I. Basic Views on Corporate Governance and Basic Information on Capital Structure, Corporate Attributes and Other Matters

1. Basic Views

The Company has been engaged in business activities based on “Strict Preciseness and Transparency,” as its fundamental management policy.

The Corporate Governance Guidelines (the “Guidelines”) is posted on the Company’s website to provide basic views and other matters concerning corporate governance of the Company.

(<https://www.fanuc.co.jp/en/ir/guideline/index.html>)

[Reasons for Non-compliance with the Principles of the Corporate Governance Code]

The Company has implemented all of the Principles of the Corporate Governance Code.

[Disclosure Based on the Principles of the Corporate Governance Code]

[Principle 1.4 Strategic Share Holdings (So-called “Cross-Shareholdings” in the Corporate Governance Code)]

1 The Company will hold shares of other companies only when it is deemed necessary for the maintenance and expansion of the business of our Group from a medium and long-term perspective based on the benefits, such as the development of new products, the stable procurement of parts and materials, the maintenance of business relationships with customers, etc., upon considering the holding costs, etc. as well. Every year, we will perform an assessment based on such perspectives, and will strive to reduce the number of shares for which the holding significance is determined to be tenuous.

2 In exercising our voting rights of cross-held shares, we will comprehensively consider impact on our business and on management of such other companies, and other such matters, from a medium and long-term perspective, and then we will appropriately exercise such voting rights.

[Principle 1.7 Related Party Transactions]

For transactions involving director conflicts of interest and the like, such directors must obtain approval of the Board of Directors as required by laws and regulations, and we will provide guidance to officers and employees from time to time so that they will not impair the shared interests of shareholders.

[Principle 2.6 Roles of Corporate Pension Funds as Asset Owners]

In order to secure future benefit resources in a stable manner while considering the risks, the corporate pension fund is making investments for the purpose of securing overall profits that are deemed to be necessary in the long term.

Under the fund, the Asset Management Committee, which is led by the chief financial officer and is composed

of executives and staff of the Accounting Department and the Labor Department, is established. The asset management policy and asset composition ratio according to policy are evaluated by the Asset Management Committee, and then determined at the Conference of Representatives. Investment status is monitored on a regular basis.

The party who is entrusted with the investment of the fund accepts the Japanese version of the Stewardship Code.

The fund incorporates personnel who have the appropriate skills as well as having office workers attend outside seminars, etc. in order to improve their skills.

[Principle 3.1 Full Disclosure]

(i) Company Objectives (e.g., Business Principles), Business Strategies and Business Plans

We ensure the practice of the principle, “Strict Preciseness and Transparency,” which has been the basic principle of FANUC.

Strict Preciseness

The permanence and soundness of a company are created by Strict Preciseness.

Transparency

The corruption of an organization and the collapse of a company start from opacity.

While firmly maintaining “Strict Preciseness and Transparency,” our Group strives to practice the following through the unified efforts of the Group.

- While keeping in mind the original notion that FANUC products are equipment to be used at production sites, we will ensure, in product development, that they are “Reliable” “Predictable” “Easy to Repair” in order to support our customers in minimizing downtime and improving the operating rates of their plants.
- Prioritizing service activities over sales activities, we will take a “Service First” attitude in which we provide high level services that meet the global standards of FANUC in all parts of the world.
- As long as customers continue to use FANUC products, we will keep on providing maintenance service, which we call “lifetime maintenance.”
- Under the slogan of “one FANUC,” we will make the fullest use of the following strength of our Group: the provision of total solutions that integrate FA, robots and robomachines, and the provision of customer service around the world as a united group.

(ii) Basic Views and Guidelines on Corporate Governance

We think it is important for the practical functioning of governance to share such an easy-to-understand and simple principle among all officers and employees of the Group.

We have the code of conduct while practicing “Strict Preciseness and Transparency,” we will make efforts to maintain a high level of awareness of officers and employees of our Group into the future.

(iii) Board Policies and Procedures in Determining the Remuneration of the Senior Management and Directors.

For remuneration of directors, we determine an amount of remuneration of inside directors, basically based on their positions, that consists of performance-based remuneration and fixed remuneration, and an appropriate amount of fixed remuneration of outside directors from the standpoint of ensuring independence, which are both determined by resolution of the Board of Directors to the extent approved at the shareholders’ meeting. This decision shall be made through the deliberation of the Nomination and Remuneration Committee, which is chaired by independent outside directors and the majority of which is

Outside Directors' Relationship with the Company (2)

Name	Designation as Independent Director	Supplementary Explanation of the Relationship	Reasons of Appointment
Kazuo Tsukuda	○	Although the Company has business transactions with Mitsubishi Heavy Industries, Ltd., at which Kazuo Tsukuda serves as Executive Corporate Advisor and served as Chairman and President, the transaction value accounts for less than 0.5% of consolidated net sales of both of the companies. Therefore, there is no risk of his independence being affected by that position.	In order to develop the Company's business steadily and to enhance its corporate value, it is quite effective to introduce to the Board of Directors an outsider's eye with a broad perspective and excellent insight. Kazuo Tsukuda has been providing the Company with extremely valuable advice, with his outstanding knowledge of manufacturing and extensive experience in management, having a deep understanding of the Company's business. He will be expected to continue to contribute to the Company's Board of Directors from an independent position as Outside Director. He does not correspond to any of the matters as defined by financial instrument exchanges that may involve conflict of interests with general shareholders, and is therefore deemed to be independent.
Yasuo Imai	○	Although the Company has business transactions with Air Water Inc., at which Yasuo Imai serves as Director, Vice Chairman of the Board, the transaction value accounts for less than 0.5% of consolidated net sales of both of the companies. Therefore, there is no risk of his independence being affected by that position.	After joining in the Ministry of International Trade and Industry (currently, the Ministry of Economy, Trade and Industry), Yasuo Imai had experience of being posted overseas as General Manager of the Washington Office of Japan National Oil Corporation. He successfully held a number of positions starting from the post of Deputy Director-General, Director-General of the Petroleum Department of Agency for Natural Resources and Energy. Subsequently he moved to the post of Director-General of the Manufacturing Industries Bureau, and then to the post of Commissioner of the Japan Patent Office. Based on these experiences, Yasuo Imai, being familiar with foreign affairs, has a global perspective and extensive knowledge concerning the manufacturing industry and the protection of intellectual property, etc. At the same time, he is currently an active corporate executive and is also knowledgeable about corporate management due to having more than 13 years' experience in business. Yasuo Imai has been providing the

			<p>Company with extremely valuable advice as Outside Director with his extensive experience in various fields and from his broad vision. He will be expected to continue to contribute to the Company's Board of Directors from an independent position as Outside Director.</p> <p>He does not correspond to any of the matters as defined by financial instrument exchanges that may involve conflict of interests with general shareholders, and is therefore deemed to be independent.</p>
Masato Ono	○	<p>Although the Company has business transaction such as operating procedures with Mizuho Financial Group, Inc. at which he served as Deputy President and Representative Director until June 2008, the transaction value accounts for less than 0.5% of consolidated net sales of both of the companies. And the Company has never applied for a loan from any bank of Mizuho Financial Group. Therefore, there is no risk of his independence being affected by that position.</p>	<p>Our company has specialized in business activities in the narrow field of the automation of manufacturing, and as such, the Board of Directors consists mostly of Directors with engineering background focusing on this core business. Given this context, Masato Ono has been providing the Company with extremely valuable advice on enhancing corporate values from a totally different point of view by contributing to active discussions at the meeting of the Board of Directors based on his many years of experience in management of financial institutions and his rich knowledge of risk management. He will be expected to continue to contribute to the Company's Board of Directors from an independent position as Outside Director.</p> <p>He does not correspond to any of the matters as defined by financial instrument exchanges that may involve conflict of interests with general shareholders, and is therefore deemed to be independent.</p>

Naoko Yamazaki	○	—	Naoko Yamazaki has extensive knowledge of advanced aerospace engineering and manned spacecraft systems, including robotic arms, as an engineer. She is well versed in science and technology, as well as risk management including crisis management, and has experienced extremely challenging environments as an astronaut. Based on her wealth of experience and insight, she can be expected to oversee the Company's management and provide useful advice for the improvement of corporate values. She does not correspond to any of the matters as defined by financial instrument exchanges that may involve conflict of interests with general shareholders, and is therefore deemed to be independent.

The upper limit of the total annual remuneration, etc. for Directors was set at the total amount of followings by resolution of the 37th Ordinary General Meeting of Shareholders of June 28, 2006.

- 1) Fixed annual aggregate ceiling amount of ¥1 billion

(It should be noted, however that the variable amount for the first half of the fiscal year shall be paid in the second half of the relevant fiscal year and that for the second half shall be paid in the first half of following fiscal year.)

The Company is a company with an Audit & Supervisory Board.

The Company has a Board of Directors comprised of 12 Directors (including 4 Outside Directors), as well as an Audit & Supervisory Board comprised of 5 Members (including 3 Outside Members).

A Nomination and Remuneration Committee, which is chaired by independent outside directors and the majority of which is comprised of independent Outside Directors, has been established to deliberate the appointment and dismissal of Directors and their remuneration, in order to ensure objectivity and transparency of the procedures.

Presidents of subsidiaries regularly report the status of their businesses to the Company and receive prior approval on important matters.

Ernst & Young ShinNihon LLC is in charge of the accounting audit of the Company.

3. Reasons for Adoption of Current Corporate Governance System

As the business environment in which the Company operates evolves rapidly, the Board of Directors will not be able to make appropriate management decisions without obtaining accurate information on customers, market trends, service status, and others. Due to these circumstances, in principle, the directors other than outside directors maintain involvement in operations themselves, acquire accurate information, and mutually share such information among member of the Board of Directors, in order for them to properly monitor the execution of our business. We have chosen to be a company with a board of auditors, while having such monitoring function of the Board.

In addition, an optional Nomination and Remuneration Committee has been established to ensure objectivity and transparency of procedures regarding the appointment and dismissal of Directors and their remuneration.
