# 1. FY2024 Financial Results

# 1) Financial Highlights

Consolidated Financial Results for the Fiscal Year Ended March 31, 2025

**Orders received** >> 29,721 million yen 8.2% yoy

**Net sales** >> 29,329 million yen 6.9% yoy

Orders received increased due to continued demand for decarbonization-related products (fuel cell testing systems and water electrolysis testing systems) and large orders received for Instrumentation Systems.

Net sales increased for the fifth consecutive term as a result of steady capital investment by our customers.

**Operating profit** >> 2,879 million yen 32.4% yoy

**Ordinary profit** >> 3,034 million yen 25.7% yoy

**Profit attributable to owners of parent** >> 1,991 million yen 13.4% yoy

Profits increased due to higher revenues, ongoing efforts to reduce costs, and the effect of product price revisions (implemented in April 2024). All items achieved record profits for the third consecutive year.

## 5. Forecast for FY2025

# Forecast for FY2025

Despite increasing uncertainty due to factors such as persistently high energy prices, rising inflation, and volatile exchange rates, as well as the impact of U.S. tariff policies, we anticipate that FY2025 performance will show year-on-year increases in both revenue and profit, based on the assumption of continued demand growth from major customers (automotive and electronic components sectors) and expanding demand in hydrogen-related fields aimed at achieving a decarbonized society.
