sony Group Corporation is considering a partial spin-off of its semiconductor business (the Imaging & Sensing Solutions (“I&SS”) business). Those reports were not based on any announcement by Sony Group Corporation, and there are no such plans as reported at this time. Although Sony Group Corporation is always considering the mid- to long-term growth strategy of the I&SS business from various aspects, nothing has been determined at this time.
