Explanation of Actions **Update**

In its “Medium-term Management Plan 2025,” which will end in Fiscal 2025, the Company aimed to achieve ROE of 15% or higher and ROIC of 10% or higher.

The Company regularly checks its cost of capital. Weighted average cost of capital (WACC) as of March 31, 2026 was between 8.2% and 10.8% (the Company’s estimate).

The Company did not achieve its targets for ROE and ROIC for Fiscal 2025. Management is presently addressing the issue of the declining operating margin and invested capital turnover, which is caused by a reduced operating rate that can be attributed to weak component demand, inventory adjustments and other factors.

In the new Medium-Term Management Plan 2030, the Company set targets of ROE of 15% or higher and ROIC of 10% or higher. By steadily conducting Q [Development Capability], C [Profitability], and D [Supply Capability], the Company will strive to enhance corporate value through the combination of economic and social value, and work to improve ROE and ROIC.

1. Basic policy

The remuneration plans for directors (and other officers) of the Company shall be designed to raise motivation for the achievement of the goals for the economic value and social value of the Medium-term Management Plan in accordance with the following basic principles.

- (1) Remuneration plans shall emphasize the linkage with remuneration and the Group's sustainable growth and medium- to long-term corporate value, and be designed to share the same value with shareholders.
- (2) Remuneration shall be set at levels that can attract and retain excellent human resources with global perspective.

3. Remuneration structure by position

(1) Executive Directors

"Basic remuneration," "performance-based bonuses" as incentive for the execution of business, and "stock remuneration" will be paid with the objective of encouraging management that emphasizes the continuing improvement of corporate value.

(2) Non-executive Directors who are not Audit & Supervisory Committee Members

Type of remuneration		Content, etc. of remuneration	Fixed / variable
Basic remuneration		Monthly cash in accordance with position and responsibilities	Fixed
Performance-based bonus		Cash to be paid at a fixed time each year in accordance with the consolidated performance for each fiscal year. Consolidated profit will be used as the relevant performance indicator to establish a clearer linkage between remuneration and factors contributing to the enhancement of corporate value and shareholder value. The standard amount of remuneration shall be designed to fluctuate based on the consolidated profit for the fiscal year under review in a manner that the ratio of basic remuneration to performance-based bonus is 1:1 when the goal of the Medium-term Management Plan is achieved. The actual amount to be paid shall be determined by multiplying the standard amount to be paid by the co-efficient (75% to 125%) as calculated from the level of performance of the business the applicable officer is in charge of, the level of achievement of the social value goal in the Medium-term Management Plan, and individual evaluation.
