## 1. Qualitative Information on Quarterly Financial Results

### (1) Explanation of Operating Results

During the nine months ended November 30, 2025, the global economy remained in a state of uncertainty, due to the impact of U.S. tariff policies, price trends and fluctuations in financial and capital markets associated with monetary policies in each country, as well as the prolonged crisis in Ukraine and ongoing tensions in the Middle East region. In the U.S., the economy remained resilient overall, as the wealth effect from rising stock prices boosted consumption among high-income segments, despite downward pressure on personal consumption stemming from the trend of worsening employment conditions and the pass-through of tariff costs to product prices, etc. In Europe, personal consumption remained solid, particularly in the robust services sector, and the economy overall maintained positive growth, despite the impact of U.S. tariffs. In China, government's economic stimulus measures bolstered consumption, thereby boosting personal consumptions, but growth has slowed due to factors such as the prolonged downturn in the real estate market. In Japan, personal consumption maintained its resilience, supported by favorable income conditions, despite downward pressure from factors such as reduced exports due to U.S. tariffs

Amid the current economic climate, the FURUNO Group is promoting the management initiatives aimed at sustainable growth under its long-term management vision for 2030, "FURUNO GLOBAL VISION 'NAVI NEXT 2030'". Guided by our business strategy, "Achieving better safety, security, and comfort to foster a society and sea navigation that considers the needs of people and the environment" and our human resources and corporate culture vision of "VALUE through GLOBALIZATION and SPEED", we are advancing strategies to achieve these goals. Currently, we are in the final year of Phase 2 (FY2023 to FY2025) of the Mid-term Management Plan, which upholds the basic measures of improvement in profitability, generating resources for investment in growth through the expansion of sales, and implementation of sustainable management.

Furthermore, we are formulating Phase 3 of our Mid-term Management Plan, which will commence from FY2026. In Phase 3, we will promote strategic investments aimed at sustainable growth and strive to further enhance corporate value. Details are scheduled to be disclosed in early March 2026.

Regarding the markets in which the FURUNO Group operates, in the merchant vessels market in the Marine Business, ship prices, which had remained high, declined slightly, but still remain at a high level compared to past standards. On the other hand, while the number of orders for new ships has decreased from previous levels due to uncertainty in ship demand, demand for alternative fuel vessels designated for reducing GHG (greenhouse gas) emissions has remained high, and shipbuilders' construction work already acquired continued to increase and remains at high levels. In the market for fishing vessels, demand in Asia remained strong. In the pleasure boat market, demand was sluggish, particularly for small and medium-sized boats in North America, due to the impact of loan interest rates when purchasing boats and rising prices.

In the Industrial Business, the volume of domestic automobiles sold in the Intelligent Transportation System (ITS)/Global Navigation Satellite System (GNSS) market was on a recovery trend. A significant increase in the number of mobile phone base stations was maintained in conjunction with the expansion of the 5G areas. In the healthcare market, there was a strong demand for the installation of machines such as IVDs (in-vitro diagnostics equipment). In defense equipment business, the domestic defense-related market expanded due to an increase in the defense budget.

In the domestic educational ICT market for the Wireless LAN Systems/Handheld Terminal Business, the demand for upgrading communication infrastructure equipment related to ICT development remained sluggish.

As a result, in the nine months ended November 30, 2025, the Company reported consolidated net sales of ¥102,756 million (up 9.8% year on year) and gross profit of ¥43,271 million (up 9.5% year on year). Operating profit was ¥12,679 million (up 21.0% year on year), ordinary profit ¥14,323 million (up 32.3% year on year), and profit attributable to owners of parent ¥13,310 million (up 55.9% year on year).

The average yen to U.S. dollar and yen to euro exchange rates applied in the nine months ended November 30, 2025 were USD 1=JPY 149 and EUR 1=JPY 166, respectively, and compared to the same period of the previous fiscal year, the yen appreciated by approximately 1.4% against the U.S. dollar while depreciating by approximately 1.0% against the euro.

Business performance by segment is as follows. Segment profit is based on operating profit.

(i) Marine Business

In the Marine Business, sales to new merchant vessel building projects continued to increase, backed by the shipbuilders' high level of construction work already acquired, reflecting the demand for alternatively fueled vessels. Furthermore, equipment sales and sales from maintenance services increased thanks to the firm replacement demand and demand for maintenance services of existing vessels. In the Americas, while the market for pleasure boats has been sluggish, sales continued to increase mainly for strategic products launched in the period. In Europe, sales of equipment for existing merchant vessels and maintenance services primarily remained at a high level. In Asia, sales of equipment for newly built merchant vessels primarily continued to increase, and maintenance services were solid. In Japan, sales of equipment for fishing vessels declined, but sales of equipment for existing merchant vessels and maintenance services continued to increase.

As a result, in the Marine Business, net sales were ¥89,449 million (up 11.7% year on year) and segment profit was ¥13,207 million (up 26.6% year on year).

(ii) Industrial Business

In the Industrial Business, although sales of biochemical analyzers decreased in the Healthcare segment due to the impact of the intensifying cost competition primarily in the Chinese market, sales of time synchronization products primarily to overseas customers were strong in the ITS/GNSS segment. In the defense equipment business, the impact of the transition to the new production management system has gradually diminished, and production output is showing a trend toward recovery.

As a result, in the Industrial Business, net sales were ¥10,708 million (up 2.7% year on year) and segment profit was ¥275 million (down 0.7% year on year) due to rising costs in the defense equipment business.

(iii) Wireless LAN Systems/Handheld Terminal Business

In the Wireless LAN Systems/Handheld Terminal Business, the downturn in the demand environment mainly in the educational market continued, and sales of wireless LAN access points decreased.

As a result, in the Wireless LAN Systems/Handheld Terminal Business, net sales were ¥2,360 million (down 16.5% year on year) and segment profit was ¥41 million (down 82.0% year on year).

(iv) Others

Other sales amounted to ¥236 million (down 10.1% year on year) and a segment loss was ¥94 million (a segment loss of ¥112 million was reported in the same period of the previous fiscal year).

(2) Explanation of Financial Position

Total assets at the end of the nine months ended November 30, 2025 increased by 6.4% from the end of the previous fiscal year to ¥131,400 million. This was mainly due to an increase of ¥4,760 million in cash and deposits.

Total liabilities at the end of the nine months ended November 30, 2025 decreased by 3.8% from the end of the previous fiscal year to ¥48,955 million. This was mainly due to a decrease of ¥5,400 million in short-term borrowings.

Net assets at the end of the nine months ended November 30, 2025 increased by 13.5% from the end of the previous fiscal year to ¥82,445 million. This was mainly due to an increase of ¥8,569 million in retained earnings.

As a result, the equity ratio rose from 58.4% at the end of the previous fiscal year to 62.4%.

(3) Explanation of Consolidated Financial Results Forecast and Other Forward-looking Information

As for the consolidated financial results forecast, there have been no changes to the full-year consolidated financial results forecast and dividend forecast announced in the “Consolidated Financial Results for the Six Months Ended August 31, 2025,” released on October 10, 2025.

(3) Notes to Quarterly Consolidated Financial Statements

(Notes on going concern assumption)

Not applicable.

(Notes in case of significant changes in shareholders' equity)

Not applicable.

(Changes in accounting policies)

(Application of the "Accounting Standard for Current Income Taxes," etc.)

The Company has applied the "Accounting Standard for Current Income Taxes" (ASBJ Statement No. 27, October 28, 2022; hereinafter referred to as the "Revised Accounting Standard 2022"), etc., from the beginning of the first quarter ended May 31, 2025.

With regard to the amendment to categories in which current income taxes should be recorded (taxes on other comprehensive income), the Company follows the transitional treatment prescribed in the proviso to Paragraph 20-3 of the Revised Accounting Standard 2022 and the transitional treatment prescribed in the proviso to Paragraph 65-2 (2) of the "Guidance on Accounting Standard for Tax Effect Accounting" (ASBJ Guidance No. 28, October 28, 2022; hereinafter referred to as the "Revised Implementation Guidance 2022"). This change in accounting policies has no impact on the quarterly consolidated financial statements.

For the amendment related to the revised accounting treatment for consolidated financial statements when gain or loss on sale of shares in subsidiaries resulting from transactions between consolidated companies is deferred for tax purposes, the Company has applied the Revised Implementation Guidance 2022 from the beginning of the first quarter ended May 31, 2025. This change in accounting policies was applied retrospectively, and the quarterly consolidated financial statements and the consolidated financial statements for the previous fiscal year have accordingly been restated. This change in accounting policies has no impact on the quarterly consolidated financial statements and the consolidated financial statements for the previous fiscal year.

(Application of "Accounting for and Disclosure of Current Taxes Related to the Global Minimum Tax Rules")  
The Company has applied the "Accounting for and Disclosure of Current Taxes Related to the Global Minimum Tax Rules" (PITF No. 46, March 22, 2024) from the beginning of the first quarter ended May 31, 2025.

Due to the adoption of paragraph 7 of PITF No. 46, the quarterly consolidated financial statements for the nine months ended November 30, 2025 do not include income taxes, arising from the global minimum tax rules.
