Our Views and Policy on Lowering the Minimum Investment Unit

Yokohama, September 25, 2026 - Lasertec Corporation announces today its views and policy on lowering the minimum investment unit, as described below.

1. Our views on lowering the minimum investment unit
We recognize that lowering the minimum investment unit is an effective measure for enhancing share liquidity, attracting a wider range of investors, and revitalizing the stock market.

2. Our policy on lowering the minimum investment unit
We conducted stock splits several times in the past. We will consider, as appropriate, whether we should lower the minimum investment unit while comprehensively taking into account various factors including share liquidity, share price trends, and the number of shareholders.

Note: This disclosure is made in accordance with Article 409 of the Securities Listing Regulations of the Tokyo Stock Exchange ("Disclosure of Lowering Investment Units"). Lasertec falls under this rule, as the value of a single investment unit of its shares was ¥500,000 or higher as of June 30, 2026.
