1.Overview

Company-wide sales (combined brick-and-mortar stores and e-commerce) for September 2026 were 90.6% of the same month last year.
Following August, this month was also marked by record-breaking prolonged rainfall and a lack of sunshine across the country due to the influence of the autumn rain front and typhoons.
The prolonged period of inclement weather—including 34 consecutive days of rain and the lowest recorded hours of sunshine on record—temporarily dampened consumer sentiment toward golf, resulting in company-wide sales that fell below the level of the same month last year.
In October, when weather conditions are expected to improve, we will actively roll out new fall and winter products to coincide with the start of the peak golf season. By further expanding brand awareness and deepening our customer base, we aim to recover our business performance, further expand our operations, and enhance our brand value.
We plan to announce our third-quarter financial results on Monday, November 16, 2026. In the interest of fair disclosure, we will refrain from responding individually to inquiries regarding our financial performance during the period leading up to the announcement

1. The above data are based on sales (retail prices) in the company's directly operated domestic stores and online stores, which are aggregated on a monthly basis.
2. The information provided in this monthly sales relates to 'Domestic Retail', 'Domestic EC' and 'Overseas EC' of the Company's sales channels.
3. Same-store sales are calculated on the basis of sales in stores that were open both in the month under review and in the same month of the previous year.
4. Monthly sales (YoY) are calculated on the basis of retail price, so there is no impact from the change in revenue recognition standard.
5. The above data are as at the date of publication. Any differences from the final figures will be revised and reported in the following month's publication.
